# Culture Plan Youth

Project Code: 2020-1-DK01-KA227-ADU-094215

### **MULTIPLIER EVENT REPORT**

**INTEGRA ONLUS ITALY** 

9 march 2023

#### **PROJECT PARTNERS**

## **Overview of the Multiplier event**

#### Venue and dates

9 may 2023, Brindisi - Istituto Professionale di Stato per I Servizi Sociali, Ottico, Odontotecnico, e Industria e Artigianato per il Made in Italy "LAURA MORVILLO FALCONE"

(State Professional Institute for Social Services, Optician, Dental Technician, and Industry and Craftsmanship for Made in Italy "LAURA MORVILLO FALCONE")

### Participants' profile

- Local associations dealing with tourism and local development
- Students of the V Class School, accompanied by English language teachers
- University students

#### Methodology

- Learning by doing: this seems to be the best strategy for learning, where learning is not only memorizing, but also and above all understanding, and where the best strategy is learning through doing, through operating, through actions.
- Peer education: spontaneous process of transfer of knowledge, emotions and experiences among members of a group, an intervention that sets in motion a global communication process, characterized by a deep and intense experience and a strong attitude of search for authenticity and harmony between the involved subjects. This practice goes beyond the usual educational practice and becomes a real opportunity for the individual subject, the group of peers or the school class, to discuss freely.

### **Event workshop**

- Learning objectives Methodology
- Tools
- Results

### **Evaluation**

#### Tool used (google forms, monkey survey, etc)

The "Aula Magna" room of the School is equipped with an internet connection, wifi and a large screen, which gave to the Romanian and Danish partners the opportunity to connect, to greet the participants and linger longer on the contents of the project.

Thanks to the link and the big screen there was the possibility to tell and explain the project and the website <a href="https://cultureplan-youth.eu/">https://cultureplan-youth.eu/</a>

### Methodology

Telling about the project, explaining its objectives and activities, as well as the products created by the project such as I moodlecorses was possible thanks to a direct and reciprocal narration/confrontation/participation with the audience: members of local associations, pupils, students and even teachers who intervened, making everything an informal direct confrontation. The local associations spoke about the commitment and work done in the area, and also about how they have faced the pandemic and how they have reorganized themselves in recent months with the post-pandemic.

### • Results (graphs, etc.)

- The meeting lasted from 11 to 13
- 55 participants attended.
- In addition to Integra online, also the partners from Romania and Denmark

### **Conclusion and recommendations**

What went well, what could be improved in the future based on the evaluation results, participants and trainers' feedback

Those persons were happy to participate in the presentation of our project and moodlecors, which they will deepen during the English lessons and the civic education module. The discovery of the moodlecors turned out to be very interesting and important because in addition to discovering the specific contents it offers the opportunity to understand how culture and cultural heritage have responded to Covid, but above all an opportunity to practice the English language.

In the article that Integra will produce, it will stop longer to tell about the experiences of local associations, but also about the experience of the Morvillo Falcone School in reading and presenting the territory, culture and cultural heritage of the same.
