The United Nations' Food and Agriculture Organization named coconut sugar the single most sustainable sweetener in the world.

Coconut trees use minimal amount of water and fuel. Coco Sugar has no artificial ingredients and is not chemically altered in any way.

**PT. Coco Sugar Indonesia was born out of necessity to directly connect Indonesia's farmers with the world's growing demand of healthy sugar alternative in form of organic coconut sugar and nectar.**

## Our Location

### At the Heart of It All

Our company is located in Banyumas region, the center of organic coconut sugar production in Indonesia where its use has been deeply ingrained in the culture and it can be traced back for thousands of years. The deep understanding about the people and culture in this region coupled with international organic certification standards position us as the leading supplier of organic coconut sugar and nectar.

### Dealing with No Middle Man

Having our company's headquarter and operations in Banyumas region, our organic coconut sugar and nectar are shipped from the same location they are produced. It means you will always deal directly with us – never a middle man. If you are looking for the best quality organic coconut sugar at the best price, you have come to the right source.

## Our Facility

### State of the Art Central Processing Unit

PT. Coco Sugar Indonesia has state of the art facility that adheres to Good Manufacturing Practice standards. We invest heavily in our infrastructure with long term vision to make sure that everything that comes out of our facility consistently have the highest quality possible.

## Vertical Integration

### From Our Organic Farmers to You

We directly work with our organic farmers on daily basis to create the highest quality organic coconut sugar and nectar. We give our farmers continuous trainings in organic farming practices, from how to organically fertilize the coconut tree until processing the coconut sap according to international organic standards. This control of the supply chain means we can consistently maintain our high quality standard while reducing cost and increasing efficiency.

## Social Responsibility

### We Want to Do Good

Indonesia has the largest area with coconut trees and more than 90% of it is owned by farmers. We are talking about grassroots movement with our organic farmers to produce the highest quality organic coconut sugar and nectar while enabling them to have better income through fair trade. It is our responsibility to make sure that our organic farmers can also enjoy the boon of global trade.

## ORGANIC COCONUT SUGAR AND NECTAR

COCONUT SUGAR IS THE ALTERNATIVE THAT PROVIDES THE ENERGY AND NUTRITION YOUR BODY NEEDS FOR A HEALTHY LIFESTYLE.

Organic Coconut Sugar is a delicious, unrefined alternative to processed sugar and artificial sweeteners. The sustainably grown, Non-GMO Project Verified sweetener is produced from the flower bud of the coconut tree. In addition to tasting delicious, organic coconut sugar has naturally occurring nutrients including magnesium, potassium, zinc, iron, B vitamins, and amino acids

Many traditional communities throughout the world consider coconut trees the "Tree of Life", as they provide a variety of accessible products from which they earn their livelihoods. One of the useful part of the coconut tree is the sap. That is why we harvested the best sap of the best coconut trees in Java. Beside the quality of the trees itself, to get the best quality of sap, we also harvest the sap from precisely-fitted age coconut trees. The most nutritious of the possible sugars is coconut sugar from the best resource through full-hearted process.
