

Clever Clean Cleaner C20 Air

-Semi pro cleaning tub

Product Description:

Compressed air cleaning with C20 Air, specially built with aerators for CBC cleaning fluid. Economical and environmentally friendly component cleaning without solvents. It is a closed semi pro cleaning tub with heating system. With mounting PVC gloves. The item to be cleaned is washed in a closed cabinet with protection against splashes and atomization.

Cleaning takes place with a pneumatic cleaning gun suitable for quick cleaning. The facility heats the liquid to a maximum of 50 degrees - which gives up to 4 times cleaner items compared to cold cleaning.

Material:

Built-in light

Built-in aerator for CBC cleaning fluid without solvent

External air blower for ventilation

Built-in PVC Gloves

Technical specifications:

Application: Compressed air cleaner

Volume: 8-14 litres

Width: 77cm.

Depth: 60 cm.

Height: 135 cm.

Washing area: 74 x 56 cm.

Fluid flow: 0.8 Liter/min.

Rated voltage: 230 V

Operating temperature: 41°C

Pressure: 4.8 - 8.3 bar
