## Competition programme 2020

**13 to 19 April : Techno 293 OD European Championships in Marseille, France.** This will be a first opportunity for people to test and watch demos of the first complete board/foil/rig packages, which will be made available to coaches and riders.

**End of July (TBC): Techno+ World Championships in Latvia.** This will feature the first International Techno 130 Windfoil Challenge. Thirty boards and foils will be made available for "charter" at this event.

**24 to 31 October : Techno 293 OD World Championships in Torbole/Italy.** A second International Techno Foil Challenge will take place at the end of a week where over 400 young racers from 36 countries are expected to attend. Thirty boards and foils will be available for "charter" at this event.
