

INTRODUCING OUR LINE OF PREMIUM, REUSABLE DRINKING STRAWS

Our straws offer a sustainable solution to the global plastic pollution problem. They are made from a unique wood and plant-based material that biodegrades into CO₂, water, and biomass, without leaving behind permanent microplastics or other toxic residues.

PRODUCT DATASHEET

OSB 8x200 D200 - Medium Straw 8mm (Black)

PRODUCT INFORMATION

Product:	OSB 8x200 D200 (SKU: OSB 8/200)
Colour:	Black
Packaging:	Dispensers
Description:	Reusable drinking straw. Suitable for all kinds of beverages for up to 24 h without getting soggy (at maximum temp. 40°C - 2 h with temp. > 70°C).
Usage:	Reusable. Can be washed in the dishwasher up to 10 times (at 60°C).
Dimensions:	Outer diameter: 8mm - Length: 200mm
Weight:	1,20 gr (+/- 5%)
Material:	Wood & plant-based patented material from Finland, developed to serve as a sustainable alternative to PP and PS, and replace PLA due to its fast biodegradation.
Paper wrapping:	Upon request - white paper with custom printing option
Manufact. process:	Extrusion
Recycling:	Industrial composting - Can be disposed of in the bio-waste bins for collection and processing in composting facilities.
Compostable:	DIN Certco seedling certificate according to EN 13432
FSC:	Yes (material and dispensers)
Non-GMO:	Does not contain genetically modified materials
Food contact:	Yes (EU No 10/2011, EC No 1935/2004 and EC 2023/2006)
Allergens:	Does not contain common food allergens or gluten
Ecotoxicity:	Does not contain PFAS or heavy metals
