Ergomat Nitrile Tech — work mat for industry, production lines, service stations where people stands longer period. Developed for tough environments and is made of durable nitrile rubber, withstands steel from grinding machines, oils, chemicals. The pattern design and the nitrile rubber provide good slip resistance. The nitrile foam provides good elasticity. Ergomat Nitrile Tech is very comfortable to stand on and provides the best relief for feet, knees, hips, back. Provides benefits such as improved blood circulation as the feet parry the soft surface. The body builds up musculature, which over time prevents wear-and-tear injuries. One of the most durable workplace mats on the market. Can be used in most industrial environments.

The rug is easy to wipe och clean. Can be washed in a 60°C washing machine. Dry on a flat surface.

- Available in 3 sizes: 850x600 mm, 1500x850 mm, 2850x850 mm.
- Total height 15 mm was of rubber height 3.5 mm, foam height 11.5 mm.
- Weight 3.2 kg - size 850x600x15 mm. 7 kg/sq.m.
- Colour: Black.
- Washable 60° C.
- Upper 100% Nitrile rubber of which 15% is recycled.
- Underside 100% Nitrile Foam.
- Slip resistance: NFSI High-Traction approved.
- Fireproof: EN 13501-1 / Efl-s1.
- Static tendency: EN 14041 Antistatic.
- UV protected: Yes.
- Underfloor heating: Yes.
- Made in Europe.
