Dear Parents/Carers

Changes to School Building Access for Pupils

I am writing regarding recent changes to pupils' access to the main school buildings. Pupils are not allowed inside B or C blocks during break and lunch times, except for pre-arranged clubs or in inclement weather when alternative provision may be made. To reinforce this, we have recently implemented the following changes:

Certain doors in B & C blocks are locked during break and lunch times, although they open automatically in the event of a fire alarm. In this case, the blocks would also be checked by fire wardens.

Toilet access at break and lunch times is now in A block. This is the closest block to the school canteen and is easily accessible from the yard. (Toilets are open in all blocks at all other times. Pupils always have access to toilets – there is never a time when all toilets are locked.)

If you have any questions regarding these changes, please email your child's head of Year via contact@cantonian.org

Yours sincerely

MR G JONES

Acting Headteacher
