## December 2022

Our house has now been taken over by crawling elves, snowmen, mice, Shepherds of Bethlehem, elves on slays and skies, octopussyelves, Santa Claus and outdoor lightning. And my guess is, that you're also busy decorating your home for Christmas. All we need now is some snow to finalize the Christmas spirit.

Pheww, 2022 has been a hectic year. Each and every one of us have dealt with a lot of different challenges. Whether it has been about economy, energy prices, lack of almost everything. Not to mention all the things going on in the world outside of Denmark. Sometimes I must admit I cannot keep up with it all.

It is my sincere hope that 2023 will bring us all positive changes and most of all I hope that we will see peace in Ukraine.

## September, October and November newsletters

Did you miss my monthly Newsletters for September, October and November? I do hope so 😊 And rest assured, it was not my intention at all. But extraordinary health challenges took up most of my energy. In order not to come to a complete standstill, I've knitted and crocheted as much as possible while listening to audiobooks. A good combination, if you ask me. When I've finished with it all, I'll upload them all to [www.fiefit.dk](http://www.fiefit.dk) under [Knitwear DIY](#) incl. [knitting patterns](#), which as usual are my own ideas.

Now it seems that new medication is doing the trick, for which I'm truly grateful and I'm slowly getting back to working in my workshop. I have many good tasks waiting for me and I look forward to getting started. As you know one of the tasks are carbags to this amazing Porche. But first I need to practise making new carbags to ourselves. I still need to learn more about my new sewing machine, and I prefer making any necessary mistakes on my own things 😊

Next in line is quite many [Redesigns](#) for which I have so many ideas in making. The fabrics are cut and ready for me to continue working with.

## Workshops 2023

I've hosted monthly workshops in 2022 and I've enjoyed each and everyone of them. However, since I chose to place them on Mondays and in the middle of the afternoon, I knew that it would limit participation from those of you who are still working.

Which is why I want to try something new in [2023](#). I think it could be fun to try hosting online workshops.

When I have received your registration, you'll receive a link from me. Then all you have to do is click on the link, when the time comes. This way I hope to be able to attract participants from near and far, and also those of you who are still working, since the online workshops will be held on Sundays from 15.00-16.00 CET. Keep updated on the dates [HERE](#).

**And speaking of which, I need your help.** In order to make it easy to participate, I'd like to hear your opinion on which media you believe to be the most applicable for everyone. Personally I think either Skype, Teams or Google Meet. I have good experience using Skype and Teams, but none with Google Meet. **What would it take for you to feel, that it is easy to access and easy to use?** Based on the feedback I get, I'll make some tests before uploading link before the workshop. If you can find time to help me, I will be truly greatfull.

Which media do you use?

I also want to make it easy for you to find FieFit Redesign. Which is why I hope you will spend a few minutes help clarifying below questions for me:

1. Which media do you prefer to use, should you want to buy clothes online?
2. Would you buy upcycled clothes? Not recycled but upcycled similar to FieFit Redesigns
  1. In a conventional shop?
  2. Online?
3. What will decide your purchase: price or climate considerations?
4. Which media do you use, if you want to get inspiration for DIY?
5. Do you use # when searching online?
6. What makes you use YouTube?
7. Are you on Facebook? If yes, for what primary purpose? If no, why not?

Today you will find FieFit Redesigns on [www.fiefit.dk](http://www.fiefit.dk), on [Trendsales](#) and on [Instagram](#) and even though I can see, that I have many followers and/or likes, I'd really love to be able to sell more than I do today, obviously.

One last question

For quite some time now, I have been searching for a place to exhibit some of my Redesigns. So far without any luck. If you have any suggestions, do let me know. It could be a small café, a small flea shop (not the giant ones). For instance, I've seen an optician in Roskilde selling paintings, antique watches etc. If you know of a cozy shop with extra floorspace, do let me know. Of course, I'll contact the owner myself, no need for you to worry about that.

Thank you for all your help

Since you already get a 10% discount as recipient of my newsletters, should you buy one of my Redesigns, that would not make any difference 😊 Instead I invite you to look at the bottom up your drawers and closets to see if you have something lying around, that you are not using for the moment. Then bring it to me, and let's see if we can find a way to make some changes that will enable you to wear the clothes again.

Finally, some fun DIY inspiration

What kind of yarn do you think I've used to make this pentagon? It's actually sewing threads 😊 Up to 11 different at a time. Funny idea, right?

I had a lot of sewing threads in many different qualities, but I couldn't use them in my sewing machine. And when I'm sewing by hand, I always use the thread used in the sewing machine ie. I had no use for all these extra threads.

Something to remember, before throwing your sorted out threads 😊

I wonder if you have some extra zippers and yarn?

I need zippers from 40 cm and upwards in all colours and shapes. Could be from duvet and pillowcases. Please let me know before you throw them out. And you don't have to spend time separating the zippers from the fabric, I'll take care of that myself.

**Left over yarn** in all colours and qualities are most welcome.

I wish you and your family a merry christmas and a happy new year. I hope to be seeing you in 2023.

Take care and stay safe.

Warm christmas greetings from

Janeth/FieFit Redesign

[www.fiefit.dk](http://www.fiefit.dk) is also in english which is why I hope you will share my website with friends and family outside Denmark. I work hard on making english translations from my entire website.

Registration and de-registration of my Newsletters by sending a mail to: [fiefit@outlook.com](mailto:fiefit@outlook.com), and if you prefer a link by text message, just let me know.

---

August

## **Social media**

If you have a profile on LinkedIn, you might have noticed the recent dialogue concerning the purpose with this specific media. Some people find it natural to use LinkedIn as a datingsite. In addition there seems to be a new trend from Danish politicians to use LinkedIn to agitate for their political views, and I've seen comments about views like this belongs in Facebook. Sport events and status about the war in Ukraine are also getting comments that are not pleasant to read.

All of the above has made me rethink having a profile in LinkedIn. I have always considered LinkedIn to be the only professional media for professional networking and knowledgesharing. And if LinkedIn is heading towards a Facebook ver2, then it's no longer a media I want to use. I'm not closing down my LinkedIn profile – yet – but I will put it on stand-by.

I'm sure there are a lot of good reasons for why we choose the specific Social Media that we all use. And so should it be. If you want to be updated on everything that's happening within [FieFit Redesign](#), I have following options for you:

- Monthly newsletters, or rather blotposts, like the one you're reading now.
- Instagram, search for [fiefitredesign](#)
- Twitter, search for [@janeth\\_fiefit](#)
- Pinterest, search for [janeth svendsen og fiefit redesign](#)
- Trendsales, search for [fiefit](#)

### **Click and buy through my adds in Trendsales**

And now I'm happy to tell you, that you have the "Click and buy" option for all my Redesigns. The link will lead you directly to my add in Trendsales and then shipment and payments are taken care of by Trendsales. Which is safe and professionally taken care of for both you and me. All my prices are fixed, and I'm very happy to announce, that I've already sold two Redesigns through Trendsales. And the buyers have rated their purchases with a 😊

### **Your personal guide to find the right clothes**

In addition to my [sizeguide](#), you are most welcome to send me your measurements and some information about what kind of clothes, that you are interested in. Whether it's a dress, pants, outerwear, scarfs, hats, gloves etc. Based on your information, I will send you links to the specific FieFit Redesigns, that fits you.

### **My new sewingmachine**

After updating my website with "Click and buy", I've now started learning how to use my new sewingmachine. It was fitted from the factory with both under- and overthread which enabled me to start with some few easy tasks. One of them was redesigning sleeves in one of my own blouses. And the next was a new linnen in one of my own skirts.

My next task was to transfer 53 metalcoils to the new plastic coils. And even though the sewingmachine comes with a very good manual in Danish, I also found some YouTube videos showing close-up how to do. And I can tell you, that there's a huge difference from my old mechanical sewingmachine and to this new digital sewingmachine. I'm really looking forward to learning much more about how to use it.

And again I must emphasize the support and service from the staff at the [Symaskinshoppen](#) in Roskilde, where I purchased the sewingmachine. They are always very helpfull either on phone or when you drop by the shop.

They also host [sewing courses](#) and sewingcafées, where you can bring your own sewingmachine and spend some hours getting inspiration from the other participants.

### **Custommade bags**

Last week I was contacted by a car owner who wanted to have custommade bags for his Porche 944. Wau, it was a good looking car 😊. We took measurements and agreed on materials and design. We agreed, that I should take the time needed to learn how to use my new sewingmachine, and afterwards make our own new [custommade bags](#) for our own car. Once they're finalized, we will see if the design gets approved to the Porche. And if so, you'll be the first to know 😊.

### **Curve and Plus Size**

When I upload pictures of my [Curve and Plus Size](#) Redesigns, I've noticed there's some interest. And even though it's become more common to see both fysical and online shops selling Curve and Plus Size, then I encourage you to share my posts either from Instagram or from my website, should you know women using Curve and Plus size, and who also wants to be climate aware and thus wear upcycled clothes. And I was very pleased when I sold my beautifull homeknitted [sweaterjacket](#).

### **Petite**

And I'd like to encourage you to do the same for the women using [Petite](#) size. Ie. sizes from 34 and smaller. Do share my posts and uplads, if you know of someone that might be interested.

### **Workshops**

If you find some of the above inspirering, and maybe have some clothes that you're no longer using, and would like some input on how to redesign, then please check out if some of my [workshop dates](#) fits into your busy schedule. If not, you're always welcome to [drop by](#), just remember to make an appointment first. And if that's not possible either, then send me some pictures and we can mail or talk on the phone, Facetime or Skype. A good advice is free of charge.

[www.fiefit.dk](http://www.fiefit.dk) is also in english

Please note, that you can share my site with family and friends outside Denmark, as I always make [english translations](#) of all the pages.

If you wish to unsubscribe my newsletters, drop me a mail: [fiefit@outlook.com](mailto:fiefit@outlook.com) and I'll delete you from the list.

Take care and stay safe.

Kind regards from FieFit Redesign by Janeth Svendsen

---

Juni 2022

### **New prices**

As mentioned in the blog from May, I've now adjusted all my prices. To significant lower price level. The prices are visible in my webpage, on Instagram, Twitter and in Trendsales, in which I'm working up uploading all my Redesigns.

### **Click and buy through Trendsales**

And by uploading all my Redesigns to Trendsales I'm able to make this Click and Buy function. This way it's much easier to purchase online and Trendsales are taking care of the delivery and payment proces. This is my way to compete with ordinary webpages offering online purchases. And this set-up makes me feel confident, that security in all levels is top class. Another reason that I prefer this set-up, is because here I can show, that all my prices are fixed, and thus I do not have to risk getting offers that are not serious. To put it in very diplomatic terms ..

### **YouTube**

I've not yet given up on uploading small videos in my webpage, But when I research into videos today, which are focusing on recycling and upcycling, I find it a bit out of my league. It appears to be the media for very young girls, and they focus more on taking selfies and not about the clothes as such. On the other hand, when I check out english You Tube videos about the same subject, then it's more to my liking. Very informative and professionally made. If I find the form, that I can see myself in, then you'll be the first to know. And do not hesitate to contact me, if you have ideas and/or experience about how to make these videos.

### **Sizeguide**

Are now available in both [danish](#) and [english](#).

## News

I'm updating my blog with news about once a month. And then I'm sending you a link to my blog. If you want to subscribe or unsubscribe to these news, or if you prefer a link by text message/SMS, just drop me a line to [fiefit@outlook.com](mailto:fiefit@outlook.com).

You're also most welcome to forward my mails, in case you think of someone who might be interested.

Take care and stay safe.

Kind regards FieFit Redesign by Janeth Svendsen

---

May 2022

## New prices

When I began creating my Redesigns in 2018, it was difficult to find the right price-level. By then, I was almost alone in this market, but since then, a lot of creative people have started to "upcycler"/redesign recycled clothes. And strangely, this particular area has seen much lower pricelevels in contrast to almost everything else.

Now I've adjusted my prices to be on the same level, as most of the Redesigns I find on Instagram and Twitter. Naturally you will find much more expensive clothes too, but I prefer more flow in my sales.

## That means introducing three major changes.

1. On top of each page, I've added a [link to index and a guide](#) on how to benefit most, when reading my webpage. And no, I do not take my readers to be less intelligent, not at all. But you need to double click on each headline in order to get my introduction and description to the following pages. And I'm not sure everybody gets that from the start.
2. Secondly, I've reduced all my Redesigns by 50-75% and removed all previous discounts. They were only visible provided you read my [blog](#), and I'm not sure, that was for everybody to read.
3. Last but not least, I've made it more visible, that when you buy one of my Redesigns, you get to choose a [side benefit](#). I've added a link after each price. Because even though it's stated under sales and delivery information, well, it's not every visitor who finds this particular information.

## **Curve and Plus Size**

And finally, I found a fabulous Curve og Plus size model. Enjoy all the great pictures – and Redesigns - under [Curve and Plus Size](#).

## **Production stand-by**

As mentioned in my latest blot, I've got a new sewingmachine. I've not started using it because of all the updates in [www.fiefit.dk](http://www.fiefit.dk). I only need to make a few updates in my sizeguide, and that will be finalized in the nearest future.

## **Fies flea market**

In the nearest future, I will add a new headline called, "Fies flea market" Here you will find a lot of our own things, that we no longer use. That is, everything else but my Redesigns. Under each picture I'll link to the specific site on [www.trendsales.dk](http://www.trendsales.dk) and – should you feel tempted – you can either order from Trendsales and have it delivered, or you can drop by here, and save money for delivery 😊.

## **News**

I will update and distribute my blog with news from [www.fiefit.dk](http://www.fiefit.dk), approximately once a month. If you want to subscribe – or to cancel a subscription – please drop me a line to [fiefit@outlook.com](mailto:fiefit@outlook.com).

Take care and be safe.

Best regards FieFit Redesign by Janeth Svendsen

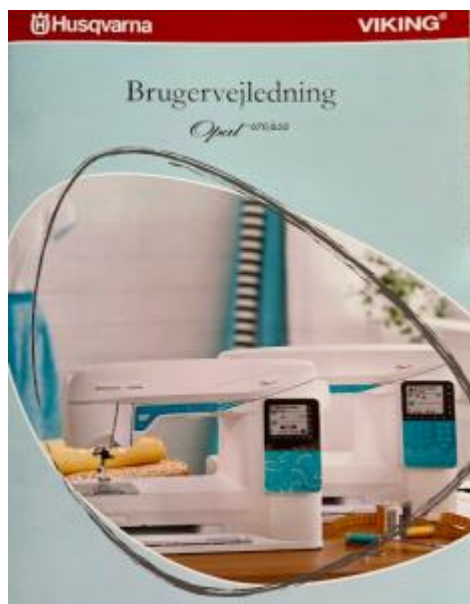

---

## **April 2022**

### **My sewingmachine has retired!**

After more than 50 years, and a couple of visits to the repairshop, it became clear that yet another repair would not end well, and the decision to buy a new sewing-machine had to be taken. Even though I had suspected as much, I had hoped that this could wait a while longer. But after some discussions, weighing pros and cons, we decided to buy a new Husqvarna. And what a fabulous thing that is. My old sewingmachine was mechanical, obviously, and all new sewingmachines are digital. It will be amazing to get to know all its features, and as far as I can see, from the 64 pages of manual, I will be able to make so many fantastic things. Which means, my dear friends, that it will be a while before you will see new Redesigns.

Except some projects which are being sewed by hand, whereas cushions- and garden-cushioncovers etc will have to wait a while.

And talking about sewingmachines, support and repairshops, allow me to recommend [Symaskine-shoppen](#) in Roskilde. They really know their craft, they give good advice, have a lot of sewingmachines to choose from, even used ones as well. They also have fine quality of threads, laces and lots of other spareparts. Everytime we've visited this shop, one of the owners has customers sitting with their own sewingmachines, getting advice and showing tips and tricks. Symaskineshoppen also runs a [sewing-café](#), and here you can bring your own sewingmachine, exchange good ideas, tips and tricks from other creative people. As soon as I've practised a while on my new sewingmachine, it is my intention to participate a couple of times, to learn from the best.

### Spring discounts

20% discount on all outerwear and knitwear and 15% discount for the rest of my Redesigns until June 1<sup>st</sup> . And remember to choose a [sidebonus](#). More details about [KNITWEAR](#) and [OUTERWEAR](#) including knitwear under [CURVE AND PLUS SIZE](#)

### Latest Redesigns

It is fun to redesign Svendsens old jackets. One down, two to go. I'm halfway through no. two. My guess is, that the size is around 44-46. And this work is all done by hand ie. it is not delayed while I get to know my new sewingmachine. You will find them under [JACKETS, KIMONO ETC](#) .

### Covers for sofa cushions

My 6 sofacushions are done and delivered to a very satisfied customer. You will find pictures and details under [Garden-cushions and sofa-cushions](#).

## Springclean

Are you as exited as me to prepare your garden for spring and summer? During Easter we managed to clean our garden furniture, bring out the gardencushions from winterstorage and the terraces are now clean and ready for use. While I'm writing to you, I'm sitting on our southfacing terrace in our swing, enjoying the sun and warm weather. If you find that the colours of your gardencushions are bleached due to the sun, or maybe a bit worn out, maybe it's time to consider making some new covers, instead of buying new ones. If you have a sewingmachine, some heavy fabric lying around, and a couple of zippers, then it's not that difficult to freshen them up. I've done it myself, for the first time ever, and I think they came out okay.

You will find pictures and inspiration under [Garden-cushions and sofa-cushions](#). I'll be happy to guide you if needed, and also sew them for you. That is, if you can wait a while until I've learned to use my new sewingmachine.

## FieFit now on Trendsales

Phewww, I've got butterflies in my stomach. In addition to my website, Instagram, Twitter and LinkedIn, I have now started a new saleschannel on [www.trendsales.dk](http://www.trendsales.dk) I will continue uploading all my Redesigns in the near future, and then I'll just wait and see what this might bring. If you do not know of Trendsales, I suggest that you look into the concept they are offering. In my opinion it provides more security and support than for instance DBA or Facebook marketplace. You do not have to think about delivery costs when selling items on Trendsales. That is taken care of by Trendsales together with the buyer. And ofcourse you can also find an app for Trendsales. I've also put a lot of my private things up for sale; shoes, boots, overcoats and bags. Sometimes Trendsales offers periods free of delivery costs for buyers, which you will get updates about, as soon as you make your Trendsales profile.

## News

I'm updating my blog once a month or thereabout. This is done by mail to a list of subscribers. All you have to do, is send a mail to: [fiefit@outlook.com](mailto:fiefit@outlook.com), if you're not on the list yet. And then you will receive inspiration, tips, tricks and updates on new FieFit Redesigns for sale.

Take care and stay safe

Kind regards FieFit Redesign by Janeth Svendsen

---

March 2022

Final sprint discount of all my winter Redesigns

*You will get a 15% discount on all outerwear and knitwear from today and until May 1<sup>st</sup>. And remember to choose your [SIDE BENEFIT](#). You will find the selections under [KNITWEAR](#) and [OUTERWEAR](#) and also special knitwear under [CURVE AND PLUS SIZE](#)*

New [workshop](#) datoer

In the beginning of 2022 I uploaded "running" weekdays. Since then I've changed it to the last Monday of each Month. As mentioned in my previous blog I've already hosted some very creative and good workshops. I've really enjoyed them all. We've been up to 4 persons, including me each time and I find that an appropriate number of participants, because it makes it possible for all of us to engage in the same dialogue all the time. Which I think is very important.

We have also talked about, what it would take to make it easy for my guests to make space in their busy lives, to participate in my workshops. And we agreed that a fixed weekday and a fixed interval, would be easy to plan and to fit in. With few exceptions throughout 2022, this is how my workshops will be scheduled from now on.

Sometimes my workshop participants will receive a small task before the workshop; for instance to bring something that we are going to work with. As a suggestion of course. For the workshop on Monday next week, I plan to see if we can draw with Acrylic pens on disposable bottles 😊

Subscription preferably a couple of days ahead: [fiefit@outlook.com](mailto:fiefit@outlook.com) and cellphone 4082 9038. See you?

Updated [size-guide](#)

I am really proud of my new size-guide. It enables you to find your exact size, and then follow the link to the specific Redesigns, that fits you perfect. This also makes it much easier to order online and to avoid ending up with the wrong size. Even though I will always appreciate a visit from you.

Instagram debut

As mentioned earlier, FieFit Redesign is now available on [www.fiefit.dk](http://www.fiefit.dk), [Twitter](#), [Pinterest](#) and [LinkedIn](#). Google updates me on a regular basis on the number of visitors to my website and I get many "likes" and © on Twitter and LinkedIn. And that makes me really happy and proud. Fingers crossed that customers, or maybe new participants in my workshops, will follow 😊

Having used Twitter for some months now, I have “met” a lot of creative and sweet people who “likes” my uploads. They are mainly from England, Holland, USA, Germany etc, and I get a lot of inspiration from each and everyone. But as you can understand, they are not likely to drop by for a “cupper” – even though it would be fun. Based on my experience, it appears that Danes are more likely to use Instagram over Twitter and Pinterest.

Big sigh, because Instagram (owned by Facebook which is not my “cupper”) is a huge challenge for me. But as a wise man once said: “If you can’t beat them, join them”. And since one of my rules of life is: “If you do as you usually do, then you get the same result as you usually get” – well, then I have to acknowledge, that since I do not want the same as I usually have, then somethings gotta give. Embrace yourself, because a couple of days ago I revived my [Instagram](#) profile. And today I have 12 Followers – how about that? When I mention revived, it’s because I actually made my profile back in 2018 when I took my Entrepreneur education. One of the participants helped me make it, I’ve just never came about to using it.

Besides the relationship with Facebook, another reason for not using Instagram earlier, is that it’s very important for me to show “before” and “after” pictures at the same time. Otherwise my concept does not make any sence. And by doing that, my uploads appear more like a collage because each upload consists of several pictures at the same time. And I’ve always felt, that they will not be as presentable as showing one picture at a time. But time will tell. However, I notice, that when I Google for instance #upcyclingclothes – then [www.fiefit.dk](http://www.fiefit.dk) appears very quickly. And I like that

In addition to all of the above, I also have to learn how to use #. So far, I’ve used a number of # on my website, Twitter and Instagram. Fingers crossed, that it works. This is really learning by doing, and I enjoy working with all these medias.

### My latest Redesigns

Lately I’ve made a combination of a [Hoodie and a shirt](#). And it was really fun to make. It was like the ideas popped up while I worked. Next Redesign in pipeline is “feminizing” one of Svendsens old jackets. At least I do not think that the laces and colours will have a male appeal 😊 If you like it, then I’m sure you will also like the next one, because I have one more of Svendsens jackets to Redesign. And the good thing, is that I believe it will be a Curve and Plus Size to look forward to.

Meanwhile I’ve got a customer for 6 sofa cushions. And that’s also a fun task, because I received one piece of fabric from which I’ve been asked to make 2 large and 4 smaller cushions.

I'm allowed to use my own imagination and before I started, I visited the customer with a number of additional fabrics for the customer to choose between. We found a fabric that fitted into the other colours in her home, and now I can start. It even looks as if I have fabric enough for even more cushions than ordered. Let's see if I use the extra fabric for testing or I might be able to surprise her. Could be fun.

I'm looking forward to uploading the Redesigned cushions.

### Covid 19 restrictions

Since the infection rate is low again, I no longer ask visiting customers to be vaccinated. Phewww, it was tough to even have to write it. Still, Svendsen and I have got all three vaccination shots and **I'm relieved to be able to welcome you today if you're healthy and without Covid-19 symptoms.** I haven't started on shaking hands or giving hugs yet, but still, the important thing for me is, that we can see other people again, and it makes a world of difference. Naturally I'll act accordingly should the infection rate change, or should we get new restrictions.

I hope you're enjoying the warmer weather and that Spring is just around the corner. Maybe you even have some nice vacation plans to look forward to. We are hopeful this year, that we do not have to cancel yet again. Third time's a charm, as the saying goes.

Take care and be safe.

Kind regards from FieFit Redesign

Janeth Svendsen

---

### 2022 for FieFit Redesign

#### Happy New Year

I wish you and your family a happy and joyfull New Year 2022. With all my heart, I hope that we will all be able to find a balance in life, which includes a new way of living with Covid-19. Because something tells me, that this pandemic is here to stay. Experience has taught me, that ignoring the facts, and pretending that everything is dandy, when in fact it's not, that is not the way going forward. I have learned the hard way to acknowledge my challenges; that being healthwise, jobwise or personally. By doing just that, it's like an uninvited guest whom we just place in the corner, while we keep on dancing. I'm not saying that I'm always successful using this strategy but when I do succeed, it's really a good solution.

## Changes in 2022

These days we're starting a whole new year, and even though I usually do not have any wishes, or promises this time of year, I do have one idea that I wish to include you in. And don't worry, it will neither include your work nor your money 😊

After finalizing my Entrepreneur education in the spring of 2018, it was my plan to establish a small company; that is getting a company registered the proper way, settling the accounts monthly etc. But it soon became clear to me, that all I wanted at this time in my life, was a hobby and not a company with official obligations, deadlines and responsibilities. After 41 years in the labourmarket, I needed to feel more relaxed about my time and energy. After all, the main thing for me now, is to focus on my workshop, giving old clothes new lifes, and hopefully get to meet creative people at my workshops. I call my creations for Redesigns, others might call it upcycling. At the same time I've established this webpage, which I also like to spend time on refining and updating.

## FieFit Redesign on SoMe

In addition to my webpage, I also show my Redesigns on [Twitter](#), [Pinterest](#), Google via my webpage and of course [LinkedIn](#). Lately I've also made a FieFit profile on Trendsales, in the hope that I can establish an additional saleschannel there. And last but not least, it is my plan to post videos on YouTube during 2022. My plan is to show my Redesigns in another way, and I also have plans to present DIY guides.

## Click and buy is now - almost - possible

It is now possible to [order my Redesigns online](#). For now it will be by mail or phone, but I'm working on a solution to "click-and-buy" directly from the webpage. If you know how2do this, please please let me know 😊 So far I've preferred having customers in my workshop because of my Redesigns not corresponding to European standardsizes. On the other hand, when I give measurements in cm it should be much easier to [find the exccact size needed](#).

## Interesting Blog posts

Another thing that I'm really proud of, is my blog, which you're reading now. The purpose is to inform about new [Redesigns](#), what we learn in my [workshops](#) and also other interesting things that I come across or have on my mind. For instance, have you thought of the amount of challenges a tie has to face? Right? But I have. Check out my 2020 blog below. In the Magazine LIV, I read a very interesting article by Lea. She's telling us how it is to be Curve and Plus Size. And even though you might not be this size, I'm sure you'll find the article interesting. Read it in my 2021 blog below.

Or have you realized how many phases of life we have today? Child - adult - old. Nope, we're up to 5 phases by now, and you can read more about this in my 2019 blog below.

### Creative workshops

My [workshops](#) have come of to a good start in autumn and winter 2021. Which is why I feel optimistic and has uploaded 2022 dates. And I've already received subscriptions 😊 In order for all of us to feel safe at my workshops, I've decided that we will be 4 persons, and no more, in each workshop. At the same time **I also require that we're all vaccinated and tested before each workshop**. And yes, I know that vaccinations are a subject for discussions, which is why I've carefully [described my reasons and considerations](#) in my webpage. And so far it's been accepted all way round.

### Newsletters

One of my goals for 2022 is to visualize my Redesigns even more. I've decided to send mails with a link to my latest blog, and the sender will be [fiefit@outlook.com](mailto:fiefit@outlook.com). In my blog updates, I will link to news on my webpage. I will not spam your inbox and in return you will not get a trillion Facebook updates from me 😊 I hope you will follow me on [Twitter](#) and [LinkedIn](#) and, in a little while, you'll also be able to follow me on YouTube. If it's possible to follow this webpage, I'll let you know in a later blog update. I do hope you will find a way to keep updated, it will make my life so much more fun. If so, please drop me a line to [fiefit@outlook.com](mailto:fiefit@outlook.com). And of course, I'll be sad if you don't want to, but I will, for sure, respect that decision too.

### A long runup

It has taken me 1.193 days to get this far. So much has happened during these 1.193 days, since my last official day at work in Nordea. Luckily I'm still enjoying life with mr. Svendsen and Maggie, our lovely home and garden. And I sincerely hope, that we might meet again during spring or summer. Maybe in our garden, maybe somewhere else?

Take care and stay safe.
