Yudhistira is furniture manufacturer in Central Java, Indonesia. Established in 1996, and now we have 2 factories complete with a lot of machines for production process. 2 factories with total area 16.000 sqm and more than 200 skilled employees, we can reach 26 container as our production capacity per month (6 containers for machine made and 20 containers for semi machine made).

Suar furniture is our main products, paired with metal (either iron or stainless steel) is the best selling for couple years. All the production process done in our own factory, so we can pay a great deal of attention to our quality for both wooden division or metal division.

Along with Suar wood, we have also Teak wood, Mindi wood and Railway wood for material option. All kind of wood we use are legal wood and SVLK certificated.

Currently the major destination for our market are USA, Europe and Asia.

Our furniture pieces will last for years to come while still maintaining an appealing, upscale appearance.
