

**BRING NATURE'S  
GOODNESS IN YOUR LIFE**

## OUR MISSION IS TO PROVIDE THE FINEST AGRICULTURAL PRODUCTS, NOT JUST TO COMPETE IN THE GLOBAL MARKET, BUT ALSO TO BENEFIT THE SOCIETY.

Inheriting vast and fertile land, Indonesia provides the widest variety of agricultural products. Coconut is one of its most treasured outputs.

Currently, Indonesia has millions of hectares of land ready for coconut plantations, but most are without proper fertilization. With global food trends shifting to a healthy and balanced lifestyle, we are passionately tapping into its potential. Organic and natural products are greatly in demand, challenging agricultural practices by reducing pesticide and chemical use to zero. This is the challenge all product ranges are facing, from production to supply chain.

Manna, a name meaning “food from heaven,” has become the spirit of who we are and what we value. We produce and distribute premium, organic, and natural agricultural products. Our business focuses on trading and exporting products from nature’s goodness, directly to you. We work professionally by maintaining grand scale production with the most stringent and standardized hygiene system.

Kosher Certificate, issued by Badats Igud Rabbonim, UK (Annual Renewal)

At least once a year, we are internally audited by Internal Control System of Manna to monitor supply chain and administrative functions. Manna is also annually audited by International Organic Certification Body and Kosher Worldwide Organization.

Manna fabric is 1,250 m<sup>2</sup> of land with 1,000 m<sup>2</sup> of property. It is located at Kawasan Industri Candi, Jl. Gatot Subroto Blok 23/6A Semarang, Central Java, Indonesia 50181.

In 2013, we collaborated with hundreds of local farmers for over 30 Ha coverage. In 2014, we've increased our number of farmers, as well as broadened our organic land.

Starting 2015, we are forming a thorough and thoughtful insurance system so we can create a better and safer work environment for everyone, including employees and farmers. This is within our mission to become a world-class agricultural company, all while imparting our love for our country and in support of local labor and livelihood.

## COCONUT PRODUCTS

People call the coconut “the giving fruit” because of the many products you can manufacture from it. Indeed, Manna is committed to cultivating the best coconuts for use in our products.

### **NATURAL COCONUT SUGAR**

One of our most popular products, coconut sugar is used both at home and for commercial reasons. It adds a distinct nuttiness and aroma, whether it's added to beverages and in recipes, or used to produce pastries and desserts in bakeries.

We use a meticulous process to produce the best coconut sugar, from collecting the sap all the way to packaging and scanning the final product. This is to comply with the highest standards of quality for our buyers, and most importantly, to keep the integrity of coconut sugar as a healthier alternative to refined white sugar.

### **ORGANIC GRANULATED COCONUT PALM SUGAR**

Great-tasting and fragrant, this type of sugar has a low Glycemic Index (GI) of 35, making it a healthy and safe choice for you and your family. It is safe enough to be consumed by individuals with diabetes.

## ARENKA PRODUCTS

### **NATURAL ARENGA SUGAR.**

Arenga Sugars is another popular sugar alternative. It comes from the arenga tree, where our farmers collect the best sap and process it through boiling and grinding using coconut shells. We make sure that each pack of arenga sugar meets our quality standards. It is mostly used for cooking and baking.

### **ORGANIC ARENGA SUGAR**

Pleasant in aroma and taste, Organic Arenga Sugar is another organic sugar substitute. It's even made

healthier because it has a Glycemic Index of 35, making it a satisfying sweetener for daily consumption.

### **NATURAL ARENGA NECTAR SYRUP**

Arenga sugar is also available in syrup form, often used for desserts and with bread products like pancakes and waffles.
