

CBC 100

- LCT kokoscleaner ready to use

Product description:

Water-based cleaning agent made from renewable raw materials, with a pleasant smell, removes heavy dirt such as rubber wear, rubber residues, bitumen and wax residues, grease, oils, soot and deposits on steel, stainless steel, aluminium, non-ferrous metals and other surfaces.

Application:

Coconut cleaner dissolves difficult and heavy dirt.

Can be used manually with a cloth, brush or washing brush, then wipe with a cloth. Effective alternative to VOC-containing and/or irritating solvents and crude oil.

Features and benefits:

- No labeling according to the EU directive
- VOC-free
- Pleasant smell
- Ready to use
- Low foam cleaner
- Based on renewable raw materials from recycled products
- Low impact on the user and the environment
- Does not attack the surface

Durability:

12 months at +5 ° C to +30 ° C, dry and sealed.

Additional documents:
