Letter of Recommendation for Christer Olsson

To whom it may concern,

We are writing to wholeheartedly recommend Mr. Christer Olsson as an exceptional floorball coach. Having had the privilege of working closely with him during the summer and winter holidays in both Sweden and China, we are impressed by his unwavering dedication and profound expertise.

Mr. Olsson's coaching prowess is evident in the remarkable progress our teams experienced under his guidance. His patient approach, coupled with a scientifically crafted and highly effective training plan, played a pivotal role in propelling our U12 and U15 teams to become the national champions of China.

What sets Mr. Olsson apart is not only his ability to focus on immediate success but also his commitment to building a strong foundation for young players. From honing technical skills to imparting strategic insights, he has equipped our players with the tools necessary to achieve sustained success in the competitive world of floorball.

I wholeheartedly endorse Christer Olsson as an outstanding coach whose influence extends beyond the scoreboard. His impact on our teams has been transformative, and I am confident that any program or individual fortunate enough to work with him will experience similar success.

Sincerely,

Team Management Committee
Pinghe Dragon Floorball Team
