Vision and Mission

Our Vision

“To be the best and most supporting vendor in global sports apparel industry”

Our Mission

“Develop and improve our system to achieve better products and services in order to support customer dynamic business strategy”

Our Values

“Performance - Focus - Goodwill”

Performance

We deliver results

Focus

We care for tiniest details

Goodwill

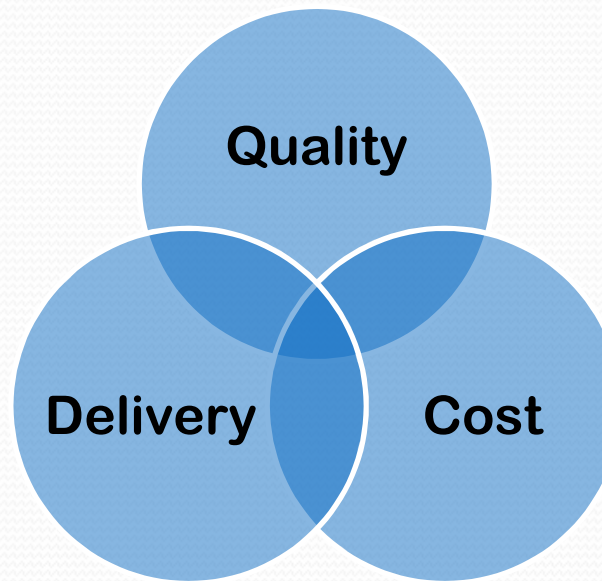

We spare nothing to support our customer

Our Values

“Performance - Focus - Goodwill”

To achieve our vision as the most supportive vendor, we focus on delivering quality products on time at a competitive cost

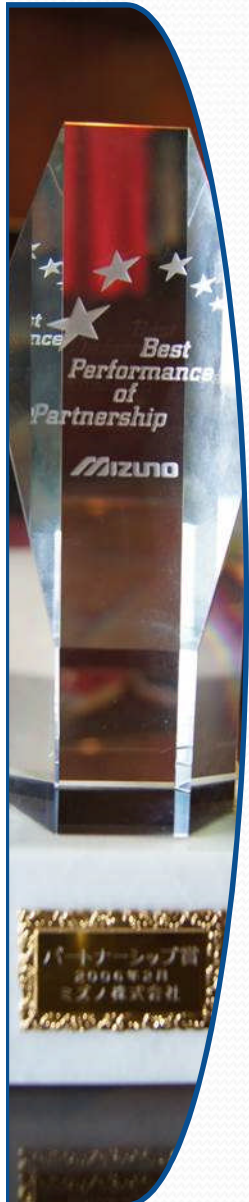

Quality

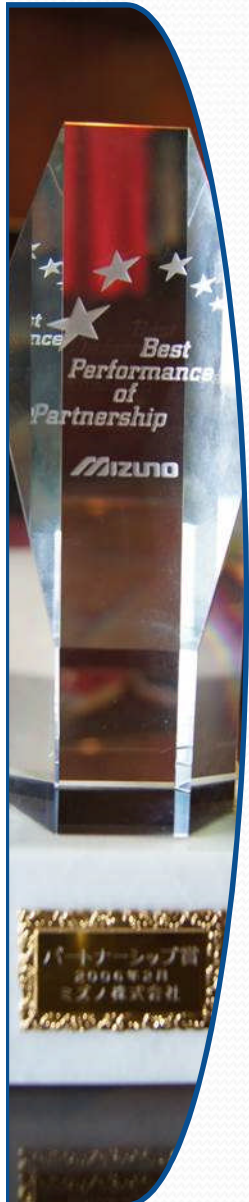

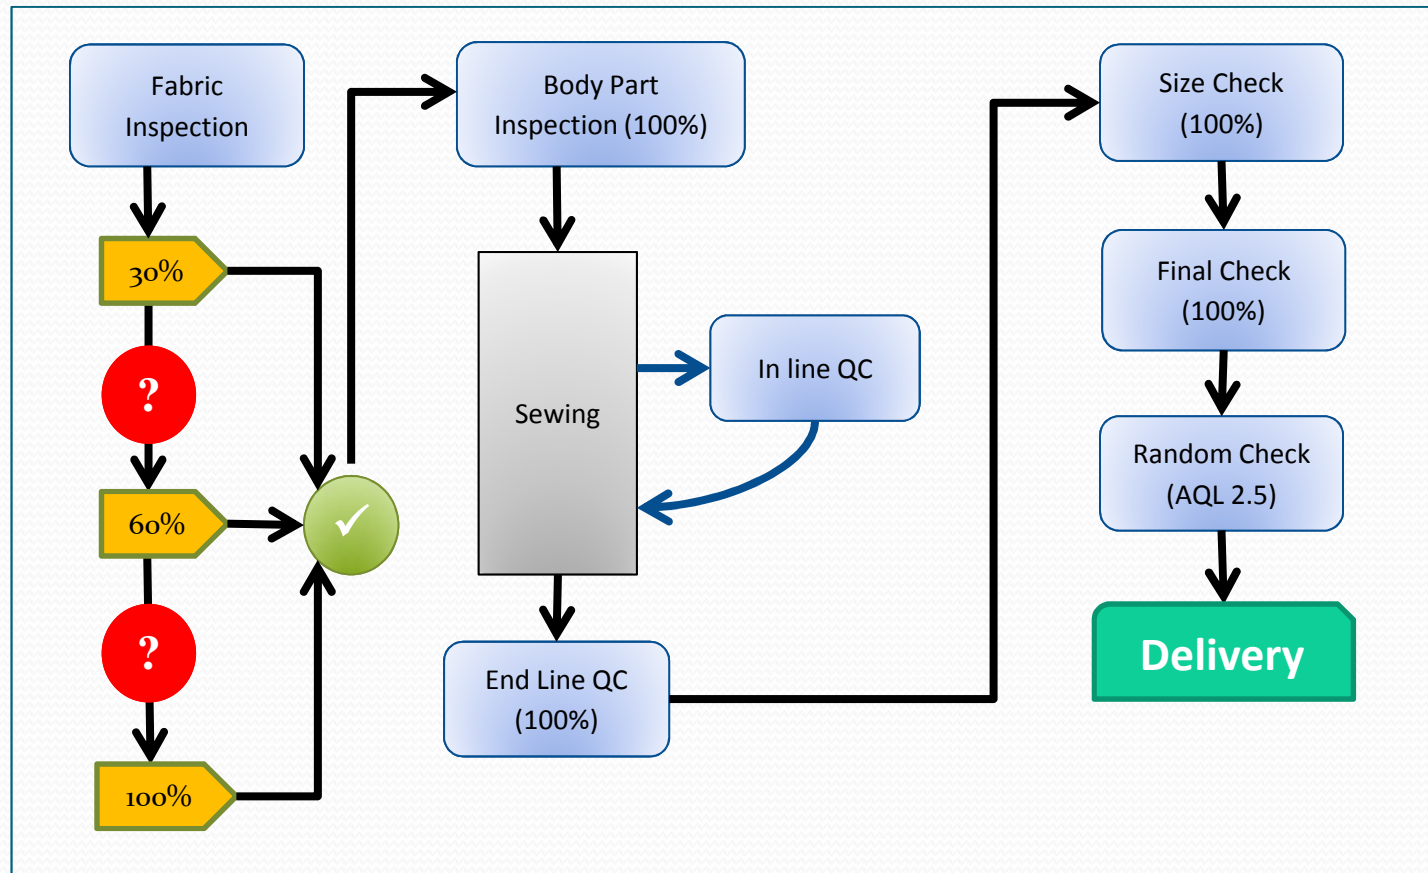

“Performance - Focus - Goodwill”

- Decades of experience in serving global market, particularly Japanese Market, enables us to refine our production system
- PFG comfortably works with challenging sophisticated material and design that any customer can demand
- Being located in West Java allow us to work with the best workforce as well as suppliers in the country
- Every piece of garment goes through multiple screening to ensure the quality of delivered products
- Uncompromising “**Zero Tolerance**” Policy in our Quality Checking

Quality

Stringent Quality Control System

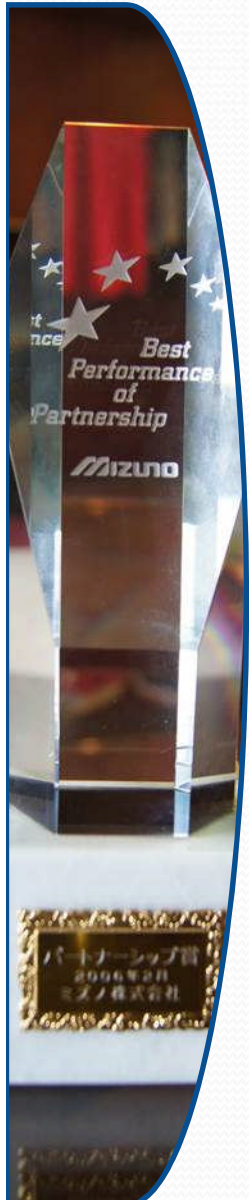

Quality

Human Resource

- We realize there is art in garment making.
- We study your product DNA.
- We carefully search, recruit, train and retain the best individuals to be in our team
- We are committed to provide a safe, healthy and conducive working environment not to merely comply on code of conducts but more as a strategy to attract the best talents

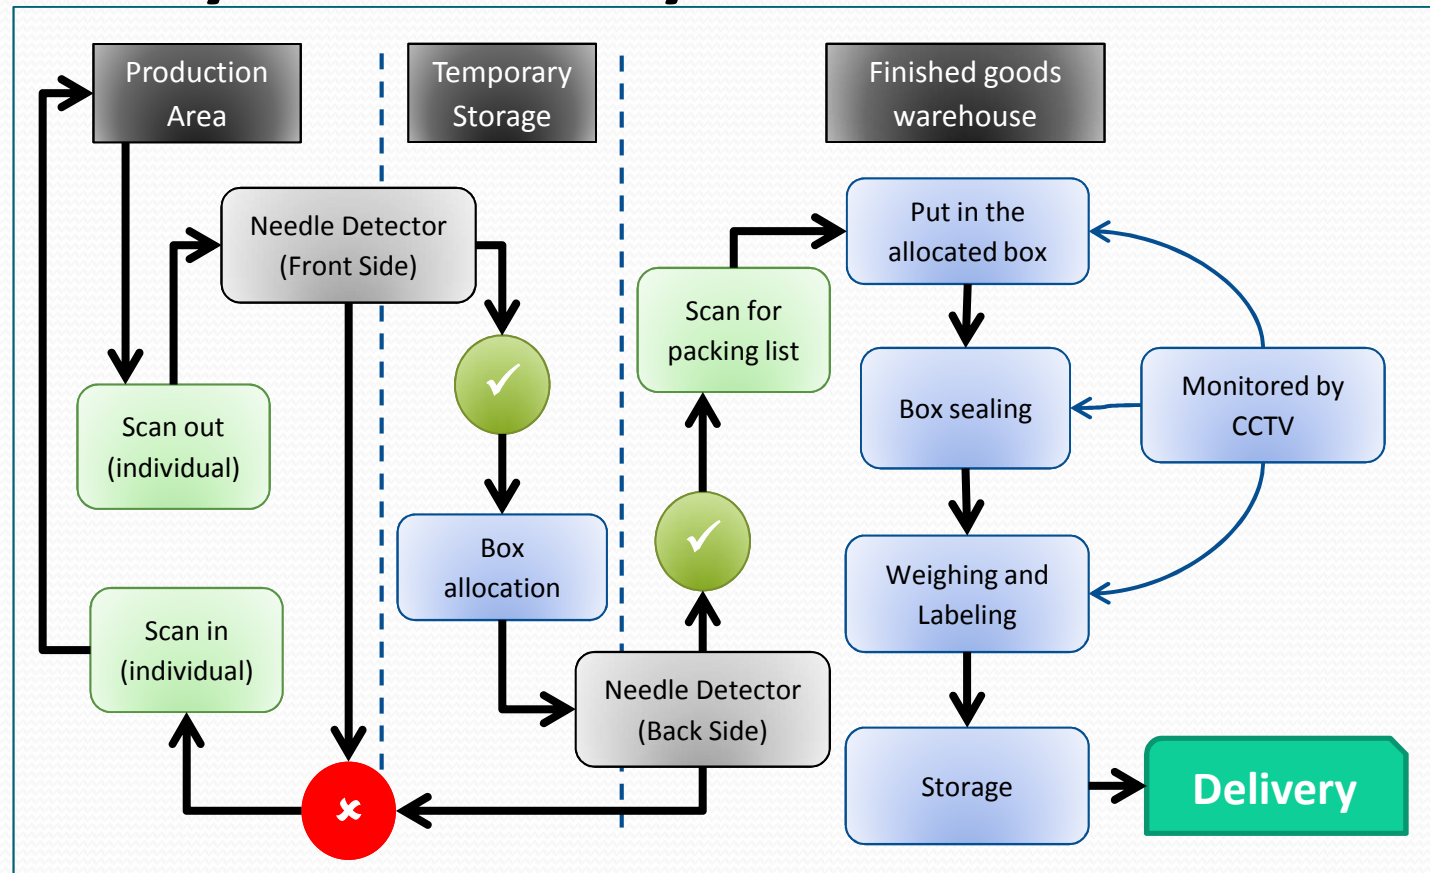

Delivery

“Performance - Focus - Goodwill”

- PFG ships to any continent worldwide
- PFG regularly handles complex delivery request from our global customers
- PFG develops internal barcode tracking system to ensure that every piece of garment is timely and accurately delivered
- PFG treats precautionary measures on safety and security as they are directly related to our customers' reputation

Safety and Security Measures

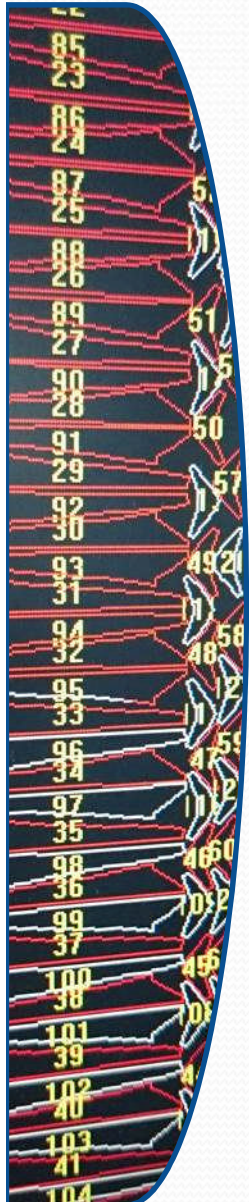

Cost

“Performance - Focus - Goodwill”

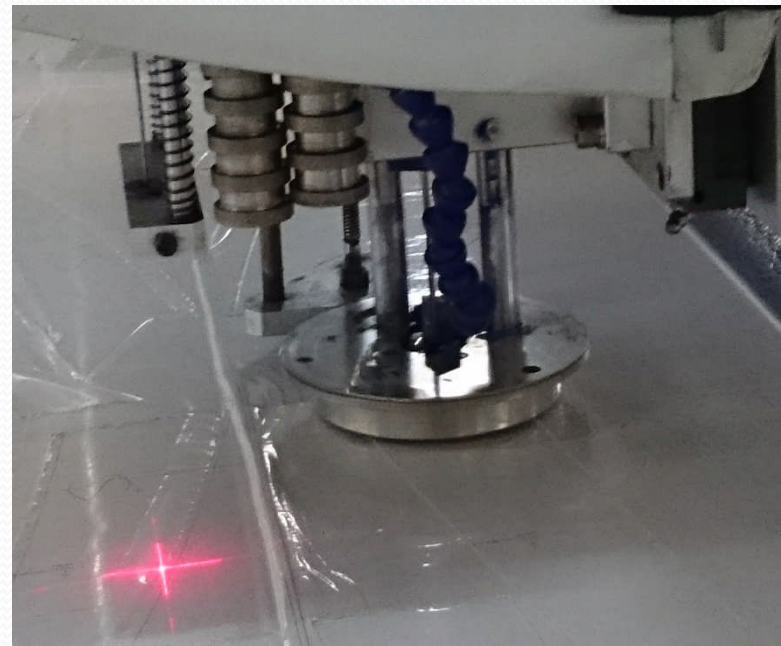

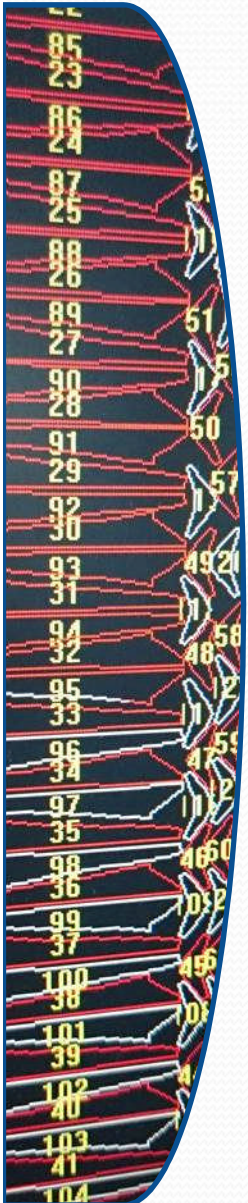

- They way PFG pursues cost efficiency is without compromising quality and delivery service nor sacrificing labor rights.
- Some of our cost efficiency measures are
 - Material Usage
 - Productivity Enhancement
 - Automation
 - Energy Saving Project

Material Usage

Utilizing CAD pattern making, automatic spreading machine and automatic fabric cutter, material usage can be optimized while simultaneously increase productivity

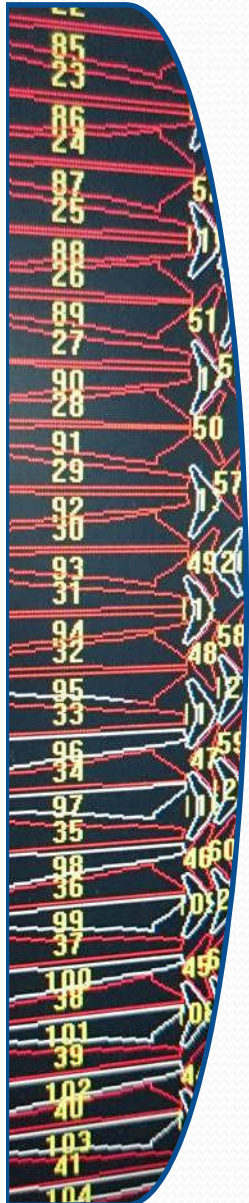

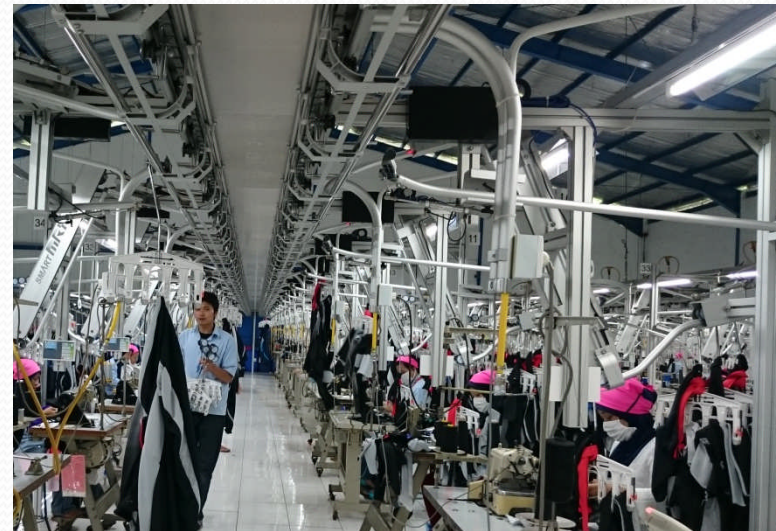

Cost

Productivity Enhancement

- PFG has 8 sewing lines utilizing hanger system . The first system was installed in 1996.
- The system allow us to detect, warn and solve production problem at the early stage

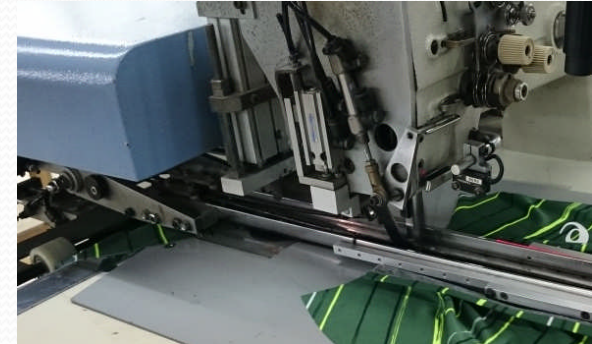

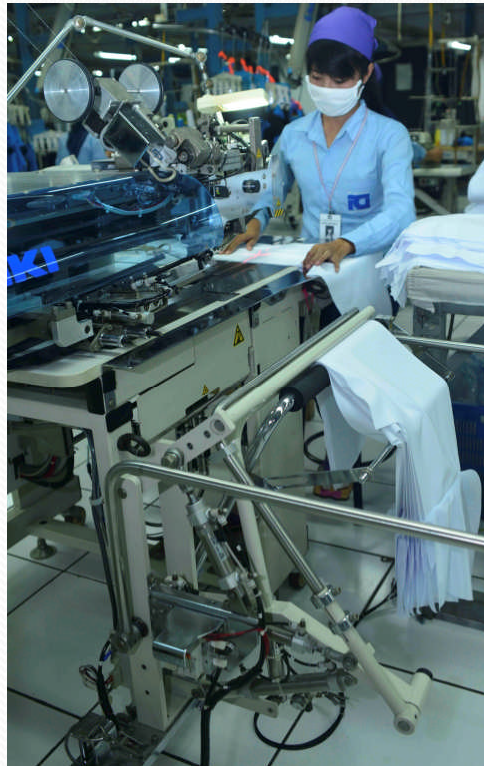

Cost

Automation

PFG realizes that automation can significantly improve productivity hence ultimately reduce our production cost.

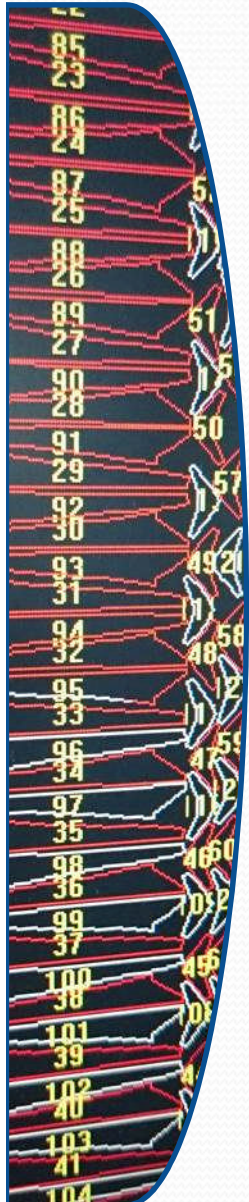

Cost

Energy Saving Projects

With sustainability becoming the common theme with our customer, we launched the project to also reap the benefit of energy efficiency

- **Replacement of clutch motor into servo motor**
 - Saves about 85% energy when idling
 - Saves almost 60% energy when operating
- **Replacement of neon light source into LED light source**
 - Saves about 50% energy

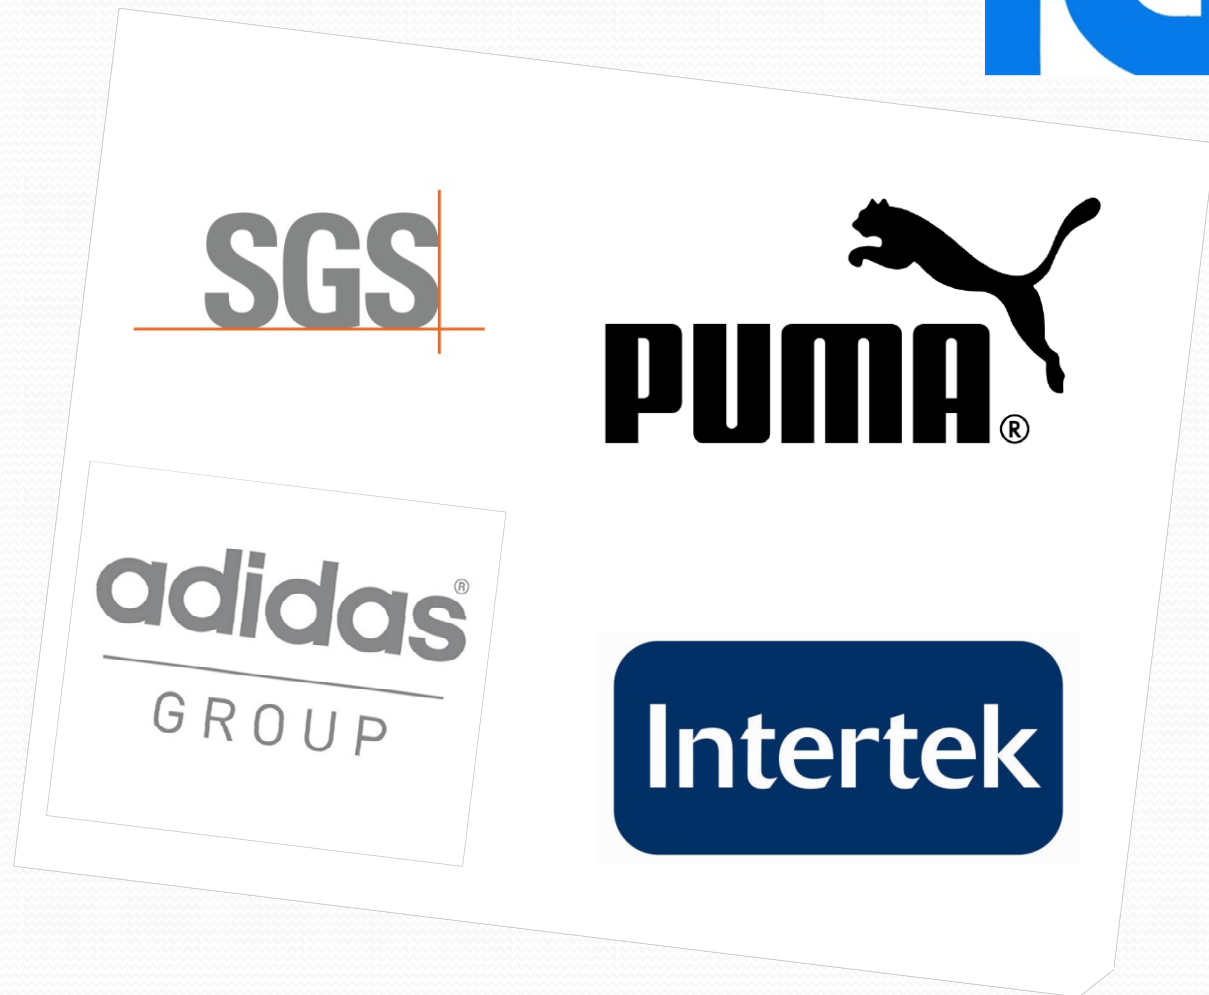

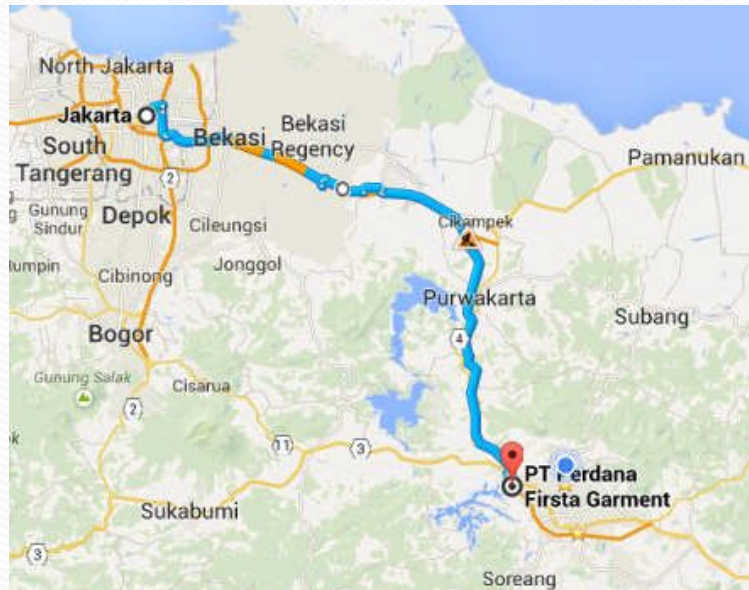

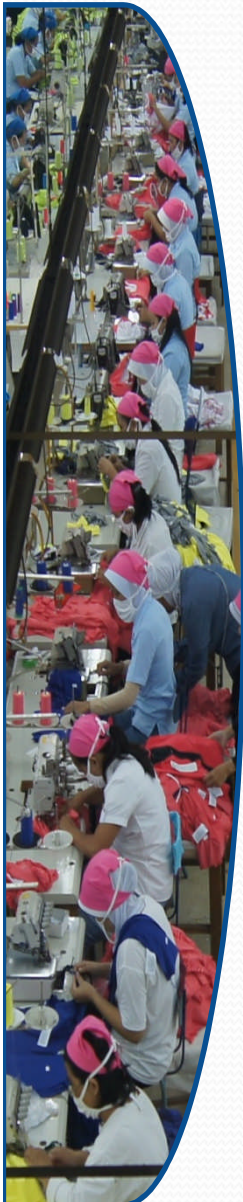

Audit and Accreditation

For the past ten years PFG are being timely audited by several NGOs and representatives of brands to ensure there is no violation of laws or human rights.

Hence, transform PFG into a healthy and safe working environment.
