Background

Indonesia, The land of god's subsidy with its high rainfall and sunlight over the year, has the abundance and highest quality of natural resources in land and coastal area.

Artha Sukses cooperating closely with the local farmers, we aim to serve Coconut, Tropical Fruits, and Vegetables from selected material to the world.

Our mission is to empower rural people in island on tropical land of Indonesia by meeting the needs of. We believe people have the power to create their own solutions and livelihoods if given appropriate opportunities and our mission is to assist in facilitating these opportunities.

We believe in:

- Good product will sell itself
- Ethical business operation
- Sustainable agriculture practices
- Local community involvement
- The power of business to make people help themselves with trade not aid

Company Profile

We are **Artha Sukses Berkah** with its brand, our vision is to supply the freshest and highest quality of Indonesia Coconut, Fruits, and Vegetables. We aim to source products from every region and area, so everyone can taste the exotic flavors of our products—they may have never tried—all with our signature taste and deliver the best through farmer community empowerment.

Our company believes that empowering others will help our company grow sustainably. Add to this our desire to supply our customers delicious and tasty products at a price that is as terrific as the taste.

We achieve our quality through a rigorous selection of farms and partner suppliers who share our vision of affordable quality, as well as our insistence on operating a short supply chain; a dedicated and efficient logistics system that underscores our commitment to fast, fresh delivery.

We deliver a whole world of tropical and exotics freshness—no matter who, or where you are.

However, we strive our best to make an efforts in serving our customers needs and we will be happy to serve you and provide your business needs.
