Company Overview

Our Workshop & Showroom are located in an affordable location in Yogyakarta, with examples of complete products and assistance from our team of experts and you will get the right services to suit your tastes and budget.

Our workshop is integrated with high standard production supervision for quality. Starting from the selection of raw materials, production process, construction, finishing until the packaging is released on the quality that the customer wants.

Our design team coordinates with carpenters and craftsmen for perfect results and all the work in our workshop to experiment with the materials and combinations of materials we supervise and test firmly to produce quality products.

We have more than 400 models of furniture made from teak cultivation, recycled teak wood, teak wood, teakblock, and other materials that can be combined according to the design.

With 62 employees we have a capacity of 2-3 containers each month.

Greetings
