

## CBC 555 - Degreaser Aerosol

### Water-Based Alkaline Degreaser

#### General Description:

CBC 555 is a water-based, phosphate-free, and environmentally friendly degreaser, serving as an alternative to cleaning agents with high volatile organic compound (VOC) content.

CBC 555 is a non-foaming degreaser that dries quickly. Its active ingredients rapidly dissolve oil, grease, and impurities from surfaces, evaporating quickly and leaving a clean finish.

CBC 555 effectively removes heavy contamination such as wax residues, oil, grease, and brake dust.

**In many cases, CBC 555 can replace traditional brake cleaner.**

#### Application:

Apply CBC 555 – Degreaser using a spray bottle. Wipe the surface with a cloth.

**For lightly soiled surfaces – allow it to work for 4–10 seconds.**

#### Features and Benefits:

No hazard labeling required

- Environmentally friendly alternative to VOC-containing products
- Pleasant odor
- Low-foaming
- Water-based
- Biodegradable according to high EU standards
- NSF Approved

Nonfood Compounds  
Program Listed A1
