Vision

& Mission

Our vision is to be a leading international furniture manufacturer offering products of premium quality that inspire and last a lifetime.

Our core mission is to create value for all our customers through reliability, product range and quality service.

Our Philosophy

THE 4P MODEL

This philosophy of 4P is part of the daily life of each personnel from the labor up to the management.

People – Punctuality – Product – Profitability

People: Discipline, Communicative, Credible, Having Integrity, Continuously improved

Punctuality: punctuate time and workmanship

Product: Quality products result oriented

Profitability: social and economic advantage

Our Principals

1. Continuous Improvements
2. Credibility, Accountability and Respect
3. Integrity and Ethical Behavior
4. Operational Excellence
5. Positive Attitude and Leadership

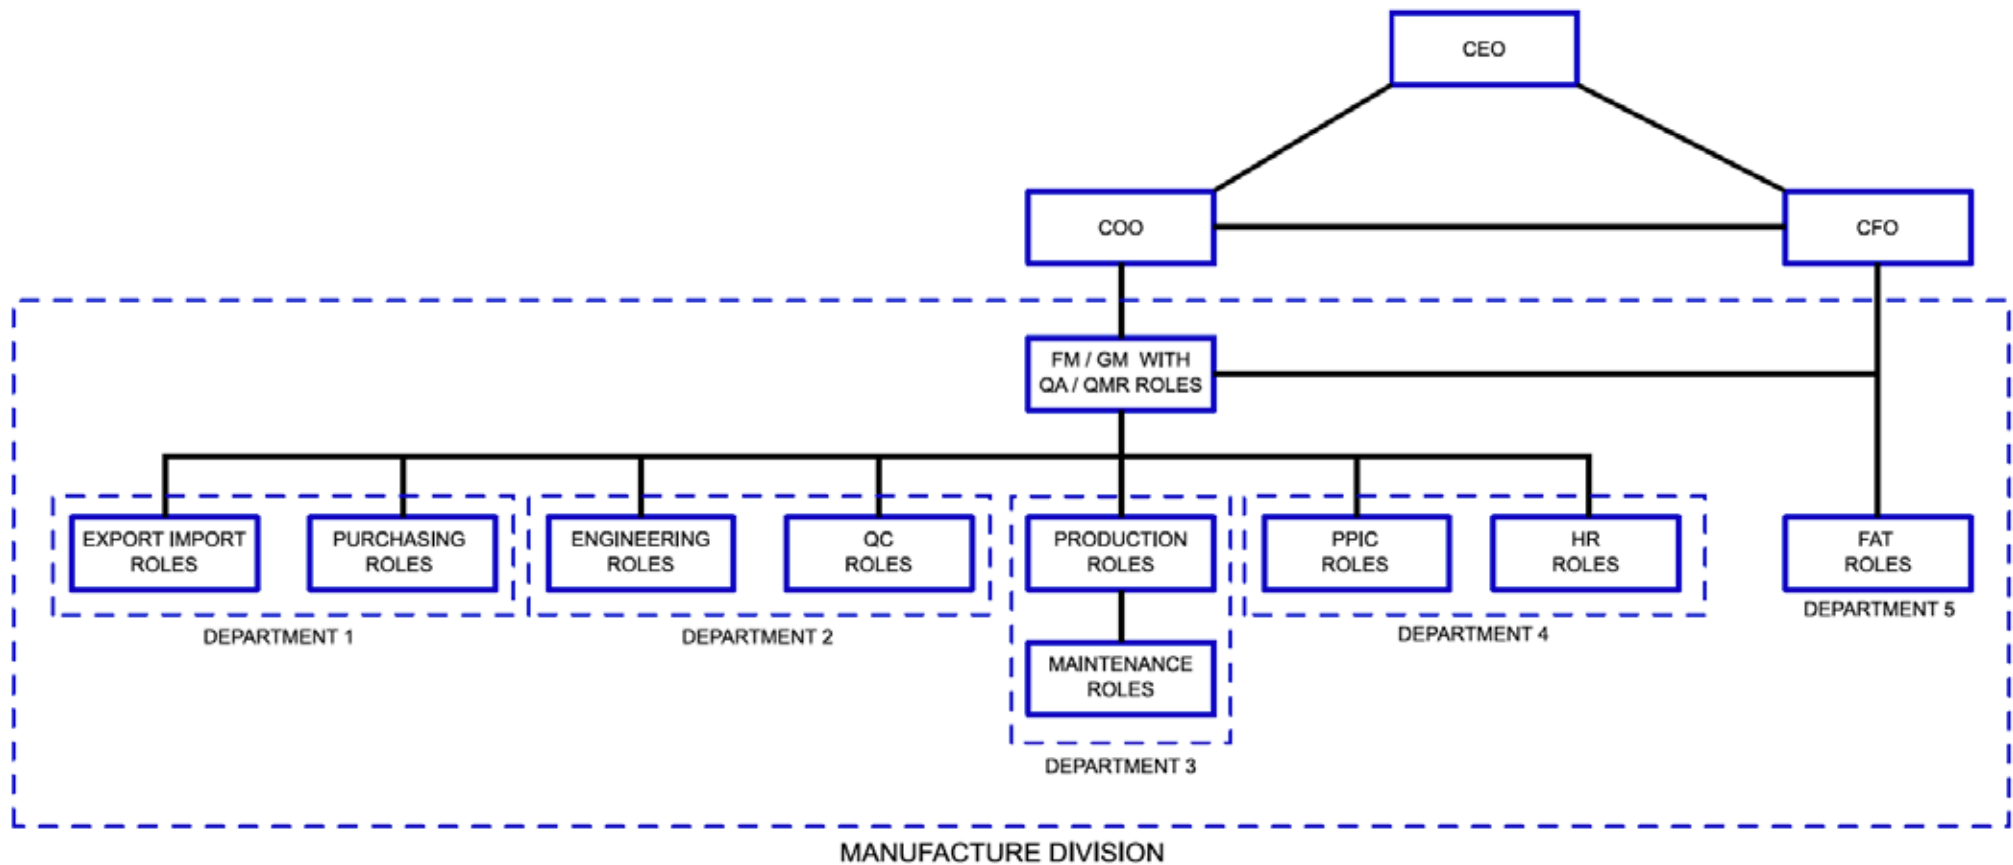

Production

ORGANIZATIONAL STRUCTURE

To achieve higher functionality and efficiency we have adopted a functional organizational structure. We simplified all the departments and grouped positions into work units based on similar activities, skills, expertise, and goals. Having smaller departments means faster results and follow ups.

ORGANIZATION STRUCTURE - SIMPLIFIED DEPARTMENT

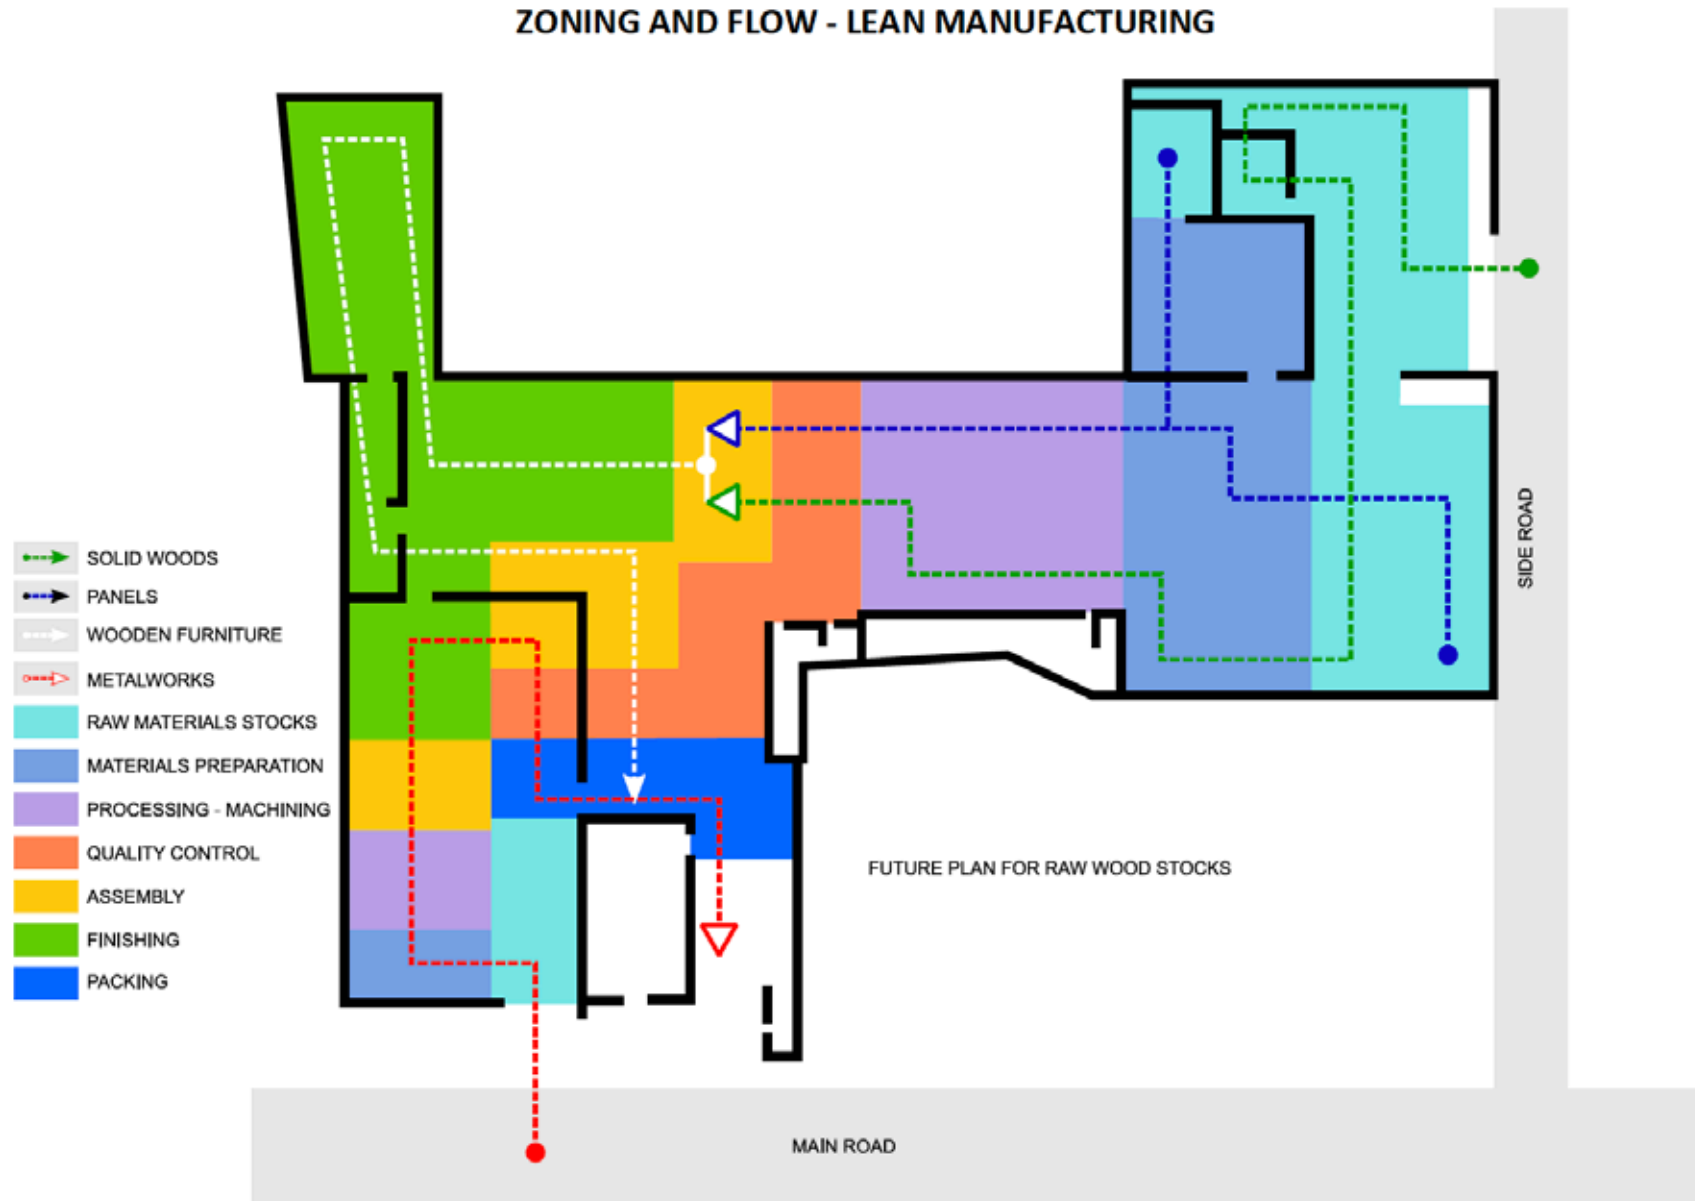

Facilities & Process

The Factory Indonesia boasts one of the most modern manufacturing facilities in Jepara. We operate a 110,000 square feet production facility run by a team of highly skilled and experienced engineers, operators and craftsmen. Utilizing the latest computerized technology to create precision-built items and customized products for projects in a variety of scales.

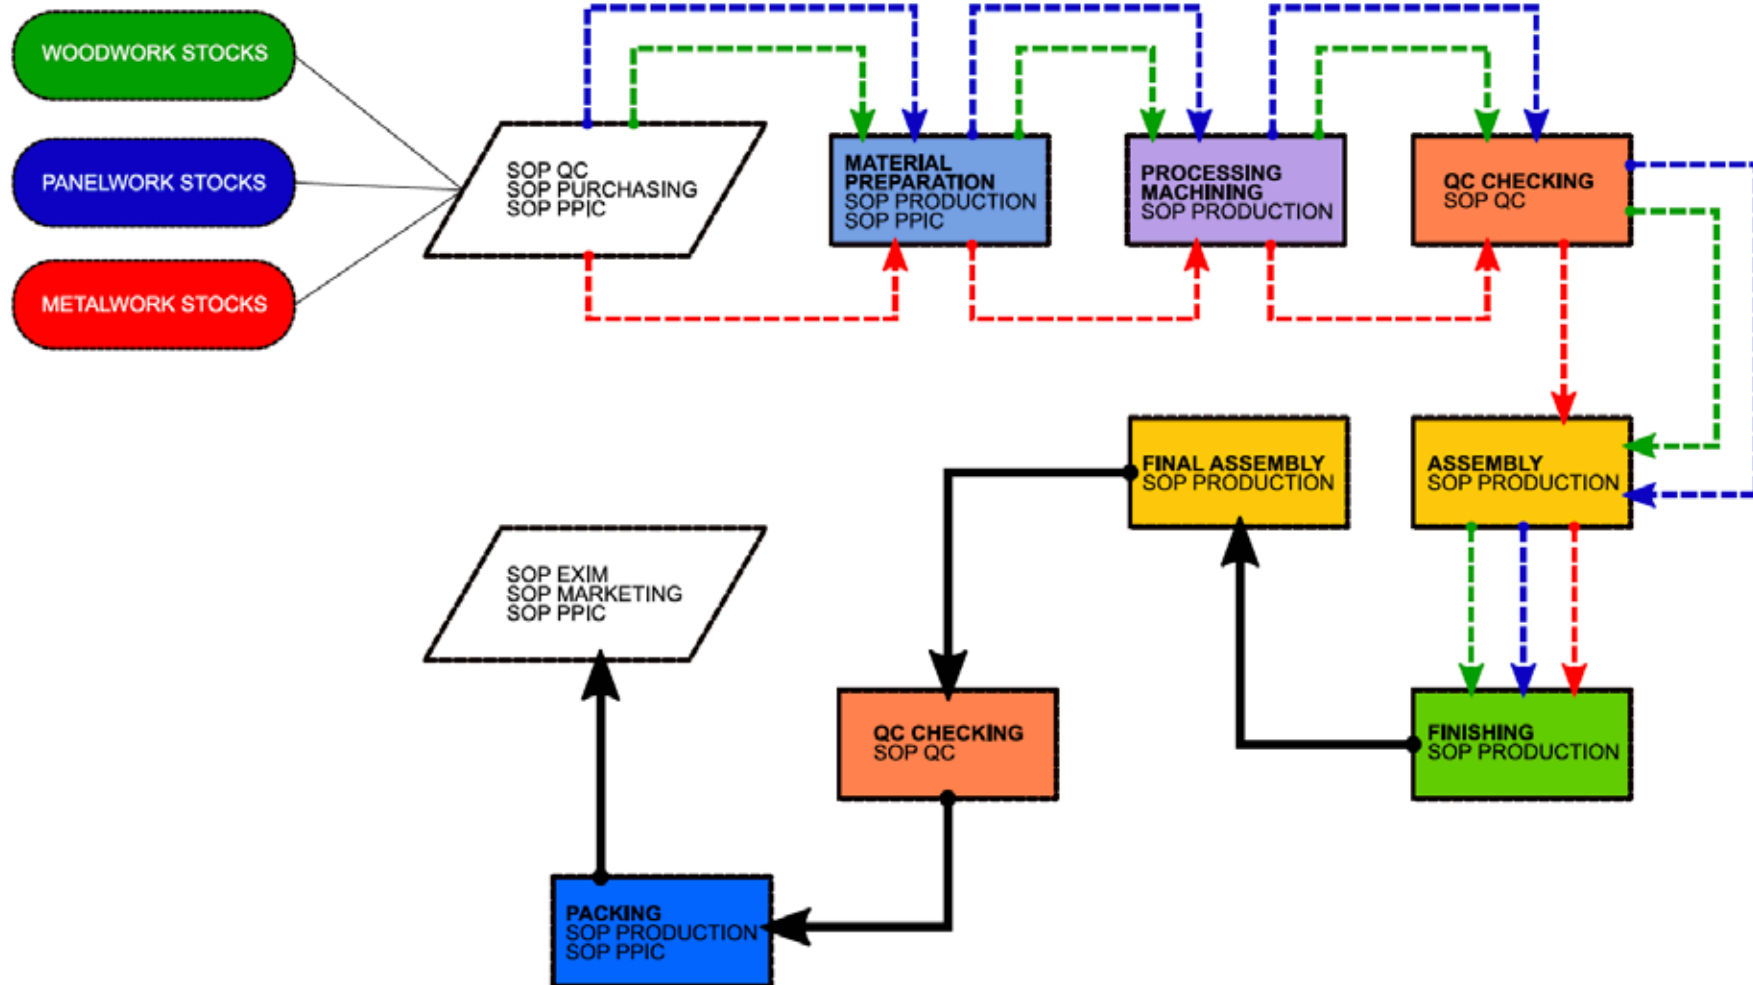

We adopted a sophisticated system that ensures accuracy of information of raw materials required, items being produced and warehouse control. This system guarantees a smooth operation between the different departments and our suppliers.

ZONING AND FLOW - LEAN MANUFACTURING

PRODUCTION OPERATIONAL FLOW - LEAN MANUFACTURING

Products

Danish Heritage, Superior Craftmanship

The Factory Indonesia focuses on crafting furniture that redefine quality and durability. We work with many mediums and mastered many materials. However, our true expertise lies in our work with Grade A teak wood.

Bedroom - Living room - Dining -
Outdoor - Occasional - Accents -
Hospitality Projects

Sample lead time: 2 weeks
Production lead time : 6-8 weeks

Materials

TEAK WOOD

Our Teak Collection offers a full range of furniture using the highest quality teak material sourced directly from Indonesia. Our collection includes a wide range of chairs, tables, and benches.

IMPORTED SOLID WOOD

Our solid wood is strong and ages incredibly well with time. The ultimate noble and renewable material, is always sourced from responsibly and carefully managed forests.

WOOD VENEER

Veneering is actually an ancient art that dates back to ancient Egypt. People mistakenly assume that veneered furniture is inferior to solid wood. However, veneers are often an ideal option for high-end furniture pieces and can be more costly than solid wood.

MARBLE

Marble's natural quality is also its obvious advantage. No two pieces of marble are alike, so every piece of marble furniture will be 100% unique. Our marble is available in various stone types and colors.

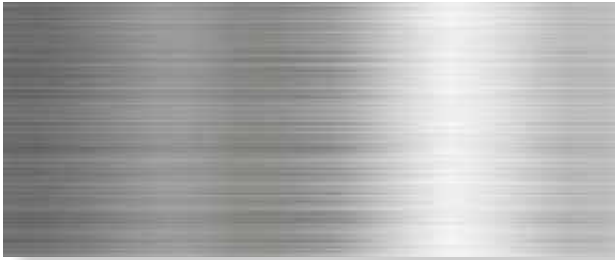

STONES

Natural stone furniture has a certain timeless beauty. Our furniture made from natural stone are durable and strong products and can be used both indoors and outdoors.

RATTAN

Our synthetic rattan furniture is made with only the highest quality materials, to withstand a variety of extreme weather conditions.

METALS

Metal materials have found its place in various areas in the industry It is one of the more durable materials and because we only use the highest quality, our furniture will never show any sign of deterioration against day-to-day wear.

Suppliers

We only choose to work with the top material suppliers in the industry.

Sustainability With Love for Mother Earth

We are proud of our dedication to making environmental-friendly choices that reduce our impact on the environment.

In order to protect and preserve our natural treasures, we use sustainability as guideline in all

business activities – from the design of products to the manufacturing facilities and processes.

All furniture are SLVK certified and produced from wood harvested from responsibly managed forests.
