General Information

Omcan Manufacturing and Distributing Company Inc., Food Machinery of America, Inc. dba Omcan and Omcan Inc. are not responsible for any harm or injury caused due to any person's improper or negligent use of this equipment. The product shall only be operated by someone over the age of 18, of sound mind, and not under the influence of any drugs or alcohol, who has been trained in the correct operation of this machine, and is wearing authorized, proper safety clothing. Any modification to the machine voids any warranty, and may cause harm to individuals using the machine or in the vicinity of the machine while in operation.

CHECK PACKAGE UPON ARRIVAL

Upon receipt of an Omcan shipment please inspect for external damage. If no damage is evident on the external packaging, open carton to ensure all ordered items are within the box, and there is no concealed damage to the machine. If the package has suffered rough handling, bumps or damage (visible or concealed), please note it on the bill of lading before accepting the delivery and contact Omcan within 24 hours, so we may initiate a claim with the carrier. A detailed report on the extent of the damage caused to the machine must be filled out within three days, from the delivery date shown in the shipping documents. Omcan has no recourse for damaged products that were shipped collect or third party.

Before operating any equipment, always read and familiarize yourself with all operation and safety instructions.

Omcan would like to thank you for purchasing this machine. It's of the utmost importance to save these instructions for future reference. Also save the original box and packaging for shipping the equipment if servicing or returning of the machine is required.

Omcan Fabrication et distribution Compagnie Limitée et Food Machinery d'Amérique, dba Omcan et Omcan Inc. ne sont pas responsables de tout dommage ou blessure causé du fait que toute personne ait utilisé cet équipement de façon irrégulière. Le produit ne doit être exploité que par quelqu'un de plus de 18 ans, sain d'esprit, et pas sous l'influence d'une drogue ou d'alcool, qui a été formé pour utiliser cette machine correctement, et est vêtu de vêtements de sécurité appropriés. Toute modification de la machine annule toute garantie, et peut causer un préjudice à des personnes utilisant la machine ou des personnes à proximité de la machine pendant son fonctionnement.

VÉRIFIEZ LE COLIS DÈS RÉCEPTION

Dès réception d'une expédition d'Omcan veuillez inspecter pour dommages externes. Si aucun dommage n'est visible sur l'emballage externe, ouvrez le carton afin de s'assurer que tous les éléments commandés sont dans la boîte, et il n'y a aucun dommage dissimulé à la machine. Si le colis n'a subi aucune mauvaises manipulations, de bosses ou de dommages (visible ou cachée), notez-le sur le bon de livraison avant d'accepter la livraison et contactez Omcan dans les 24 heures qui suivent, pour que nous puissions engager une réclamation auprès du transporteur. Un rapport détaillé sur l'étendue des dommages causés à la machine doit être rempli dans un délai de trois jours, à compter de la date de livraison indiquée dans les documents d'expédition. Omcan n'a aucun droit de recours pour les produits endommagés qui ont été expédiés ou cueilli par un tiers transporteur.

General Information

Avant d'utiliser n'importe quel équipement, toujours lire et vous familiariser avec toutes les opérations et les consignes de sécurité.

Omcan voudrais vous remercier d'avoir choisi cette machine. Il est primordial de conserver ces instructions pour une référence ultérieure. Également conservez la boîte originale et l'emballage pour l'expédition de l'équipement si l'entretien ou le retour de la machine est nécessaire.

Omcan Empresa De Fabricacion Y Distribucion Inc. Y Maquinaria De Alimentos De America, Inc. dba Omcan y Omcan Inc. no son responsables de ningun daño o perjuicio causado por cualquier persona inadecuada o el uso descuidado de este equipo. El producto solo podra ser operado por una persona mayor de 18 años, en su sano juicio y no bajo alguna influencia de droga o alcohol, y que este ha sido entrenado en el correcto funcionamiento de esta máquina, y ésta usando ropa apropiada y autorizada. Cualquier modificación a la máquina anula la garantía y puede causar daños a las personas usando la máquina mientras esta en el funcionamiento.

REVISE EL PAQUETE A SU LLEGADA

Tras la recepcion de un envio Omcan favor inspeccionar daños externos. Si no hay daños evidentes en el empaque exterior, Habra el carton para asegurarse que todos los articulos solicitados estén dentro de la caja y no encuentre daños ocultos en la máquina. Si el paquete ha sufrido un manejo de poco cuidado, golpes o daños (visible o oculto) por favor anote en la factura antes de aceptar la entrega y contacte Omcan dentro de las 24 horas, de modo que podamos iniciar una reclamación con la compañía. Un informe detallado sobre los daños causados a la máquina debe ser llenado en el plazo de tres días, desde la fecha de entrega que se muestra en los documentos de envío. Omcan no tiene ningun recurso por productos dañados que se enviaron a recoger por terceros.

Antes de utilizar cualquier equipo, siempre leer y familiarizarse con todas las instrucciones de operación y seguridad.

Omcan quisiera darles las gracias por la compra de esta máquina. Es de la máxima importancia para guardar estas instrucciones para referencias en el futuro. También guarde la caja original y el embalaje para envío del equipo si el mantenimiento o la devolución de la máquina es necesaria.

Safety and Warranty

LIMITS OF USE – SAFETY NORMS

These machine were designed and built to slice foodstuff in compliance to the norms of the CE 2006/95/EEC, 93/68/EEC, 2006/42/EEC, 2002/72/EEC, 2004/108 CE, REG 1935/2004/EEC, 2002/95/CE (RoHS) and to the following regulations EN1974, EN ISO12100-1, EN ISO12100-2, EN 294, EN60204-1, EN60335-1, EN60335-2-64.

Safety and Warranty

GENERAL SAFETY REGULATIONS

The slicers must be used only by suitably trained personnel. Furthermore, this personnel must have read this manual carefully. In particular, please comply to the following instructions:

- Install the machine according to the instructions contained in the “Installation” section;
- Do not remove the transparent protections, do not modify nor exclude the mechanical and electrical safety devices;
- Do not use the machine with improvised connections, or provisional or non insulated cables;
- Check the power cable and gland plate on the machine body regularly and when necessary have them replaced by qualified personnel;
- In case of anomalies, defective operation, incorrect movement, unusual noise, etc stop the machine immediately;
- Before cleaning or servicing, disconnect the machine from the mains;
- Always use scratch-proof and non-slip gloves during cleaning or maintenance;
- Lay or remove the goods to be sliced on the sliding plate only when the latter is completely pushed back and the thickness control knob positioned to 0;
- To move the carriage tray when slicing, use the handle or the product grip handle;
- For extraordinary maintenance (to replace the sharpener wheels, the blade, or others) please contact the manufacturer or qualified and duly authorized personnel;
- Avoid running the slicers with no product on it;
- The slicers are equipped with a ventilated motor. Extended continual use is not recommended. Let the motor cool down after 30 minutes of use.

MANUFACTURER’S WARRANTY AND LIABILITY

The manufacturer’s warranty covering the good functioning of the machines and their compliance to the service for which they have been designed depends on the correct application of the instructions contained in this manual. The Manufacturer assumes no liability either direct or indirect deriving from:

- Failure to comply with the instructions contained in this manual;
- Use of the machine by personnel who has not read or fully understood the content of this manual;
- Use not complying to the specific norms currently applicable in the country of installation;
- Unauthorized modifications and/or repairs;
- Use of non original accessories or spare parts;
- Exceptional events.

ENVIRONMENTAL CONDITIONS OF USE

Temperature: from -5 °C a + 40 °C

Relative humidity: max 95%

OPENING THE BOX

On reception check packaging integrity, otherwise inform the forwarding agent or the area agent immediately. To unpack the machine, proceed as follows:

Safety and Warranty

- Open the box and remove your copy of the manual of use and maintenance, then proceed according to the instructions found on that manual;
- Lift the machine still wrapped in a transparent polyethylene sheet and extract it from the box;
- Now check the box content and make sure it corresponds to what shown on the external label.

1 YEAR PARTS AND LABOR BENCH WARRANTY

Within the warranty period, contact Omcan Inc. at 1-800-465-0234 to schedule a drop off to either an Omcan authorized service depot in the area, or to an Omcan Service warehouse to repair the equipment.

Unauthorized maintenance will void the warranty. Warranty covers electrical and part failures, not improper use.

Please see www.omcan.com/warranty.html for complete info.

WARNING:

The packaging components are classified as normal solid urban waste and can therefore be disposed of without difficulty.

In any case, for suitable recycling, we suggest disposing of the products separately (differentiated waste) according to the current norms.

DO NOT DISCARD ANY PACKAGING MATERIALS IN THE ENVIRONMENT!

Technical Specifications

The machine is essentially made of a base supporting a circular blade mounted in a vertical position. This blade is driven by an electrical motor to slice foodstuffs. The machine is equipped with a carriage holding a product tray and sliding on a bar mounted under the base top, parallel to the blade. Slice thickness is adjusted by means of a gauge plate mounted in front of the blade. This plate, against which rests the product to be sliced is moved transversely with respect to the blade by a value corresponding to the desired slice thickness. The product is fed to the machine towards the gauge plate. All the machine components are made of polished and anodically oxidized aluminium alloy, of stainless steel and food grade plastic material. The blade is driven by an electrical motor, transmission is by means of a longitudinally grooved belt. The machine is started and stopped by a control button or switch. These models have a built-in blade sharpener.

MECHANICAL AND ELECTRICAL SAFETY DEVICES

The following mechanical safety devices were installed:

- A series of aluminium and transparent plastic guards on the product carriage.

Technical Specifications

On request the following are available:

- Safety micro-switch preventing the motor from starting when the blade guard is removed.

WARNING: RESIDUAL RISKS

Notwithstanding all the possible cautions taken during the design and the construction of the machine, residual risks (cutting) still exist during use or during cleaning or maintenance. Therefore be careful and **PAY THE UTMOST ATTENTION** to what you are doing. **DO NOT** use the machine if you are not in perfect psychological and physical conditions. **DO NOT ALLOW** anyone near the machine when it is in use. **ALWAYS** wear gloves that can resist cuts or tears when cleaning, lubricating or sharpening the blade. Slice only the products mentioned as sliceable. **NEVER** try to slice products that have been mentioned as non sliceable.

ACCESSORIES

If not otherwise defined at the moment of order, the machines are supplied together with the following:

- Instructions manual for installation, use and maintenance.

PRODUCTS THAT CAN BE SLICED

- All types of cold cuts (raw, cooked, smoked);
- Meat without bone (raw or cooked, at a temperature not less than + 3 °C);
- Vegetables (all types).

PRODUCTS THAT MUST NOT BE SLICED:

- Frozen or deep-frozen food;
- Food containing bones (meat or fish);
- Any other non-food product;
- Cheese.

Installation and Operation

INSTALLING THE MACHINE

Position the machine on a well levelled, smooth and dry top suitably dimensioned to withstand the machine weight.

ELECTRICAL CONNECTION

Install the machine near a compliant outlet derived from a system meeting the current norms.

The user is responsible for ascertaining that the electrical system is suitably dimensioned and functions correctly (supply line, outlet, distribution panel, differential protecting breaker, grounding).

Before carrying out the connection ascertain that the mains characteristics correspond to those indicated on the machine plate.

COMMANDS

START AND STOP BUTTONS

- Turn the switch or press the white or green button (1) to start running the blade;
- The light turns on to indicate that the machine works correctly;
- Turn the switch or press the red or black button (3) to stop the blade.

Slice thickness can be adjusted by turning the graduated knob (4) counterclockwise.
Thickness adjustment range: see paragraph “Technical description and conditions of use”

Installation and Operation

FUNCTIONING TEST AND BLADE ROTATION DIRECTION

Start the machine and check whether the light is on; make sure that the blade rotates in the direction indicated by the arrow (counterclockwise if you look at the machine from the blade plate side).

- Ascertain that the carriage and the product grip slide correctly;
- Ascertain that the gauge plate works and adjust thickness to correct value.

USING THE MACHINE

LOADING THE PRODUCT ON THE TRAY AND SLICING

Ascertain that the thickness control knob is correctly positioned to '0';

Installation and Operation

- Draw back the carriage completely (towards the operator) to loading position;
- Lift the product grip and set it in at rest position;

- Lay the product to be sliced on the tray;

- Secure by means of the product grip by exerting a slight pressure;

Installation and Operation

- Adjust the thickness gauge. Start the blade by turning the switch or by pressing on the white or green button;
- Grip the handle of the product grip and start the forward and backward slicing movement. The product travels towards the gauge plate by pushing towards the blade;
- When finished, return the thickness control knob to '0' and draw the carriage back.;
- Stop the blade by turning the switch or by pressing the red or black button.

Maintenance

CLEANING THE SLICER

GENERAL

The machine must always be accurately cleaned at least once a day, and more often if necessary. Always wear protective gloves.

DISASSEMBLING THE MACHINE FOR CLEANING

- Disconnect the plug from the mains;
- Turn the gauge plate knob to '0';

Maintenance

- Remove the various components as described in the following paragraphs.
- Completely unscrew (counterclockwise) the blade guard rod;
- If the blade guard is blocked, press on the rod knob to move it a little;

- Extract the rod and remove the blade guard using for this operation only the side knobs.

- Loosen and remove the two fixing screws with knurled head;
- Remove the slice guard.

Maintenance

DISASSEMBLING THE SHARPENER

- Loosen the sharpener blocking side knob;

- Remove the complete sharpener unit by pulling it upwards.

DISASSEMBLING THE PRODUCT TRAY

- Loosen the knurled screw as shown in the picture and remove the tray by lifting it.

To clean the machine body and the blade use only a cloth damped with water and biodegradable lathery detergent having 7-8 pH and at a temperature not below + 30°C.

Do not clean the machine by using water or vapor spouts or similar systems.

WARNING: Use scratch proof and non-slip gloves to carry out the following operations. Proceed carefully and pay attention to what you are doing.

DANGER OF CUTTING!

Cleaning the blade:

Press a cloth damped with water over the blade surface and slowly move it from the centre to the external side, as shown in the picture, over the blade guard side and the opposite side.

Maintenance

Cleaning the optional safety ring:

Pass a cloth damped with water through the Blade and the safety ring as shown in the picture.

Cleaning of the section under the product tray and of sliding plate

Bring the sliding plate near to the operator and lift the product tray up to the rest position. Clean with a cloth damped with water and carefully dry.

REASSEMBLING THE MACHINE

Proceed as indicated for the previous operations but in reverse order.

GENERAL

The operator is allowed to perform the following maintenance operations:

- Blade sharpening: regularly (intervals and duration obviously depend on the use of the equipment, time of use and type of product sliced);

Maintenance

- Lubrication of carriage sliding guides: once a week.
- Lubrication of product grip sliding bar: once a week.
- Adjustment of motor belt tension: as required.
- Checking the power supply cord conditions and of the gland plate: from time to time.

WARNING: Maintenance must always be carried out when the machine is disconnected from the mains and if no other position is specifically required, with the thickness control knob on '0'.

The following maintenance operations are to be entrusted only to personnel authorized by the manufacturer:

- Replacing the blade;
- Replacing the sharpener wheels;
- Replacing the motor transmission belt;
- Replacing electrical system components under the machine base;
- Repairing structural parts, repairing the components under the base.

BLADE SHARPENING:

Before proceeding, clean the machine accurately as explained in the previous paragraphs:

WARNING: Sharpening can be done only up to 12 mm of the blade diameter value. Beyond this value, the **BLADE MUST BE REPLACED ONLY** by personnel **AUTHORIZED BY THE MANUFACTURER**.

Clean the blade accurately using denaturised alcohol to degrease it; Operate the graduated knob by turning it towards the left to open completely;

Maintenance

Loosen the knob (1), lift and rotate the sharpener by 180° (2) and insert the wheels on the slicer blade. Tighten the knob;

Operate the Blade by using the switch (3), keep the small button (4) pushed; Allow the blade to rotate for about 30 to 40 seconds then use the switch (5) to stop it.

Brush a pencil lightly on the external side of the blade to check for a slight spud; **We advise performing this operation with the utmost care, as the blade is extremely sharp.**

Maintenance

If some spud is found, operate the switch (3) again for 3 to 4 seconds by pressing the buttons 4 and 6 at the same time.

DO NOT PROLONG THIS OPERATION BEYOND THE FEW SECONDS MENTIONED OTHERWISE THE BLADE EDGE WILL WARP.

After completing sharpening, we advise cleaning the wheels using a small brush and alcohol. Now return the sharpener to its original position.

LUBRICATION

Carriage sliding guides product grip (once a week). Use only the oil provided; otherwise use white Vaseline oil. **DO NOT USE VEGETABLE OILS.**

Maintenance

- Spread a small quantity of oil on the bar and move the assembly 3 or 4 times;

- Clean as required to remove excess of oil.

ADJUSTMENT OF MOTOR BELT TENSION

After a given period of service an unusual noise may occur because of the belt bedding. In this case, tighten the belt-stretcher on the side of the motor under the machine base.

- Disconnect the plug from the mains;
- Lift the machine and turn it on one side as shown in the picture;
- Unscrew the feet (1), unloose the screw (2) and remove the guard (3);
- Partially unscrew the nut (4);
- Turn the belt-stretcher (5) until the optimal tension of the belt is obtained (6);
- Tighten the nut (4) and install the guard (3), the screw (2) and the feet (1).

Troubleshooting

The table below indicates the most common problems that may arise during slicing and the necessary remedies.

PROBLEM	POSSIBLE CAUSE	REMEDY
The machine does not start when the start-up button (white or green button) is pressed or switch is turned.	No power supply.	Ascertain that the plug is correctly inserted.
	Defective electrical control circuit.	Check.
		Call technical assistance.
The machine starts, but the functioning light is not on.	Defective indicator.	Do not use the machine when the pilot lamp is not on; promptly ask for technical assistance.
The machine starts, but there are vibrations. The motor is very hot and there is a bad smell.	Defective motor or transmission.	Do not use the machine; promptly ask for technical assistance.
Under strain, the machine slows down or comes to a stop.	Defective transmission.	Ask for technical assistance.
Excessive resistance to product slicing.	The blade is blunt .	Sharpen the blade.
The slices are ragged and/or shaped irregularly.	The blade is blunt.	Sharpen the blade.
	The blade is excessively worn out.	Ask for technical assistance.
Unsatisfactory blade sharpening.	Worn wheels.	Replace the wheels.
		Ask for technical assistance.
The product tray doesn't slide.	Guides are insufficiently lubricated.	Lubricate.
When the stop button is pressed or turned, the machine does not stop.	Defective electrical control circuit.	Stop the machine, unplug from mains and ask for technical assistance.
Unusual noise of transmission.	Loose belt.	Adjust belt tension.

DISMANTLING THE SLICER

These machines are made of the following elements:

- Aluminium frame;
- Stainless steel fittings and others;
- Electrical parts and cords;
- Electrical motor;
- Plastic materials, etc.

Whether dismantling is entrusted to third parties please note that disposal of the materials can only be carried

Troubleshooting

out by duly authorized businesses. Whether dismantling done in-house it is necessary to separate materials according to their category, entrusting disposal skilled and authorised companies. In any case, please comply to the current norms of your country.

WARNING

In any case, to remove the blade and dispose of it, you must contact the manufacturer or personnel duly authorized by the manufacturer. **NEVER DISPOSE OF WASTE IN AREAS WHERE ACCESS IS NOT DELIMITED BY BARRIERS AND FORBIDDEN BY WARNING SIGNS AS THIS WASTE REPRESENTS A SERIOUS DANGER FOR PEOPLE, ESPECIALLY FOR CHILDREN, AND ANIMALS. ANY RESPONSIBILITY ARISING OUT OF INCORRECT DISPOSAL FALLS ON THE OWNER.**

Guide to the treatment of waste equipment

This product complied with Directive 2002/96 /EC.

The crossed out wheeled bin symbol on equipment or its packaging indicates that at the end of its working life the equipment should not be treated as general household waste but taken to one of the recycling centres for electrical and electronic equipment run by local authorities. Alternatively, it may be handed over to the reseller when purchasing new equipment of the same type. The user is responsible for consigning the equipment to appropriate collection facilities at the end of its working life or face the penalties provided for by current waste management legislation. Separate collection for subsequent delivery of waste equipment to environmentally-compatible recycling, treatment and disposal facilities to prevent possible negative impacts on the environment and human health whilst encouraging recycling of the product's components. For further information regarding the available collection facilities, please contact your local refuse collection service or the dealer from whom the purchase was made. The manufacturer and/or importer fulfil their obligations concerning environmentally-compatible recycling, treatment and disposal either individually or by joining a collective scheme.

For parts or service call 1-800-465-0234.

32629	Bearing and Shaft for 370TCV	9

Item No.	Description	Position
32630	Pulley for 370TCV	10
32631	Bearing Spacer for 370TCV	11
32632	Bearing 6004 2RS for 370TCV	12
32633	Clip for 370TCV	14
32634	Clip for 370TCV	15
32635	Set Screw for 370TCV	16
32636	Set Screw 6x8 TC for 370TCV	17
32637	Set Screw PVC for 370TCV	18
32638	Tie Rod for 370TCV	19

Item No.	Description	Position
32639	Tie Rod Spacer for 370TCV	20
32640	Thumb Screw for 370TCV	21
32641	Washer for 370TCV	22
32642	Plate Stop for 370TCV	23
32643	Support Rail for 370TCV	24
32644	Washer 8 for 370TCV	25
32645	Screw TE 8x20 for 370TCV	26
32646	Tapping Screw for 370TCV	27

Meat Tray Assembly

Item No.	Description	Position
32647	Support for Pusher Arm for 370TCV	1
32648	Washer 8 for 370TCV	2
32649	Screw TE 8x20 for 370TCV	3
32650	Set Screw 5x20 for 370TCV	4
32651	Set Screw 5x16 for 370TCV	5
32652	Set Screw 6x8 TC for 370TCV	6
32653	Rod Brake for 370TCV	7
32654	Set Screw 6x19 for 370TCV	8
32655	Spring 3.5x19 for 370TCV	9
32656	Spring 13.5x10 for 370TCV	10
32657	Iron Plate for 370TCV	11
32658	Brake Stud for 370TCV	12

Item No.	Description	Position
32659	Spring 9x15 for 370TCV	13
32660	Stud Brake for 370TCV	14
32661	Presser Brake for 370TCV	15
32662	Hand Grip Safety Guard for 370TCV	16
32663	Meat Grip Handle for 370TCV	17
32664	Screw TPSV 4x10 for 370TCV	18
32665	Screw TPSV 45x12 for 370TCV	19
32666	Presser Handle Bracket for 370TCV	20
32667	Rod and Spring for 370TCV	21
32668	Screw Chrome for 370TCV	22
32669	Washer 8 for 370TCV	23
32670	Screw TPSV 4x10 for 370TCV	24

Item No.	Description	Position
32671	Washer 4x25 for 370TCV	25
32672	Bearing 608 ZZ for 370TCV	26
32673	Bearing Spindle for 370TCV	27
32674	Pusher Arm for 370TCV	28
32675	PVC Washer 15x25 for 370TCV	29
32676	Presser Spacer for 370TCV	30
32677	Presser Plate for 370TCV	31
32678	Set Screw 6x6 TC for 370TCV	32
32679	Presser Shaft for 370TCV	33
32680	Hex Pin 8x31 for 370TCV	34
32681	Locking Nut for 370TCV	35
32682	Complete Arm Assembly for 370TCV	

Blade Guard

Item No.	Description	Position
32683	Nut 5 for 370TCV	1
32684	Washer 5 for 370TCV	2
32685	Set Screw 54x30 / 5x25 for 370TCV	3
32686	Ring for 370TCV	4

Item No.	Description	Position
32687	Safety Ring Extension for 370TCV	5
32688	Support Ring for 370TCV	6
32689	Support Ring for 370TCV	7
32690	Set Screw 6x12 for 370TCV	8

Item No.	Description	Position
32691	Meat Deflector for 370TCV	9
32692	Thumb Screw 5 MA for 370TCV	10
32693	Acorn Cap for 370TCV	11

Thank you for choosing Omcan | Merci d'avoir choisi Omcan | Gracias por elegir Omcan

Since 1951 Omcan has grown to become a leading distributor of equipment and supplies to the North American food service industry. Our success over these many years can be attributed to our commitment to strengthen and develop new and existing relationships with our valued customers and manufacturers. Today with partners in North America, Europe, Asia and South America, we continually work to improve and grow the company. We strive to offer customers exceptional value through our qualified local sales and service representatives who provide convenient access to over 3,500 globally sourced products.

Depuis 1951 Omcan a grandi pour devenir un des “leaders” de la distribution des équipements et matériel pour l’industrie des services alimentaires en Amérique du Nord. Notre succès au cours de ces nombreuses années peut être attribué à notre engagement à renforcer et à développer de nouvelles et existantes relations avec nos clients et les fabricants de valeur. Aujourd’hui avec des partenaires en Amérique du Nord, Europe, Asie et Amérique du Sud, nous travaillons continuellement à améliorer et développer l’entreprise. Nous nous efforçons d’offrir à nos clients une valeur exceptionnelle grâce à nos ventes locales qualifiées et des représentants de service qui offrent un accès facile à plus de 3500 produits provenant du monde entier.

Desde 1951 Omcan ha crecido hasta convertirse en un líder en la distribución de equipos y suministros de alimentos en América del Norte industria de servicios. Nuestro éxito en estos años se puede atribuir a nuestro compromiso de fortalecer y desarrollar nuevas relaciones existentes con nuestros valiosos clientes y fabricantes. Hoy con socios de América del Norte, Europa, Asia y América del Sur, que trabajan continuamente para mejorar y crecer la empresa. Nos esforzamos por ofrecer a nuestros clientes valor excepcional a través de nuestro local de ventas y representantes de los servicios que proporcionan un fácil acceso a más de 3,500 productos con origen a nivel mundial.
