## Sabert, Built on high quality, innovative and sustainable solutions

At Sabert, we believe it is our responsibility to meet the ever-changing needs and expectations of consumers through exceptional high-quality products and services. Nowadays, sustainability is becoming a key decision factor for our customers, regardless of the type of packaging they are looking for.

Our commitment to sustainability spans far beyond recyclable or compostable product lines. It impacts our entire business model, from new product development to ongoing modification and product improvements. In recent years, we have taken a series of initiatives in this direction. We have extended our pulp recyclable packaging offer to a large spectrum of solutions to suit all needs. All of our clear PET solutions are made of recycled material and being 100% recyclable.

We are determined to take up the environmental challenges by proposing and developing innovative and sustainable packaging solutions.

Sabert Makes Food Looks Great!

# Summary

## Collections that fit any need

We have organized our comprehensive product offering into six easy to understand Solutions to make it easier for our customers to find the packaging solutions they're looking for.

### Food to Go, Delivery, Takeaway Solutions 13

Paper Collection	14
BePulp Solutions	30
Fastpac Solutions	50
Chilled rPET Solutions	56

### Reusable Solutions 64

### Beverage Solutions 68

### Catering Solutions 72

Plattered food Solutions	74
Tableware	88

### Bakery Solutions 94

### Cash & Carry summary 96

Our "CASH & CARRY" symbol: each package comes with a label listing important information about the product that can be scanned directly at check-out.

# Benefits of our packaging solutions

At Sabert, we have always been committed to helping people enjoy food in new ways. With dedicated and knowledgeable service teams, we work with our customer partners to combine deep insights about food and consumer trends with fast and flexible manufacturing to drive higher levels of responsiveness and value.

## SUSTAINABILITY

The environment is one of our core concerns. Our BePulp product is made from fibre residue of plant origin - a natural and renewable material. We use recycled PET, sort 100% of our own production waste, use green energy and invest in production tools that use less energy.

## INNOVATION

Sabert is constantly developing new products that reflect ever-changing market trends thanks to a dedicated and knowledgeable design team which develops solutions that are convenient, eye-catching and in keeping with the times.

## PERFORMANCE

Our products perform at the highest levels in the most demanding conditions and competitive market: Our containers are convenient and strong, they are 100% stackable, they always offer lid solutions to facilitate food preparation in advance and transportation, lids fit snugly and securely onto the containers, preventing leakage during transport.

## SAFETY & EFFICIENCY

From tamper resistant/evident features to interlocking lids and rounded edges, our products protect consumers as well as the food. Furthermore, here at Sabert, we use a proprietary traceability system – a simple system that we are constantly improving. We have our very own logistics processes and large storage facilities, enabling us to meet any demand with ease.

## PRESENTATION

Our proven designs enhance the multi-sensory experience of seeing, holding, buying and enjoying good food. We bring your food to life in a way that drives sales, satisfaction and loyalty. Our production process and elegant design make every meal a cause for celebration.

## Our commitment to sustainability

Our commitment to sustainability spans far beyond recyclable or compostable product lines. It impacts our entire business model. We are determined to look at every option available by embracing multiple solutions that can have an environmental impact such as developing new materials, improving our solutions, understanding recycling schemes and driving new behaviours.

From our facilities to our packaging, sustainability and quality are never compromised. Not only do we want to make food look great, but we want to keep it safe and sustainable too.

We have implemented a number of measures within our company which demonstrate our deep commitment to protecting the environment and promote a circular economy.

## Our sustainability pillars

### SMART SOURCING

Implemented quality control measures to ensure vendors meet sustainability, social and ethical requirements

### WASTE REDUCTION

Recycle 100% of production waste. Use the best established cutting-edge technology for the use and recycling of recycled PET applications. By this, Sabert reduces emissions and prevents plastic waste.

### ENERGY CONSERVATION

Use of green energy with solar panels, installing led lighting extensively; investments in ultra-efficient production tools that use less energy; optimisation of stacking to increase storage and transport space...

### SUSTAINABLE INNOVATIONS

Innovate in Pulp product and continually search for new sustainable materials; Installed proprietary equipment designed to use recycled PET also 100% recyclable...

# Materials that fit any need

At Sabert, we pride ourselves on selecting the best raw materials for our customers so their food not only look great in our packaging, but also contribute to a greener future.

Our product portfolio is comprised of various eco-friendly solutions made from renewable resources or recycled material and are either recyclable or reusable.

## Natural & recyclable pulp

bepulp  
go natural

Made from plant based & renewable resources

Sabert BePulp Solutions are made using pulp that comes from fibres of plant origin. This **natural material** is both abundant and renewable, and is usually intended for waste. For instance, Sabert uses sugar cane bagasse, which is left over from the extraction of cane juice. Sugarcane is a highly renewable raw material as it regrows up to three times a year.

We offer a range of natural and laminated pulp options, which are recyclable.

- **NATURAL PULP SOLUTIONS** are best suited for ultra fresh food, and can be stored for up to two days. Natural pulp is recyclable: it has been tested and evaluated with a very good repulp-ability rate and a good recyclability.
- For an extended shelf life of 3 to 6 days, we recommend using **LAMINATED PULP SOLUTIONS**. PLA lamination is starch-based, which is another natural and renewable resource.

# Recyclable cardboard

Eco-friendly solutions

Sabert's Paper Collection of paperboard and corrugated food packaging solutions are made from FSC TM certified paper and are recyclable. Our products' sturdy construction ensures food is properly insulated and protected during transport.

The Paper Collection offers the perfect balance of sustainability, performance, and versatility to help operators make a positive and lasting impression on consumers.

# Recycled & recyclable PET

Made from post-consumer recycled PET

Sabert recyclable clear Chilled Solutions are fully circular. They are made from **high grade post-consumer recycled PET bottle flakes**, and are also recyclable.

Our Recycled **rPET** content is certified according to **QA-CER recycled content**, an international, independent, third-party certification system based on the principles of ISO 9001 including the chain of custody. The certificate was delivered following the inspection and assessment of our facilities in Nivelles, Belgium.

Sabert carefully selects high quality recycled PET from reliable suppliers and uses technologies to guarantee total food safety and high quality product with excellent clarity. Sabert is registered with the European Food Safety Agency (EFSA) for approval of its PET recycling process.

100% of Sabert's internal production waste is reused which **totally prevents plastic waste**. The rPET can be fully recycled several times and keeps its physical characteristics over time.

Sabert clear rPET solutions are **100% recyclable**. Plastics have several lives and PET is the most recycled plastic. Recycled plastics are used to manufacture a wide variety of new products. Sabert encourages all the plastic users to recycle and to help to close the loop toward a circular economy.

\* For more information on our recycled content, please do refer to our website <https://www.sabert.eu/sustainability/#recycled>

## Best performing polypropylene

### Combining durability and convenience

Made from advanced materials, Sabert PP Fastpac products have the perfect thickness to ensure the best rigidity as well as leak-proof transport of food in all delivery conditions. These attributes allow you and the end-users to **reuse our Fastpac products multiple times**, after a cycle in the dishwasher.

Our Fastpac polypropylene trays contain an **organically sourced mineral, talc**. This mineral offers significant benefits such as enhanced rigidity, improved thermal stability and barrier effect, as well as higher heat insulation.

Sabert ReusePac high quality solutions are frequently **re-used\*** by the end consumer.

Sabert EU also guarantee above 30% recycled PP content in our products. This is certified according to **QA-CER recycled content**.

Sabert confirms its Zero Waste policy with Fastpac, as **100% of Sabert's internal PP waste is reused** to produce new Fastpac trays and lids.

\* Dishwasher Safe: ReusePac solutions can be reused after minimum 50 passages in the dishwasher (temperature 55°C, rinsing 65°C) according to standard EN 12875-1:2005-11

## The safest packaging for your food

Sabert Europe has been awarded Grade AA+ in the BRC Global Standard Certificate issue 6, which guarantees the very highest level of quality management.

As a team, we will strive to continuously meet and exceed expectations for your food safety packaging needs.

Our team's dedication to meeting the highest level of hygiene requirements and providing our customers with the highest quality and safety products is ongoing, 365 days a year.

This high level of quality in our production is not only essential to our customers. High standards are also beneficial for our work environment: smooth operations, safe work environment, less waste...

Our products and services are fully in line with expectations, free of food safety risk and meet all legal requirements in hygiene and food safety compliance.

**Discover our certifications on page 91 of this catalogue.**

# FOOD TO GO, DELIVERY & TAKE AWAY SOLUTIONS

Today's consumers are mobile: they purchase and consume their food in a myriad of places and ways. Not only does the food need to taste and look great, it now also has to be portable, insulated, leak-proof, have a good shelf life and some sustainable qualities, to provide the best dining experience to your consumers, wherever they may be.

Of course, packaging plays a big role in this experience and has to be cleverly designed for optimal convenience, as well as show outstanding performance on all fronts.

We offer a wide array of solutions that are all great fits for food-to-go, delivery, and take-away applications, and for all kinds of dishes.

<b>Best performing Fastpac PP solutions</b> the best performing range for delivered meals.....	p. 50
<b>Recycled &amp; recyclable PET solutions</b> the perfect way to showcase freshness in foods.....	p. 56

NEW

 Sabert®  
Paper Collection

## Paper Collection: Functional & recyclable

Sometimes it pays to be simple where food presentation needs minimal design with maximum functionality. Thanks to our New Paper collection range all manner of food on the go requirements can be presented stylishly as there is **a complete range of products** for sandwiches, wraps, baguettes, salads and tasty snacks which look great in the Kraft tapered trays! And it is not all: we also have launched a new range of recyclable paper cutlery, made from FSC™ certified paper.

## PAPER COLLECTION COMBINES SUSTAINABILITY, EXCELLENT RECYCLABILITY AND OUTSTANDING PERFORMANCE

- > We source our board from ethically responsible manufacturers and can offer **FSC™** certified products as standard
- > Sabert's Paper Collection of corrugated and paperboard food packaging solutions is made with a variety of materials which are **recyclable**
- > We offer versatile multi-product use solution
- > Its sturdy construction ensures food is properly **insulated** and **protected** during transport.

## TAILOR-MADE FOR YOU!

We understand that not every customer wants an 'off the shelf' solution. If you require a tailored solution, whether you have an existing set of brand guidelines or you are looking for a full creative service of bespoke designs we will work with you to create your perfect packaging.

We have experienced designers who take your project from initial brief through to production and delivery.

- > Fully customizable high quality print
- > Bespoke sizes adapted to your needs.
- > Full creative new bespoke design.

## BePulp<sup>®</sup> solutions

### Natural & recyclable

Sabert BePulp Solutions are a **range of innovative and recyclable products of plant origin.**

They are the best choice in sustainable packaging as it combines natural look design with exceptional performance, using pulp that comes from fibres of plant origin, natural materials which are both abundant and renewable. The entire range is **recyclable.**

Our sustainable Bepulp packaging offers many practical options. It is table-ready and designed to withstand any condition, from freezers to ovens. Sabert manufactures both the bases and lids, ensuring optimal lid fit and leak resistance.

It's never been easier to go green than with Sabert's 100% natural BePulp food packaging.

As natural pulp solutions are made from natural fibre, product performance may vary depending on the application. We recommend testing the solution for your application.

## BENEFITS OF BEPULP® NATURAL PULP

Suitable for **CHILLED** and **HOT** counter service

- > Best suited for **ultra fresh**, up to 2 days storage and transportation
- > Suitable for **hot food** counter service up to 120°C (up to 200°C depending on food content)
- > Microwaveable only for reheating at max. 800W for two minutes
- > **Wet/oily foods** will not soak through
- > Convenient: sturdy and economical material
- > Hygienic and safe for food contact

## BENEFITS OF BEPULP® LAMINATED PULP

Suitable for **CHILLED** and **HOT** applications

- > Extended Shelf life of three to six days
- > Better resistance for heavy or moist meals
- > Microwaveable and ovenable up to 150°C for max. 30 minutes
- > Film-sealable top
- > Good leak resistance including for delivery applications

## THREE LID OPTIONS Choose the best option depending on your needs

**FOR A FULLY RECYCLABLE SOLUTION:**

choose our natural plant based & recyclable pulp lids

**FOR AN EXCELLENT TRANSPARENCY:**

Choose our anti-fog post-consumer recycled PET lids that ensure your food remains on show at all times.

**HOT** FOR A STUNNING AND MICROWAVEABLE SAFE:

choose our polypropylene (PP) lids that change the product into a fully heat-resistant solution (marked with "HOT" symbol)

### ELEGANCE ON YOUR SHELVES

Our BePulp Square Slope bowls and their rPET lids provide an elegant and fully circular solution to operators. With their distinctive modern design and anti-fog rPET lids of market-leading clarity, they are the perfect packaging solution to display your culinary creations, even when they are stacked, and to preserve their freshness.

What's more, both bowls and lids are recyclable and lids are even made from recycled PET.

Elegance, performance and circularity all rolled into one product.

LAMINATED SOLUTIONS

LAMINATED PULP SOLUTIONS

Laminated pulp offers a better resistance for heavy or moist meals and a good leak resistance including for delivery applications. Also recommended for an extended shelf life (3-6 days).

PLA lamination, based on starch, is made from natural, plant based and renewable resource.

Laminated Solutions are microwavable/ovenable up to 150°C for max 30 min.

## BePulp sealable ready meal solutions

### The most sustainable and convenient solution to keep your meals fresh and appetising

The sealing serves multiple purposes: it prevents the food from leaking, keeps your meals fresh and appetizing throughout their shelf life, and can go in the fridge, freezer and microwave.

Our BePulp ready meal trays go one step further and combine all these features with a sustainable element and unique design.

#### BEPULP READY MEAL

Made from natural, plant based and renewable resource

#### PERFECT DENESTING FEATURES

Suitable for both manual and industrial processes (2 denestings designs per SKU, alternatively stacked into one another)

#### PERFECT SEALING FEATURES

Large and flat rollover edges for precise sealing and easy peeling for the film

#### DESIGNED TO SUIT ALL POPULAR SEALING MACHINES

Based on the same external footprint used widely in the ready meal market

PULP PLA:   +150°C

# Fastpac solutions

## The best performing range for delivered hot meals

Fastpac is the best performing range of microwavable solutions for hot delivered meals in the market. Give your customers the dining experience they expect, even when they are on the go, with Sabert's premium hot food packaging.

This line of products will help drive your take-out and delivery business by keeping food hot and fresh after leaving your kitchen.

Microwaveable, stackable and leakproof, our Fastpac solutions are designed for any hot food culinary creation and provide multiple options to meet operator needs.

Sabert helps increase your profits and customer loyalty with durable packaging that can be reused many times by the end consumer, who can put the product in their dishwasher.\*

\* Fastpac solutions can be reused after minimum 20 passages in the dishwasher (temperature 55°C, rinsing 65°C) according to standard EN 12875-1:2005-11

## BENEFITS OF FASTPAC®

The best performing range for DELIVERED HOT meals

- > **Can be refrigerated and used to reheat food inside**
  - > 100% microwaveable lids and trays
  - > Performs well under heat lamps (90°C up to 4 hours)
  - > Vented lids for perfect transparency and avoids the lid coming off in the microwave
- > **High quality advanced materials** perfect for long term storage, transport and reuse
- > **Leak resistant for easy, mess-free transport** of food thanks to resistance to water, heat, grease, oil and very strong lid fit
- > Easy to store, to fill, and to stack to ensure space saving and transport efficiency
- > Fastpac high quality solutions are **re-used\*** by the end consumer
- > Outstanding multiple design options (shapes, sizes, colours)
- > Interchangeable lids and trays
- > **Above 30 % recycled PP guarantee** (certified according to QA-CER recycled content).

**NEW**

## NEW NATURAL COLOUR

For a more natural and eco-friendly look, consumers will undoubtedly also enjoy our **NEW "Natural Colour"** Fastpac trays!

- > Natural colour (no carbon black)
- > Fully IR detectable (can be identified in recycling facilities)
- > 100% recyclable
- > Offers the same unique benefits as the other reusable Fastpac products

# rPET chilled & cold solutions

## Recyclable & made from post-consumer recycled PET

Our attractive **clear rPET solutions** are designed to make your food look its best - and freshest! Made from **post-consumer recycled PET**, our specific high-quality rPET range allows attractive and inviting visibility of fresh food with a variety of shapes and sizes, for all types of chilled dishes. You'll love our **clear lids, clean lines and efficient, stackable shapes** that allow fresh ingredients and vibrant colours to shine while optimizing in-store shelf space.

Our **post consumer rPET** content is certified according to QA-CER recycled content, an international, independent, third-party certification system based on the principles of ISO 9001 including the chain of custody. The certificate was delivered following the inspection and assessment of our facilities in Nivelles, Belgium.

## BENEFITS OF RPET

### Suitable for **CHILLED** applications

- > **Circular** product (recycled and recyclable)
- > Excellent transparency
- > Anti-fog lids
- > Great performance in refrigerated applications
- > Excellent food preservation/shelf life (protection from oxygen and moisture)
- > Easy to stack
- > Tight-fitting lids
- > Easy to open/close
- > Easy labelling features & extra value on specific ranges: tamper evident, inserts, sealable facilities

## SURESTRIP RANGE

These trays come with our SureStrip technology – a tab that surrounds the lid and provides added security. **The tab cannot be removed without damaging the container** – the ultimate in peace of mind for consumers.

# REUSEPAC, THE NEW REUSABLE SOLUTIONS

The Reusepac range will perfectly meet the needs of food to go and the delivered meals markets: a reusable and durable solution that makes your hot food look great in all circumstances even after dishwashing.

# Reusepac, the new reusable solutions

## DESIGNED FOR REUSE

- > Min. 50 cycles in the dishwasher
- > Increased strength thanks to a thicker film
- > New lid clip to ensure good lid fit even after temperature changes

## MICROWAVABLE WITH NEW "OPEN/CLOSE" VALVE SYSTEM

- > Close it to transport it safely with leak resistance
- > Open it for heating in the microwave

## SMART "CLIPS" STACKING SYSTEM

- > Unique clip system designed on the base & lids for safe transportation

# ON THE GO BEVERAGE SOLUTIONS

From single-serve hot beverage sleeves and coffee spoons to bulk containers for catering, Sabert has a corrugated packaging solution for your beverage needs. Durable and resilient, our Kraft beverage packaging is designed for safe and convenient transport of all beverages and includes options for custom printing to promote your brand.

# Beverage on the Move

Go for an easy assembly and safe transportation with a simple, one-handed solution for carrying coffee. Transport your beverages without fear of spilling thanks to Sabert's Kraft Beverage on the Move®.

## FIT FOR USE

- > Holds 8-12 cups of coffee
- > Keeps hot beverages (coffee, soup,...) insulated for up to 2 hours
- > Max. recommended temperature of 100°C
- > Also suitable for non-carbonated cold beverages

## POP, FILL & GO

Equipped with our patented POP, FILL & GO® technology, this product is a **time- and space-saving solution** that converts from a flat state to a fully formed container in a matter of seconds, and guarantees an easy and consistent filling.

## BEVERAGE ON THE MOVE

# CATERING: SABERT ENTERTAINING SOLUTIONS, DESIGNED FOR ALL OCCASIONS

At Sabert, we know that casual and formal entertaining is an art. It is a combination of great-tasting food and an outstanding presentation. Our catering solutions feature a unique blend of innovative designs and best functionalities to help make your next event a memorable one.

Their perfect lid fit and stackability make the Sabert Plattered Food Solutions incredibly easy to store and transport. To top it off, their stylish table-ready presentation allow for a hassle-free set-up and will help you showcase your buffet foods and show off your culinary creations in all situations.

Plattered food solutions.....	p. 74
Tableware.....	p. 88

# Plattered food solutions

Sabert offers the **widest range of platter solutions on the market** to showcase your food and enhance your culinary creativity. Sabert's ingenious design, like the ultra-secure clip-on lid systems of Ultimate and Gourmet Platters, will also help you save time. With their functional design, our products **can be taken directly from storage to the table**, so you have one less thing to worry about when preparing your event.

## OUR PLATTERS COME NOT ONLY IN A VARIETY OF SHAPES, SIZES, BUT ALSO MATERIALS:

**RECYCLABLE BEPULP SOLUTIONS:**

the sustainable response that performs

**RECYCLED KRAFT CARDBOARD:**

the natural look with great performance

**RECYCLED & RECYCLABLE PET SOLUTIONS:**

the perfect way to showcase freshness in foods

**WASHABLE PP SOLUTIONS:**

the perfect illusion of permanent tableware

## THE BENEFITS OF OUR PLATTERS SOLUTIONS

- > Comprehensive range of materials, design, sizes & colours to meet every need
- > Resistance to wet and oily food
- > Stunning and table-ready presentation
- > Perfect fitting lids
- > Excellent stackability for storage and transport
- > Convenient transport features, some models even have integrated handles

Ultra-secure clip-on lid systems in Ultimate and Gourmet platters

Excellent stackability for storage and transport

Integrated handles for convenient transport

# Bepulp recyclable platters

Bring sustainability to the table with **Bepulp natural and recyclable** pulp platter solutions designed for exceptional performance.

- > Suitable for both cold and hot preparations.
- > Best suited for ultra fresh food, they can be stored up to two days.
- > Our BePulp platters come with recyclable PET lids with perfect fitting to showcase freshness in foods.

As natural pulp solutions are made from natural fibre, product performance may vary depending on the application. We recommend testing the solution for your application.

## PLATTERS RANGE

Sabert offers the **largest assortment of recycled and recyclable PET platters and lids**, with a very large choice of design, colours and dimensions.

Thanks to an exclusive lamination process, Sabert black, marble, but also silver Platters offer outstanding renders with perfect illusion of stainless steel and re-usable catering platters.

An adapted lid is also available for each platter solution, with a very efficient closing system and strong stackability features, which guarantees secure food transportation.

# Washable PP Platers

Give your event an upscale atmosphere with our affordable washable PP platters suitable for both hot (platter base only, up to 70°C) and cold dishes. With their outstanding design, they give the perfect illusion of permanent tableware that will wow your guests.

Our PP platters are rigid, resistant, and can be washed by hand or in the dishwasher (platter base without lid, up to 20 times at a temperature of 55°C and rinsing at 65°C) without losing its performance or style.

# Tableware

Sabert offers a comprehensive range of high-end tableware, combining quality with discrete and refined designs that will be perfect for any casual or formal entertaining. The large Sabert Collection of sleek and modern styles and sizes will meet all your needs.

Bring sustainability to the table with Sabert's BePulp catering and tabletop solutions: a range of innovative and **recyclable products of plant origin**. It combines sustainable design with exceptional performance, using pulp that comes from fibres of plant origin, natural materials which are both abundant and renewable. The entire range is recyclable.

Discover also our **washable** elegant bowls and appetizers, an outstanding design and perfect illusion of permanent tableware. Our tableware solutions are rigid, resistant, and can be washed by hand or in the dishwasher without losing its performance or style.

# Values Sabert

Sabert provides innovative, value-added products to the highest quality standards supported by outstanding customer service. Today, our product solutions fulfil this vision and have earned the trust and loyalty of customers around the globe. As our employees and clients agree, Sabert makes food look great.

## We share our values everyday

**WE Develop  
Trusting  
Relationships**

Trust and respect is earned by our actions. It is built on a foundation of listening and honest communication. We collaborate and work together with openness to gain mutual understanding.

**OUR  
Customers  
Come First**

Customer are our reason for being. We deliver quality products and services by acting proactively and responding quickly to their needs.

**WE  
Continuously  
Improve**

Sparked by curiosity and a willingness to challenge the status quo, we are open to change and to continuously learn. We are energized by our drive to innovate, eliminate waste and make things better.

**WE  
Deliver  
Results**

We honor our commitments through initiative and being empowered to take ownership. Seizing opportunities with a sense of urgency, we demonstrate a 'can do' attitude. We hold ourselves and each other mutually accountable.

# Certification

## BRC Packaging

Sabert EU is delighted to have achieved again Grade AA in the BRC Global Standard Certificate issue 6, the highest possible rating for a BRC planned audit.

This certificate guarantees the very highest standard of quality management.

Our products and services are fully in line with expectations, free of food safety risk and meet all legal requirements in hygiene and food safety compliance.

Furthermore, all reasonable measures are taken to avoid incidents! Sabert makes food look great and safe.

## FSC certification

Sabert is a certified company with FSC certificate number CU-COC-885779. Look for our FSC®-certified products.

## QA-CER recycled content

Sabert Corporation Europe SA is certified according to **QA-CER recycled content**.

QA-CER recycled content, is an international, independent, third-party certification system based on the principles of ISO 9001 including the chain of custody. It goes beyond ISO 14021 in the fact that it identifies all possible waste streams that can be recycled and present so-doing an all comprehensive system.

The certificate was issued following the inspection of our quality system related to the recycling process and use of recycled materials, both the recycled content and the quality of the end product are addressed in order to support the principle of sustainability, and the evaluation of our facilities in Nivelles, Belgium.
