Cassava Fields

Ladang Lima is collaborating with local farmers in East Java to grow Cassavas naturally without any chemicals. We only use Superior and Non-GMO Cassava seeds, resulting in high quality cassavas to be produced as all purpose cassava flour. When Harvest season, the fresh and free pesticides cassavas will immediately be brought to the factory, then we process it to make white natural color flour .

Besides Ladang Lima Cassava Flour, we produce many varieties of derived products based on cassava flour. Our product is healthy and safe be consumed by all families around the world. Hand in hand with the local farmers, we hope to increase the potential of cassava as a local food source that is healthy and able to improve the welfare of local farmers.
