

DJALIN

Djalín is PT. Kriya Selaras Internasional brand furniture manufacturer since 2016, The manufacturer itself has been established since 1989 specializing in natural rattan, loom, synthetic plastic rattan and metals (aluminum and steel).

The word 'Djalín' was taken from Bahasa Indonesia old lexicon, 'jalin', which means interweaves. It reflects the meaning of a loom, that interconnects and can symbolize togetherness between users - brand and their surroundings.

Our contemporary design aesthetic with a strong Indonesian heritage that built to be a work of art and fit right into your sanctuary. This collaboration between people behind Djalín and the community, hand in hand build a strong and sincere naturally attractive furniture.

DJALIN

BRAND RECOGNITION

Djalin represents a contemporary culture and solutions to emerging needs of modern life with affordable fine and unique design, based on a blend of creativity, innovation, trendy, durable, using sustainable material and production.

Our marketing strategy for our manufacturer to show the customer what we are capable of quality and design.

All process will be collaboratively working hand in hand to create an efficient process of production through sustainable process (fair & trade) with local empowerment.

SUSTAINABLE PRODUCTION

Djalin collections meticulously ensure to have good quality craftsmanship and materials, in collaboration with selected local artisan partner. With rigorous sense of aesthetic, and dynamic process. From indoor activities or taking guest for an outdoor dinner, every patterns can be suit as the craft itself.

The variety of high quality, durable and sustainable materials such as non toxic recyclable synthetic fiber, certified wood, aluminum, iron, steel, and rattan.

Conducting waste and water management on the production process, using durable materials which are safe for the environment.

Broad network of international suppliers will be engage to our progress of working to give a quality assurance from our brand process of value creation.

Our manufacture design based on green design process and effectiveness of production.

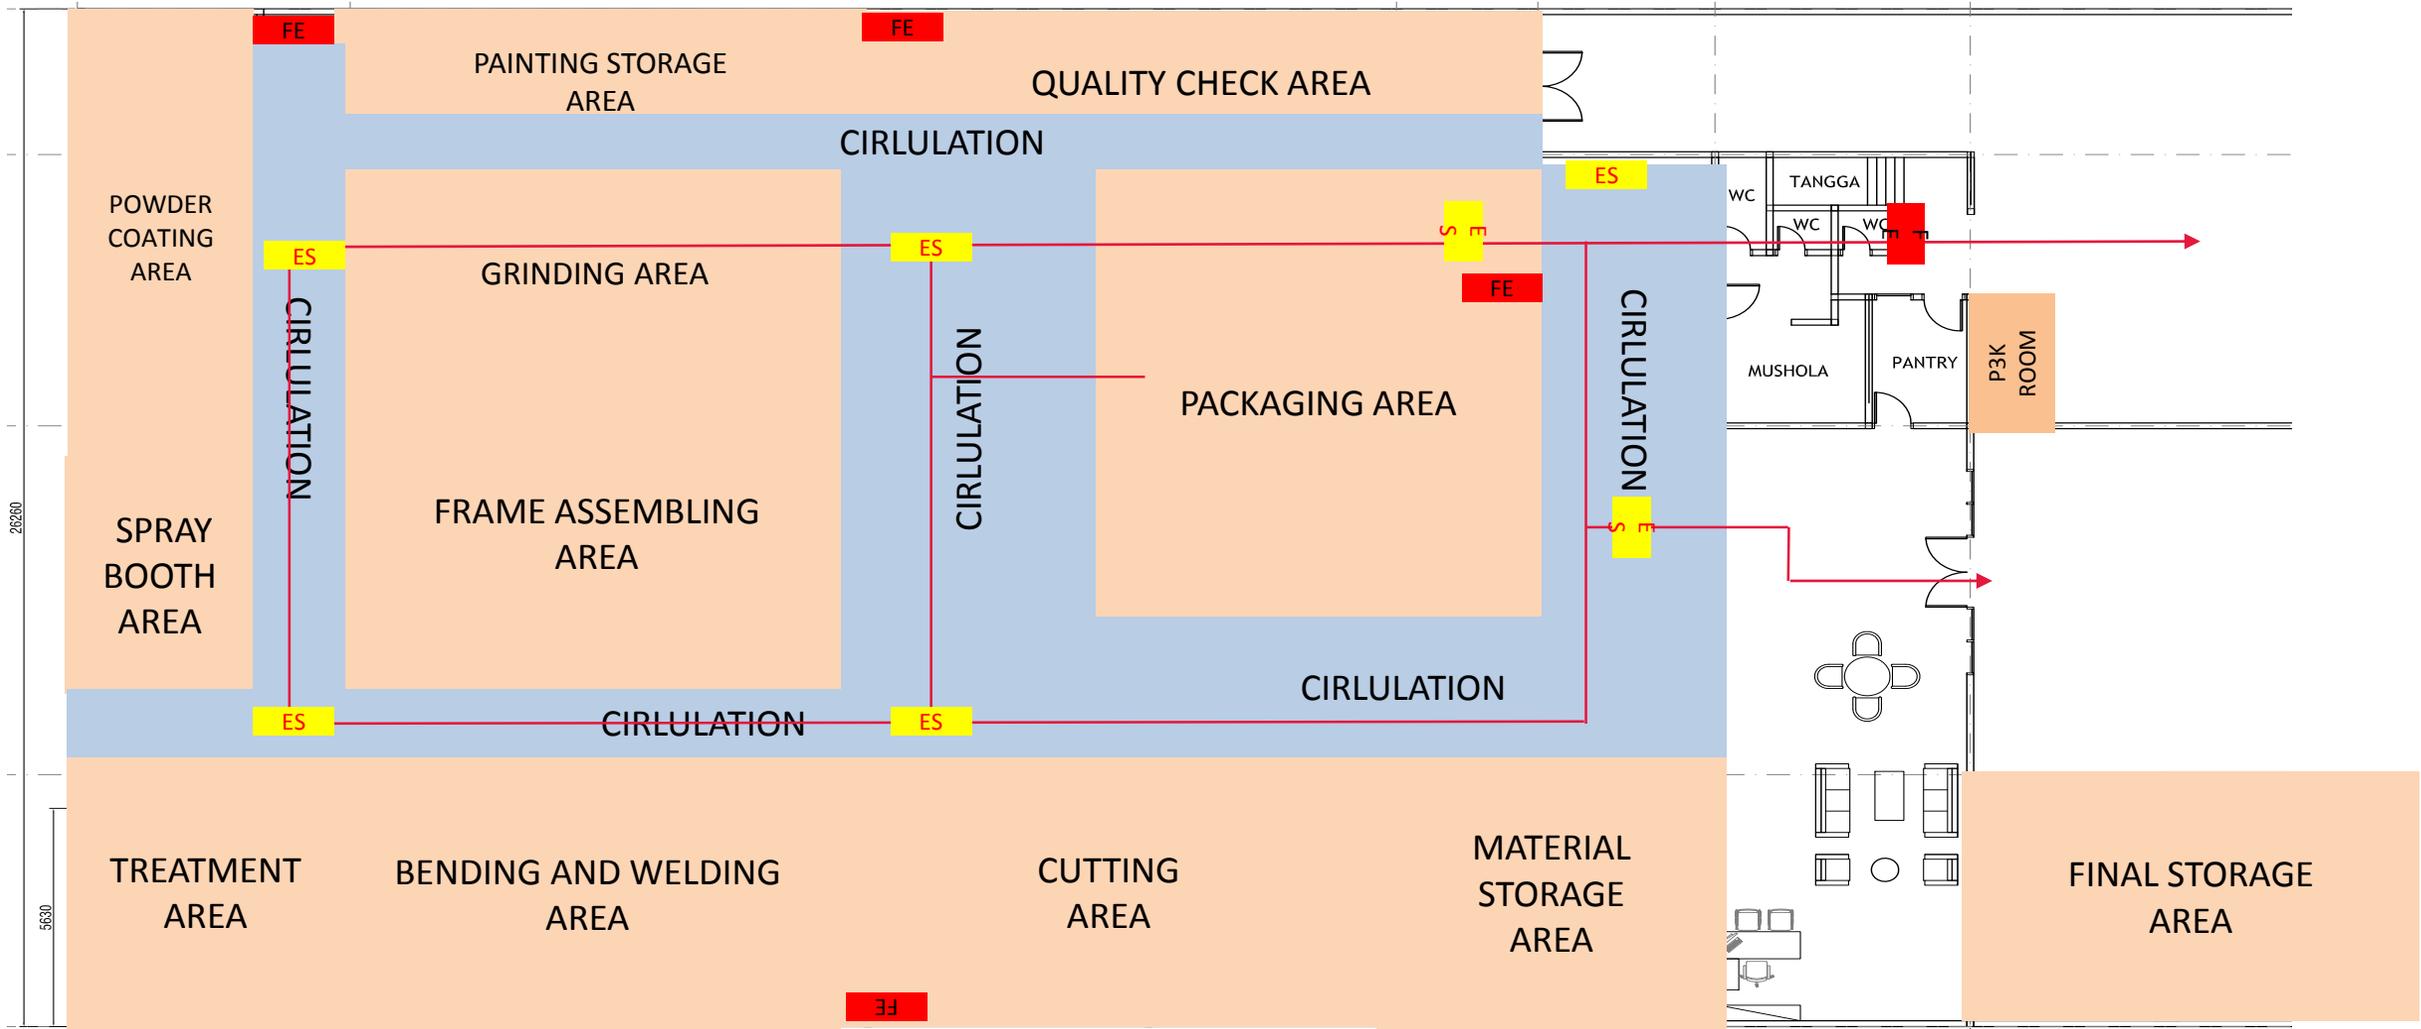

LOCAL EMPOWERMENT

Hand in hand with our local craftsmanship, we want people of the world to know about Indonesia heritage culture by creating more original products using local materials and collaborated with local artisan.

According to that, we work together with hereditary talented local people of Wickers from Kampung Naga, Salawu (Tasikmalaya, West Java), Ciwidey (Bandung, West Java) places close to the factory in Bandung, West Java. We bring their craft to the world and strengthen the local Indonesian craft in a global scale.
