

COMPANY METAMORPHOSIS

Built in 1991, purposely constructed for tuna canning . From the beginning, PT. Sinar Pure Foods International has always committed to produce high quality canned tuna that will suit to international market standards. We comply to legal requirements of both the Indonesian and importing countries and buyer's specifications. Management commitment and dedication has brought this solid team from time to time to continue improvements.

With passion and skills, canned tuna are produced and served to all our customers. Traceable from sea to plate. Compliance to the updated food safety requirements and certifications, PT. Sinar Pure Foods International obtained high level ratings for HACCP, BRC food standard and its IFS certifications. As Custom bonded zone area, we utilize and maximize government facilities as an export oriented company.

We also conform to several accreditations and approval from OU, HALAL, and keeping its pole and line sustainability policy, with Dolphin safe of Earth Island Institute (EII) and maintaining good national PROPER and environmental standards rating. Sinar Pure Foods International always keeps its most valuable assets, the work force of the Company. Forming a solid team, we are committed to keep employee's welfare, facilities, health and safety aspects.

As a member of SEDEX, we also strive to continuously comply to SMETA IV standard requirements.

A metamorphosis from 1992 has made PT. Sinar Pure Foods International a Company of its own. Leading in the waves of the industry competition and market sustainability. We are the partner that you can count on.
