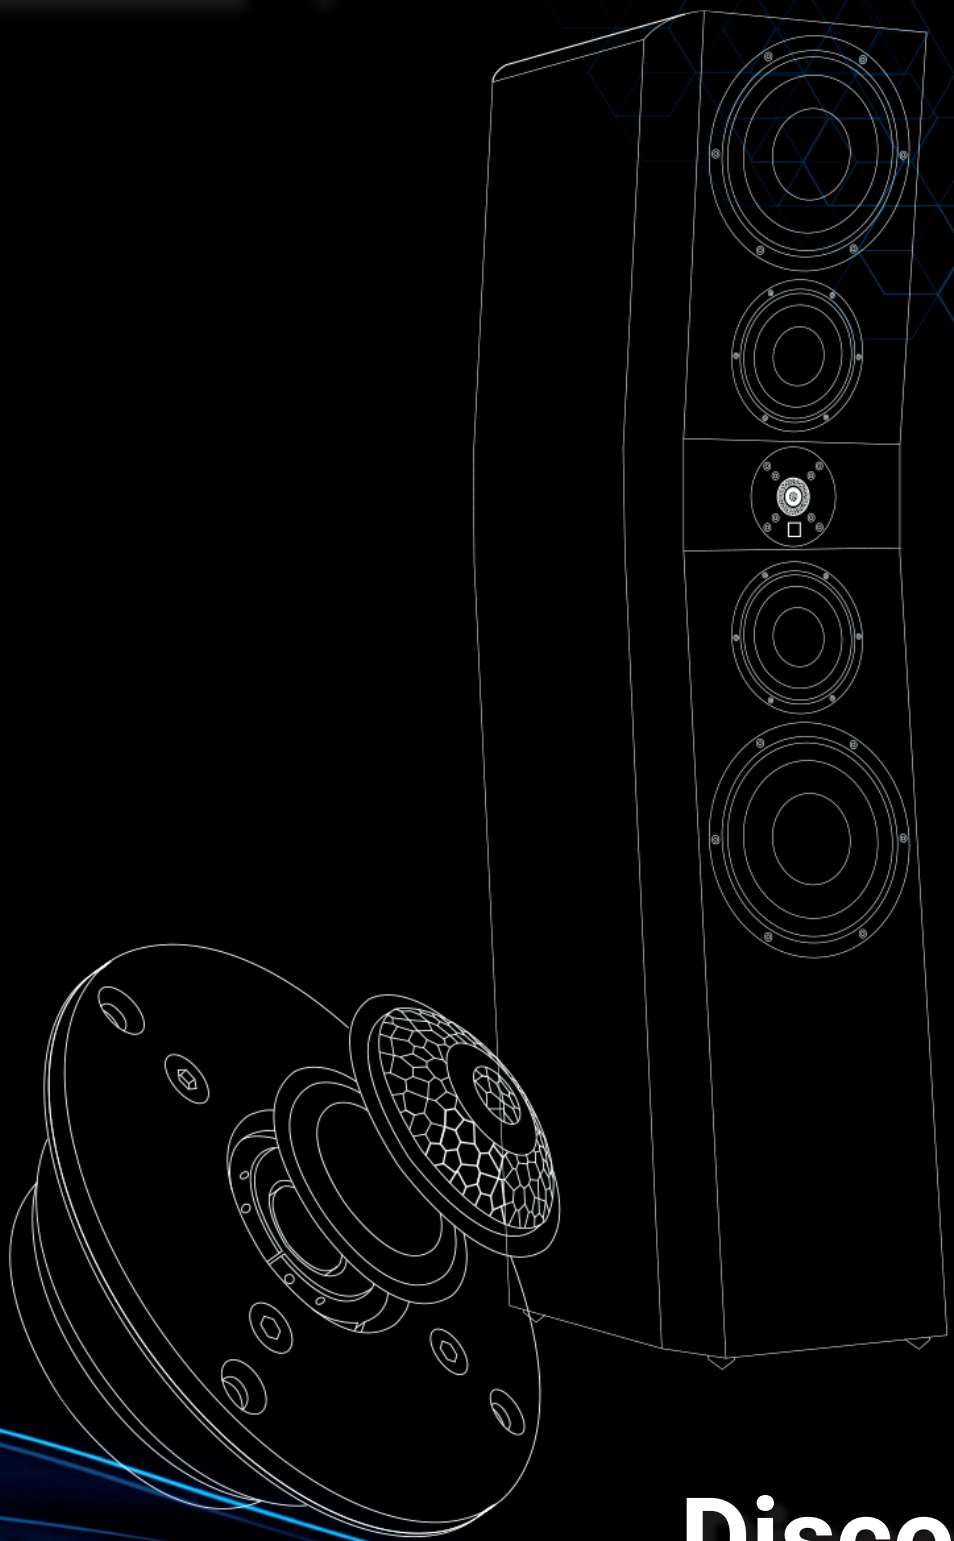
SVS SOUND REVOLUTION



Discover the NEW ULTRA-SERIE

SEALED SUBWOOFERS

SB-Serie

Musical TNT: Small Packages, Huge Impact

From clean, tight bass guitar riffs that shake the dance floor, to bomb blasts that shake your chest, SVS compact subwoofers pump out impressively immense sound. They've been designed to be inconspicuous, and to beautifully blend with your décor. And while easily overlooked, they'll make your soundtracks and movie scores hard to ignore. Cleverly engineered, and expertly equipped, these sealed units work with your room to deliver a no-compromise listening experience. Integrating seamlessly with your full range speakers, music will have greater dimension and detail than before.

PORTED SUBWOOFERS

PB-Serie

Hollywood Blockbusters, meet your match

When you really want to step up your playback experience, our ported boxes are the big guns. At high playback volumes they create the dramatic, immersive experience of IMAX-style theaters. They are right at home in mid-sized home theaters, great rooms and large open-concept spaces. Engineered to be clean and articulate, they also make beautiful music—something that lesser ported subwoofers can find challenging. Bigger, heavier and with larger footprints than our other subwoofers, these are born to deliver full-on drama and delight.
