

# CBC 580 - H-Clean

## -Water-based alkaline degreaser

### Description:

CBC 580 – H-Clean is a water-based, phosphate-free, and environmentally friendly cleaner, particularly suitable as an alternative to cleaning agents with high contents of VOCs and solvents. CBC 580 – H-Clean is an extra powerful cleaning agent for all hard surfaces, especially effective for metal surfaces. It effectively removes rubber, bitumen, wax residues, grease, oil, soot, and similar substances. CBC 580 has a unique component composition that includes surfactants from coconut shells and other natural ingredients, contributing to its excellent dissolving power.

### Application:

CBC 580 should be applied concentrated with a cloth, brush, or sprayer. After cleaning, the surface must be rinsed with clean water and wiped with a cloth. CBC 580 - H-Clean removes heavy contamination such as marks and residues from tires and rubber, bitumen and wax residues, grease and oil, soot, protein, dried blood, and the like from surfaces such as iron, stainless steel, aluminium, non-ferrous metals, etc.

**Note:** Rinse with clean water after applying.

### Advantage:

- Does not contain solvents
- Pleasant fragrance
- Ready to use
- Low foaming
- Water based
- Does not contain A and B substances
- The product is not subject to labelling, according to EU directives
- Effective alternative to cleaning liquids
- NSF registration no. 166779
