Abete Power

Pure Spruce Warmth, Exceptional Efficiency

Abete Power Wood Pellets bring the pristine essence of alpine forests directly to your home heating. Crafted from select Abete spruce wood, known for its clean burn and high energy content, these pellets are designed for those who value purity, efficiency, and a touch of mountain freshness in their heating solution.

Key Features

- Select Spruce Wood: Sourced from Abete trees, these pellets boast a natural composition that ensures a higher calorific value and a cleaner, more efficient burn.
- Eco-Friendly Heating: Abete Power is dedicated to sustainable practices, producing pellets that not only offer exceptional warmth but also maintain low emissions and minimal ash residue.
- Spruce Freshness: Experience the unique, fresh ambiance of alpine forests with every use, enhancing the comfort and quality of your home's heating.

A Touch of the Alps at Home

Choosing Abete Power Wood Pellets means inviting the serene and invigorating energy of the Alps into your living space. It's about more than just warmth; it's a commitment to a heating experience that harmonizes efficiency with the natural purity of alpine fir.

Versatile Heating Solution

Suitable for a wide array of heating systems, Abete Power pellets are as versatile as they are efficient. Their exceptional burn quality makes them ideal for households seeking a reliable, eco-conscious heat source that brings a hint of alpine tranquility into their homes.

Scent of the forest, respect for nature.

TECHNICAL FEATURES

Species	Pellet of natural wood
Length	3,15 < L ≤ 40 mm
Diameter	6 mm (± 1 mm)
Ashes	≤ 0,70%
Moisture content	≤ 10,0%
Calorific value	≥ 4,6 kWh/kg
Bulk density	Bulk dens. ≤ 750 Kg/m^3
Mechanical durability	≥ 98% weight
Packaging	15 kg bags and Big Bag

0 745760 443451

The highest quality wood for superior heating power

The parameters indicated in the technical data sheet and shown on the back of the packaging correspond to the minimum guaranteed values of the **ENplus A1 certification**.
