

# CALL FOR E-POSTERS

The Scientific Committee invites authors to submit an abstract for the **e-poster session** for the **13th International Conference on the MCH Handbook**.

The conference theme is **“Making Me Visible”** with an aim to promote health equity and to bring the health of mothers and their children to the forefront as, too often, social barriers make mothers feel invisible.

Submissions are sought for e-poster presentation; and will be presented online during the conference, taking place on **August 24-25, 2022, in Toronto, Canada (virtually)**. The selected abstracts will also be published in a conference proceeding and will be posted on the MCH handbook conference website.

**Submit your abstract here:**

## 01 Introduction/Background

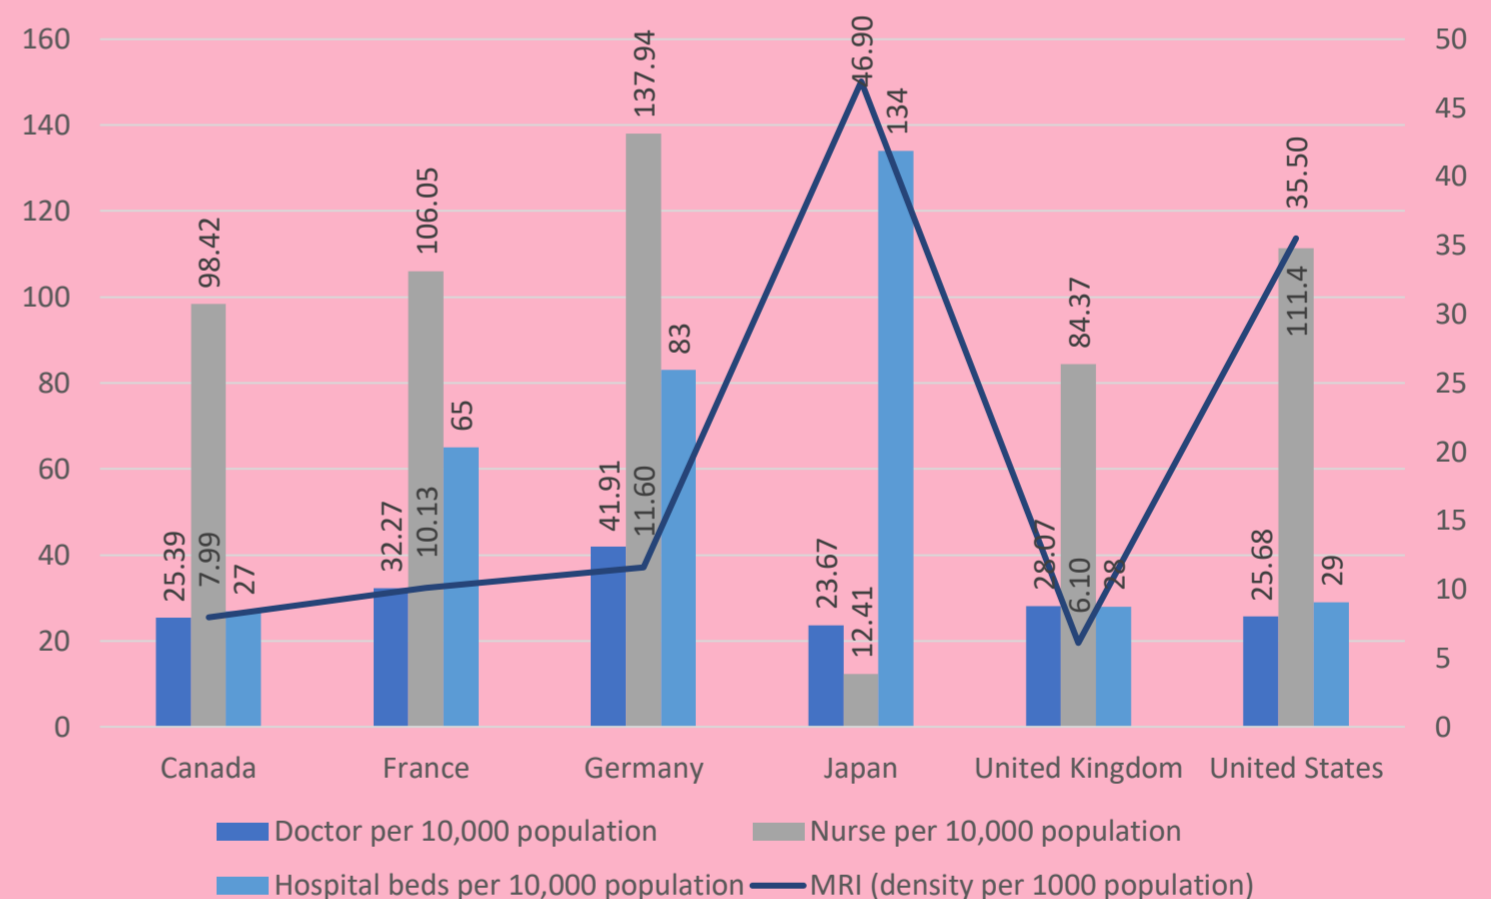

The 13<sup>th</sup> International Conference on the Maternal Child Health (MCH) Handbook promotes health equity and aims to bring the health of mothers and their children to the forefront as, too often, social barriers make mothers feel invisible. MCH Handbook is a home-based health record and information tool which supports women throughout their pregnancy, delivery, and the post-natal period, along with the first few years of their children's lives. Aside from being a source of information, the MCH Handbook strives to empower parents by strengthening communication between them and health professionals and encouraging them to be actively involved in decision-making and management of their family's health.

## 02 Methods

The 13<sup>th</sup> International Conference on the Maternal Child Health (MCH) Handbook promotes health equity and aims to bring the health of mothers and their children to the forefront as, too often, social barriers make mothers feel invisible.
