# Profile

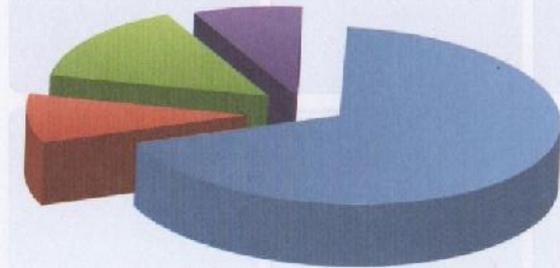

We have been a constant & reassuring presence during the entire history of our business. Asietex origins can be traced back to 1985, since then we evolved to become a recognized and important presence on all domestic and international markets.

Asietex is an integrated textile company engaged in the manufacture of textile products from yarn to fabrics. 85% of the fabrics topline comes from cotton/ rayon fabrics, the balance comes from polyester.

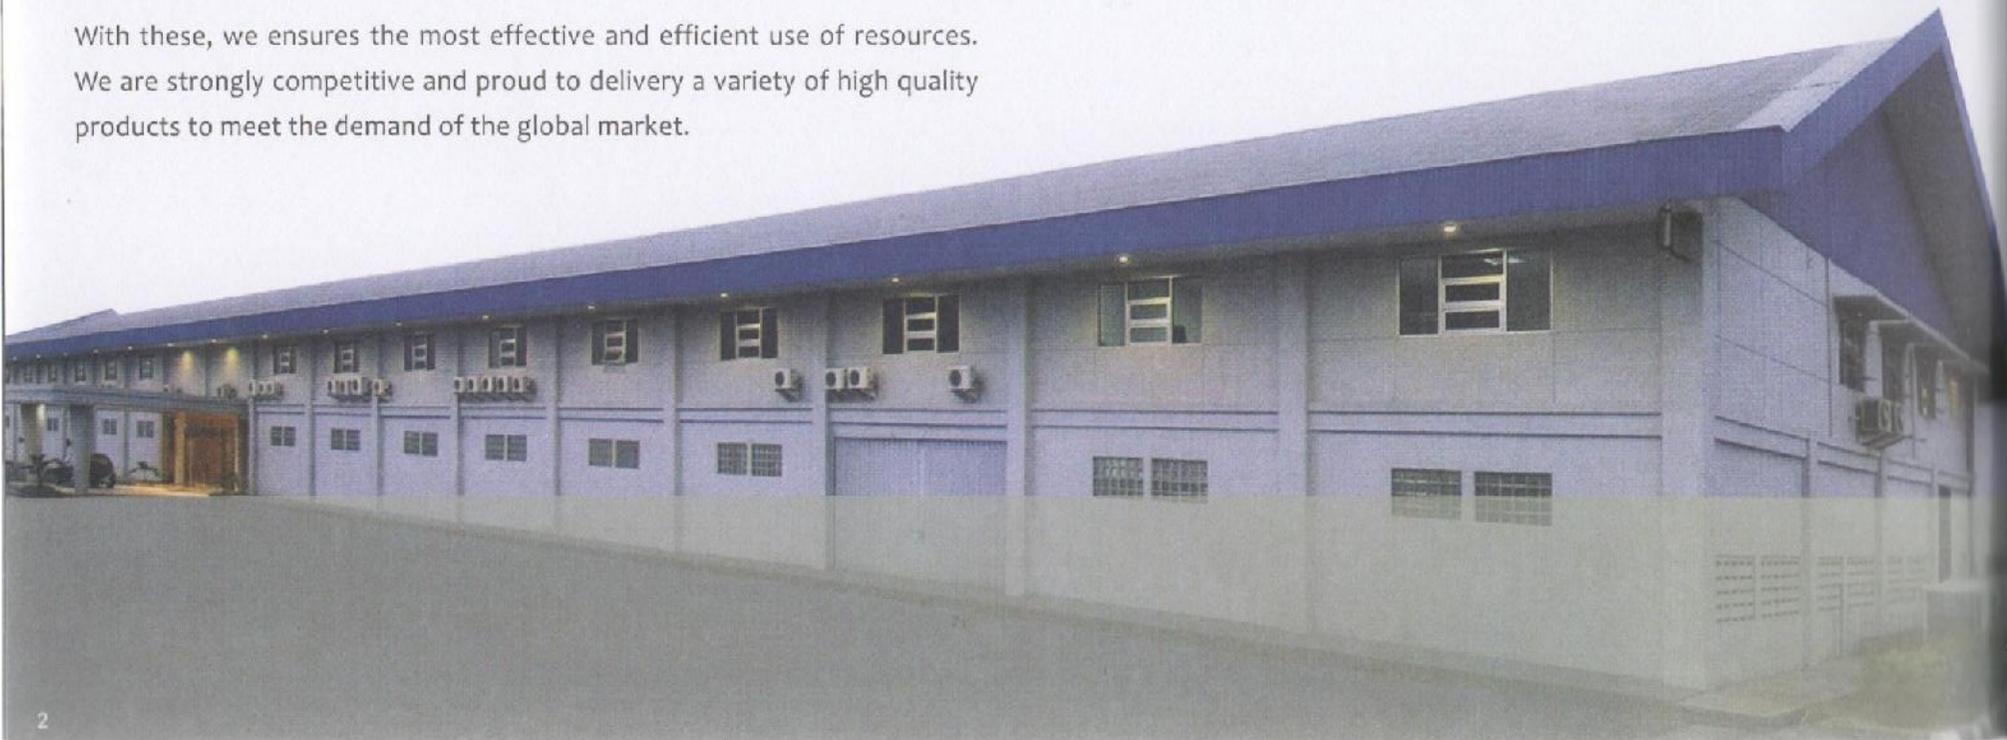

The factory equipped with sophisticated machineries, a combination of Asian & European technology which has given us a competitive advantage and our workforce is well trained.

With these, we ensure the most effective and efficient use of resources. We are strongly competitive and proud to deliver a variety of high quality products to meet the demand of the global market.
