Norwood Road

A215 - Bus Priority

We're working to speed up bus journeys on Norwood Road

Lambeth has received funding from TfL's Bus Priority programme to improve bus journey times on Norwood Road and the A215 corridor, making buses faster and more reliable. We're engaging with the community to better understand how to improve bus journeys and inform our plans for future improvements.

On bus priority corridors we aim to:

- Improve bus journey times, for quicker and more reliable journeys
- Reduce traffic and improve air quality, with more people choosing to travel by bus, walk or cycle. Our aim is for 85% of journeys to be sustainable borough-wide
- Make streets safer and healthier, with clearer road layouts that are safer for people walking, cycling and using public transport
- Make it easier to access local shops, services and jobs through faster travel, including neighbourhoods that other forms of public transport don't reach

Design Engagement

As part of our Design Engagement phase, we want to hear from you about the proposed designs. We want to know how this will impact your bus journeys and other journeys such as walking, wheeling and cycling, and what other improvements you would like to see.

This feedback will be used together with other data such as bus speeds, parking pressure and traffic counts to finalise designs for the corridor. This will be published alongside a decision report for the scheme. The engagement starts on 21/09/2026 and ends on 19/10/2026.

Have your say

Visit us online

To read more about the project and have your say, scan the QR code or visit our online engagement site at:
