

NATURA
AROMATIK

Doing Well By Doing Good

Established in 2014 as a collaborative effort of individuals, each with vast expertise and experience in the industry, Natura is a private limited company with a shared dream to nurture nature's gifts and natural resources, whilst creating value for our customers through our product offering.

Leveraging Indonesia's native collection of raw materials for quality natural isolates-extracts, essential oils and aroma chemicals, Natura offers a mixed product portfolio that provides value to our partners in the Flavor and Fragrance, Food & Beverages, Cosmetics and Nutraceutical industries.

Our vision...

To become a globally competitive Aroma Chemical, Essential Oil and Natural Extract manufacturer, which creates long term added value to each of our local and international stakeholders

and mission

To be the preferred reliable player in the industry, which provides innovation, consistent quality of products and services on the basis of a mutually beneficial relationship with all of our partners and stakeholders.

Infrastructures & Capabilities

It is in Natura's belief that people skills & attitude, technology and innovation are key to our success. It is with this understanding that we continue to invest in people development, state of the art equipment and operational control systems as an intrinsic part of our long term strategy.

Natura's in-house R&D team embraces knowledge and technology advancement by collaborating with a number of universities to keep up and contribute to academic research publications. Such collaboration has as primarily focus to stay at the forefront of advances in technological developments and see how they can be utilized to improve food security and product quality.

With state-of-the-art manufacturing facilities and a cutting-edge internal R&D team, Natura is committed to deliver safe and high quality products.

We are certified with ISO 9001:2015, Kosher, Halal, GMP+, SEDEX, IEBA (Natural Extracts Industry Certification), CPTOB (Traditional Medicine Certification), ISO 22000 (in progress), HACCP (in progress), and have complied with International regulatory standards, such as REACH compliance, CTPAT, as well as our facilities have been registered in FDA.

PEOPLE

SUSTAINABILITY

PROCESS & TECHNOLOGY

PARTNERSHIP

We recognize that strong individual development and successful growth of business are inseparable. That's why recognizing people as our most valuable asset is the basis of our business, as we create an environment in which each employee is valued, empowered and encouraged to grow.

The Indonesian farmers share a collective understanding and goal with us to nurture the Nation's raw materials and natural resources. It is this shared appreciation of the importance of harvesting sustainably, that allows us to find common ground in growing together for the mutual benefit of all and protect the greater good. The successful achievement of this goal will inevitably put Indonesia, the 2nd best and richest biodiversity country in the world, reposition itself back into the map of international ingredients market.

The best quality products originate from a combination of the best resources, the right process and state of the art technology. We select and source only the best quality raw materials from Indonesia, traceable and accountable with consistent supply. We support this effort by making the most of our 10,000m2 warehouse facility as part of our strength, allowing us the leverage to offer better price stability for our prime products.

We constantly listen to our Partners' needs and requirements, and deliver the safe & high-quality products, services and value. We intend to foster growth through lasting relationships with our partners by extending a pleasant, responsive and respectful business practices. We wish to be focused and responsive toward our partners' requirements.
