

Clever Clean Cleaner C 4000 Air

High pressure washer

Product Description:

High-pressure cleaning with C 4000 Air, washes at low temperatures and provides effective cleaning. Economical and environmentally friendly component cleaning without solvents. It is a closed, high-pressure cleaning vessel for cleaning and degreasing metal and plastic parts. Special microorganisms from the liquid break down the oils and fats biologically and thus guarantee a long service life for the cleaning liquid.

With the Clever Clean Cleaner C 4000 Air, you wash in a closed cleaning tub with a safety switch. Pre-assembled PVC gloves are used for the job.

Clean items with a high-pressure pump and special spray nozzle. Finally, blow clean with a compressed air gun after cleaning. The liquid can be heated to 60°C - this results in up to 4 times cleaner items compared to cold cleaning.

Material:

Wash is activated via foot pedal.

Interior lighting and mist-free sensor for the window.

Tempered glass.

Panels and plates are made of stainless steel AISI 304.

Technical specifications:

Application: Air pressure cleaning

Volume: 90 litres

Width: 136 cm.

Depth: 92 cm.

Height: 140 cm.

Washing area: 120 x 80 cm.

Working height: 100 cm.

Noise: 75 dBa

Total load capacity: 70 kg.

Rated voltage: 230 V

Operating temperature: 60°C

Pressure: 80 bar

Weight: 90 kg.
