## JAVANA ROYAL At A Glance

Javana Royal brand was founded in 2015 and registered as a business entity in 2018 under CV. Harmoni Multi Usaha. It was established by the founder's experience for having a speech delay child due to food allergic. The booming diseases growth nowadays such as cancers, diabetic, autistic and many more are caused by the daily food we eat but it was blamed as genetic errors of the parents. We actually don't know what we eat. Unfortunately certified organic food is also commercialized as a "different and unique" product while basically all food should be like that : from good agricultural practices products and processed responsibly.

This what the founder of Javana Royal wants to focus on by partnering with local Indonesian farmers whose products have been filtered whether fulfill food safety requirements regardless those are certified or uncertified organic. For quality assurance, we do hidden and scattered laboratory test for those products at internationally standardized laboratory, on farm as well as post-harvest random and sudden visits and physical quality check at every delivery. We emphasize on farmer's credibility beyond just a piece of certification papers. We call products of Javana Royal, sourced from those certified and non-certified organic, as healthy, pure and natural foods. The products are sold at supermarket, drug stores, specialty store, etc.

Javana Royal products ranges from various variety of 100% pure and natural honey (export and Indonesian National Standard quality with 18%-22% water content), honey comb, red rice, crystal coconut sugar, virgin coconut oil (VCO), 100% pure roasted bean & powder coffee, moringa powder leaves, etc up to unique Indonesian rice varieties.
