Golden Power

Versatile Excellence for All Heating Systems

Golden Power Wood Pellets are crafted to perform at their best, whether in a ventilated stove or a high-power boiler system. Designed for those who seek efficiency without compromise, these pellets deliver maximum heat output while maintaining low ash residue, ensuring a superior heating experience across various types of heating appliances.

Key Features

- Optimized for High Efficiency: Golden Power pellets are engineered to excel in both ventilated stoves and high-capacity boiler systems, providing versatile heating solutions without sacrificing performance.
- Low Ash Content: Benefit from minimal ash production, which translates to easier maintenance and cleaner operation of your heating system.
- Superior Heat Output: Enjoy the warmth and comfort of a high-calorific-value fuel that maximizes the efficiency of your heating, ensuring your space is perfectly heated with less fuel.

The Gold Standard in Wood Pellets

Golden Power Wood Pellets set the gold standard for home heating. They are the ideal choice for homeowners who demand the best in terms of efficiency, cleanliness, and environmental responsibility. With Golden Power, you can expect a heating solution that's as reliable as it is eco-friendly.

For Advanced Heating Systems

Whether you're using a modern ventilated stove or a robust boiler system, Golden Power pellets are designed to meet and exceed the demands of advanced heating technologies. Their low ash residue and high heat output ensure that your system runs smoothly, providing consistent warmth without the hassle of frequent cleanups.

TECHNICAL FEATURES

Species	Pellet of natural wood
Length	3,15 < L ≤ 40 mm
Diameter	6 mm (± 1 mm)
Ashes	≤ 0,70%
Moisture content	≤ 10,0%
Calorific value	≥ 4,6 kWh/kg
Bulk density	Bulk dens. ≤ 750 Kg/m^3
Mechanical durability	≥ 98% weight
Packaging	15 kg bags and Big Bag

0 745760 443314

The highest quality wood for superior heating power

The parameters indicated in the technical data sheet and shown on the back of the packaging correspond to the minimum guaranteed values of the **ENplus A1 certification**.
