

Technology sessions

	ROOM 1 La Stazione	ROOM 2 L'Apero Vino	ROOM 3 Academia I	ROOM 4 Academia II	ROOM 5 Gritti Palace	ROOM 6 La Fenice I	ROOM 7 La Fenice II
14:00 – 14:20	Forescout <i>Sales/Strategic</i> 360-Degree Asset Visibility & Continuous Automated Security Across Your Digital Terrain – Forescout Continuum	Thales Technical How to Secure O365 & Outlook with Encryption solutions	F5 <i>Sales/Strategic</i> How to Secure Modern Apps in Distributed Environments	Juniper Technical Our Network Does Its Own Troubleshooting	SentinelOne <i>Sales/Strategic</i> “One goal, One Mission – XDR” Smarter, Stronger, Faster, Autonomous	Axonius Technical Helping You Cross the CAASM	Vectra <i>Sales/Strategic</i> Delivering SOC Efficiency with Attack Signal Intelligence
14:25 – 14:45	Fortinet <i>Sales/Strategic</i> Extend Threat Intelligence Outside the Perimeter	Palo Alto Networks Technical Zero Trust Network Access with Zero Exceptions	Infoblox <i>Sales/strategic</i> How to Catch Threats where They Are Born	Netskope Technical Zero Trust: The Data Protection Edition	Silverfort <i>Sales/Strategic</i> ITDR – Solving the Blind Spots of MFA & Service Accounts	Datacore Technical Shield Your Data Against Ransomware & Other Threats with Object Storage.	Wasabi <i>Sales/Strategic</i> How to Fight Ransomware with Immutable Cloud Storage
14:50 – 15:10	Forescout Technical OT: ICS Networks – Secured with Forescout Continuum	Thales <i>Sales/Strategic</i> Thales & Microsoft, Passwordless Authentication with Fast Identity Online	F5 Technical Enterprise-Class Security for Cloud Applications – a Real-Time Demo	Juniper <i>Sales/Strategic</i> Public cloud Experience with Your Hybrid/Private Datacenter	SentinelOne Technical Singularity XDR: Best of Both Worlds	Axonius <i>Sales/Strategic</i> What is CAASM & Why Does Your Organisation Need It	Vectra Technical Detecting the Unknown in Practical Terms
15:15 – 15:35	Fortinet Technical How to SASE, ZTNA and SD-WAN? Leading the Evolution of Networking and Security	Palo Alto Networks <i>Sales/Strategic</i> Zero Trust Network Access with Zero Exceptions	Infoblox Technical DNS in the Cyber Kill Chain	Netskope <i>Sales/Strategic</i> Ready for a Real Conversation About Zero Trust?	Silverfort Technical ITDR – Realtime Protection with Identity Security Policies & Service Accounts Fencing	Datacore <i>Sales/Strategic</i> Expand Your Business by Adding DataCore into Your Portfolio	Wasabi Technical The Foundation for a Multi-Cloud Architecture
15:35 – 15:55	Power Break						
15:55 – 16:15	Forescout <i>Sales/Strategic</i> 360-degree Asset Visibility & Continuous Automated Security Across Your Digital Terrain – Forescout Continuum	Thales Technical How to secure O365 & Outlook with Encryption Solutions	F5 <i>Sales/Strategic</i> How to Secure Modern Apps in Distributed Environments	Juniper Technical Our Network Does Its Own Troubleshooting	SentinelOne <i>Sales/Strategic</i> “One goal, One Mission- XDR” Smarter. Stronger, Faster, Autonomous	Axonius Technical Helping You Cross the CAASM	Vectra <i>Sales/Strategic</i> Delivering SOC Efficiency with Attack Signal Intelligence
16:20 – 16:40	Fortinet <i>Sales/strategic</i> Extend Threat Intelligence Outside the Perimeter	Palo Alto Networks Technical Zero Trust Network Access with Zero Exceptions	Infoblox <i>Sales/Strategic</i> How to Catch Threats Where they Are Born	Netskope Technical Zero Trust: The Data Protection Edition	Silverfort <i>Sales/Strategic</i> ITDR – Solving the Blind Spots of MFA & Service Accounts	Datacore Technical Shield Your Data Against Ransomware & Other Threats with Object Storage.	Wasabi <i>Sales/Strategic</i> How to Fight Ransomware with Immutable Cloud Storage
16:45 – 17:05	Forescout Technical OT: ICS Networks – Secured with Forescout Continuum	Thales <i>Sales/Strategic</i> Thales OneWelcome, One Platform for Every Identity	F5 Technical Enterprise-Class Security for Cloud Applications – a Real-Time Demo	Juniper <i>Sales/trategic</i> Public Cloud Experience with Your Hybrid/Private Datacenter	SentinelOne Technical Singularity XDR: Best of Both Worlds	Axonius <i>Sales/Strategic</i> What is CAASM & Why Does Your Organisation Need It	Vectra Technical Detecting the Unknown in Practical Terms
17:10 – 17:30	Fortinet Technical How to SASE, ZTNA and SD-WAN? Leading the Evolution of Networking & Security	Palo Alto Networks <i>Sales/Strategic</i> Zero Trust Network Access with Zero Exceptions	Infoblox Technical The Roll of IPAM in a Security Event	Netskope <i>Sales/Strategic</i> Ready for a Real Conversation About Zero Trust?	Silverfort Technical ITDR – Realtime Protection with Identity Security Policies & Service Accounts Fencing	Datacore <i>Sales/Strategic</i> Expand Your Business by Adding DataCore into Your Portfolio	Wasabi Technical The Foundation for a Multi-Cloud Architecture.
