## About Us

DUA JAYA GRUP Ltd. is a company engaged in general trading including export, import, distribution, and supplier. Based in Surabaya-Indonesia, our main products are tobacco and cigarettes. But we also have food products (spices, rice, sugar, & chocolate) and consumer products (clothing, crafts, household items).

We believe that local products are not inferior in quality to those of the big brands that dominate the market. We help introduce and marketing local products to the international market. We want to show that Indonesian local products also have international standard quality that are also able to compete with other international products. That is the reason Dua Jaya Grup was founded.

## History

Established in Surabaya 2012, Dua Jaya Grup Ltd., formerly known as Wieslav Tiga Jaya, is a cigarette company that collaborates with an experienced cigarette factory that has been producing the best cigarettes since 1957. Our factory produces a wide variety of cigarettes. We have American blend, Virginian blend, and Kretek Cigarettes.

Over the years Wieslav Tiga Jaya with its professional staff has succeeded in marketing local kretek and white cigarettes to penetrate the international market.

Due to a change in ownership, Wieslav Tiga Jaya in February 2021 transformed to Dua Jaya Grup. This change made us even more committed to growing our business. Not only in tobacco and cigarettes but also other commodities.

We strive to be a company that is able to meet consumer needs and also encourage the development of local businesses to the international market. By prioritizing quality and service, we are ready to serve customers and business partners in creating mutually beneficial collaborations.

# Vision

**To become a trusted, quality, and competent trading company in expanding the marketing network for local products both at local and international by prioritizing customer satisfaction.**

# Mission

Committed to progress and develop as a trading company that is able to provide the best satisfaction for customers and business partners through quality services and products.

Opening up productive business opportunities that facilitate business partners to improve services and selling value to meet international buyer standards.

Establishing mutually beneficial local and international business cooperation between producers, suppliers, distributors and consumers.

# 1) Tobacco

To support product quality, we are trying to source high quality tobacco from different parts of the world. Types of tobacco available are virginia, burley and oriental which have passed the feasibility test and the quality is ensured because it is imported directly from the following countries:

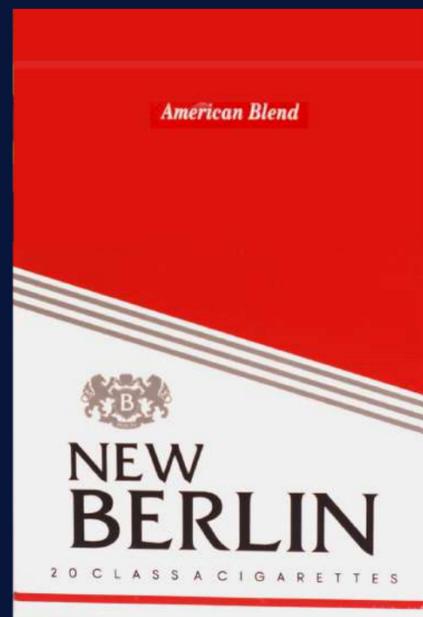

- **Brazil**
- **Zimbabwe**
- **Turkey**
- **China**
- **USA**

For the local Tobacco originally from Indonesia, we have various types of tobacco from the best tobacco producing regions in Indonesia, such as:

- **Lombok**
- **Temanggung**
- **Madura**
- **Bojonegoro**
- **Jember**
- **Boyolali**

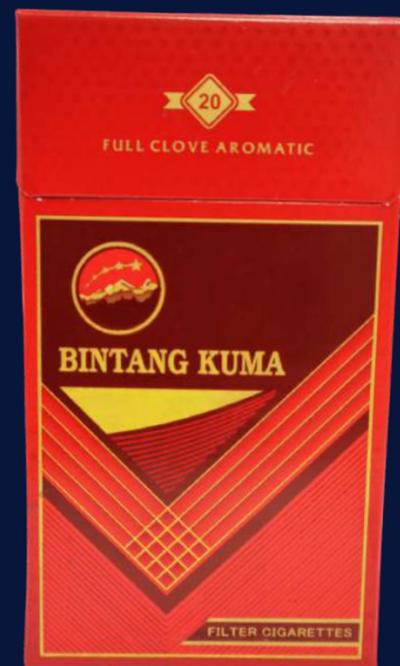

## 2) Cigarettes

Our cigarette products are made of selected tobacco from the best tobacco-producing regions in Indonesia such as Madura, Lombok and Temanggung. Our cigarettes are made from a blend of the best international and local tobacco. Not only that, our cigarettes are also formulated with Indonesian herbs which make cigarettes taste more delicious and savory. We have white cigarettes, black cigarettes, kretek cigarettes, and cigars.
