

CBC 200 – Bio Clean

- Water-based alkaline cleaning fluid

Product description:

Effective cleaning fluid for use in Clever Clean cleaning tubs for cleaning and degreasing smaller items in workshops, within industry and during service. Contains clinically produced microorganisms that break down oil deposits and ensure a long shelf life and optimal performance of the cleaning agent. Do not mix with other cleaning agents nor with water.

Application:

Ready for use in the cleaning table. Soak if necessary difficult deposits before cleaning.

(Possibly with CBC 500 – Uni Clean) CBC 200 is most optimally used at a temperature of 41°C.

Advantage:

- Water-based cleaning fluid – non-flammable
- VOC-free
- Extended lifetime of the cleansing bath due to microorganisms
- The microorganisms keep the liquid clean and efficient.
- NSF Registration no.157458

Contents:

pH neutral
