### Trash and Christmas wrapping

We must once again remind that it is absolutely forbidden to put rubbish in places where they do not belong. This includes stairwells, corridors, garages, basements and the courtyard.

In our waste tubes, you throw away combustible rubbish, food waste and newsprint. Next to Aktivitetsparken on Milstensvägen cardboard, plastic, bottles, batteries are thrown away. In Rissne there is a Grovavfallspunkt where larger things like furniture and sledges can be disposed. They also take smaller items like pots, glasses and electricals.

It is especially important now during Christmas when a lot of rubbish will be thrown away, that we do it properly. No boxes, paper or Christmas trees can be placed in the yard or in the building.

A collection for Christmas trees is usually arranged by Savab after New Year.

For more information about waste sorting, see <https://www.savab.se/lagenhet/sortera-avfall/>

### **Solar cells**

We can now happily announce that the building permit for our solar cells is ready and that the installation will begin on the near future, probably in early January.

### **Electricity**

The association's joint electricity agreement from Vattenfall has now entered into force and the billing will in the future be taken care of by Fastighetsägarna.

**We, both resigning and newly elected members of BRF Hjortronställets board, want to wish You all a Merry Christmas and a Happy New Year!**

### **New Years rockets**

It is of course not allowed to light rockets in the courtyard, as this poses a great danger to all residents.

**Best Regards /*Styrelsen***
