

ANDREAS HELLKVIST

ORGELPARTY POP EDITION

A light-hearted and groovy collection of pop songs (and some others) from the 60s through 90s, with the Hammond organ and drums as the only instruments. During the pandemic, a worldwide community followed Andreas Hellkvist and his weekly streamed concerts on Saturday nights. Each time, the audience would hear a new set of songs of various kinds, arranged for solo Hammond. The repertoire that emerged is still used extensively at his regular concerts (or organ parties, as they are called). This album presents a selection of some of the poppier songs, with Ola Bothzén on drums. Welcome to the party!
