

CBC 300 - MAXI CLEAN

-Fluid for cleaning and degreasing machine parts in cleaning tub

Product description:

CBC 300 – Maxi Clean is a water-based cleaning agent for machine parts. Developed for the toughest contaminants, such as bitumen, some varnishes, anti-corrosion waxes. Burnt-on fat and oils are safely removed and broken down with the help of natural microorganisms contained in the cleaning liquid.

Application:

CBC 300 – Maxi Clean cleaning fluid is ready for use.

Do not dilute with water.

Do not mix CBC 300 Maxi Clean with other cleaning liquids.

Regularly check that the cleaning tub's circulation and air pump is working.

The use of protective glasses and gloves is recommended.

Storage temperature: 2-30 °C

Advantage:

- Water-based cleaning fluid - non-flammable.
- Low risk of skin irritation.
- Does not contain solvents. Increased lifespan of the cleaning fluid due to the microorganisms that keep the fluid clean and effective.

Contents:

pH-neutral and free of VOCs.
