

## Bio Waste

Bio waste can be reused and therefore you need to sort your bio waste.

Examples of organic waste that should go into your green organic bin:

- Food waste, raw or cooked
- Rice, pasta
- Meat, fish, bones
- Bread and cakes
- Fruit and vegetables
- Sauce and oil
- Spreads e.g. cream cheese
- Eggs and eggshells
- Nuts and nut shells
- Coffee grounds and coffee filters
- Tea leaves and tea filters
- Used paper towels
- Cut flowers

You have been provided a small green organic bin together with 100 biodegradable bags which you must use for your bio waste. Here you can [order a new green organic bin or new biodegradable bags for free](#) if you live in the municipality of Copenhagen. In the courtyard you will find the bio waste containers.
