## **PT AVA INVINIT OVERVIEW**

*Sekilas Mengenai PT AVA INVINIT*

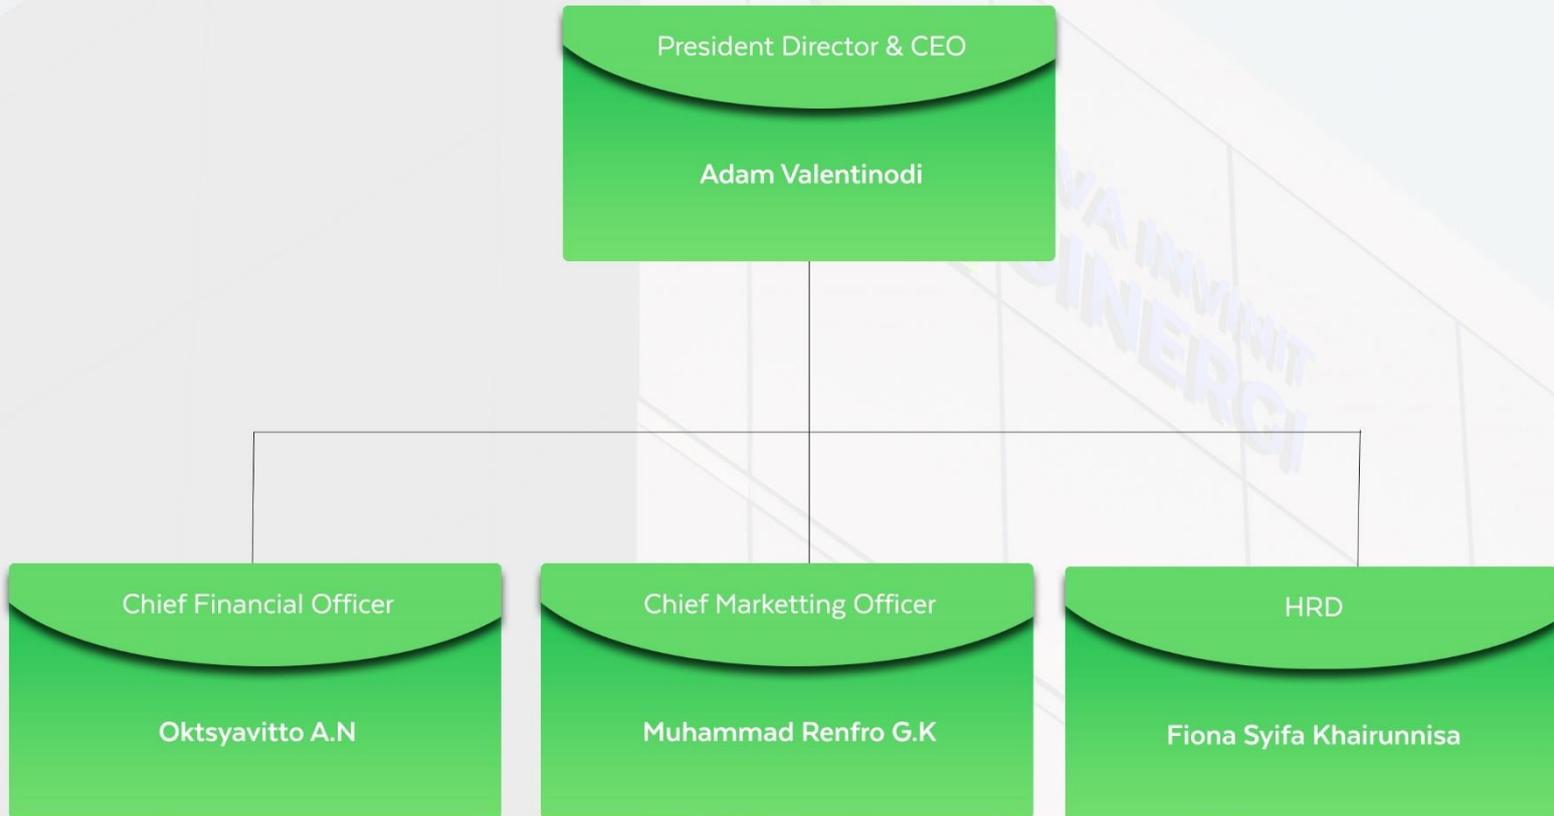

# ABOUT US

AVA INVINIT SINERGI CORP exists as a solution to various Indonesian commodity problems. The ineffective use of existing resources and the inconsistency of product quality are the core problems that has yet to be resolved. One of the contributing factors is the lack of knowledge to create quality consistency in producing products that are ready to compete globally, and the inadequate use of technology to increase productivity. We focus on the utilization of Indonesian commodities at the global level which are expected to contribute to the prosperity and welfare of farmers in Indonesia.

We are oriented towards the utilization of Indonesian commodities at the global level which are expected to contribute foreign exchange for Indonesia itself and increase consumption of a commodity. We also focus on the level of welfare of the farmers, where their role is very crucial in this field, that's why we also have to be responsible for the sustainability of the existing ecosystem by making the best use of it so as not to create scarcity and unsustainability in this commodity sector. We are ready to collaborate with anyone who wants to work together to advance Indonesian commodities.

# Organizational Structure

## Struktur Organisasi

## VISION / VISI

Build a company that can advance Indonesian commodities at the global level by considering the value of togetherness.

Membangun perusahaan yang dapat memajukan komoditas Indonesia di tingkat global dengan memperhatikan nilai kebersamaan.

## MISSION / MISI

- Providing welfare guarantees for farmers and small entrepreneurs in Indonesia
  - Improve the balance and welfare of current existing resources
  - To become a pilot for the community regarding the preservation of natural resources in Indonesia
  - Providing solutions for any existing problems related to Indonesian commodities
- 
- Memberikan jaminan kesejahteraan bagi petani dan pengusaha kecil di Indonesia
  - Meningkatkan keseimbangan dan kesejahteraan sumber daya yang ada saat ini
  - Menjadi percontohan bagi masyarakat tentang pelestarian sumber daya alam di Indonesia
  - Memberikan solusi atas permasalahan yang ada terkait komoditas Indonesia

# CORE VALUES

*Nilai - Nilai Utama*

## Commitment

*Komitmen*

---

**It's important for us to empower local farmer in Indonesia.**

Penting bagi kita untuk memberdayakan petani lokal di Indonesia.

## Synergize

*Sinergi*

---

**We synergize with commodity industry players spread across Indonesia in order to compete at global scale.**

Kami bersinergi dengan pelaku industri komoditas yang tersebar di seluruh Indonesia agar dapat bersaing di skala global.

## Pricing

*Harga*

---

**Set a reasonable and competitive prices to our costumers, therefore to exist in the industry and among other competitors.**

Tetapkan harga yang wajar dan kompetitif kepada pelanggan kami, oleh karena itu untuk eksis di industri dan di antara pesaing lainnya.

## Quality

*Kualitas*

---

**Shown by many ways by providing, selling, and supporting products to delight our clients.**

Ditunjukkan dengan banyak cara dengan menyediakan, menjual, dan mendukung produk untuk menyenangkan klien kami.

## OUR SERVICES

*Jasa Yang Kami Lakukan*

We act like a bridge to farmers and small entrepreneurs so they can find local or international buyers and we also help them through every process from packaging, transaction even to shipping.

Kami bertindak seperti jembatan bagi petani dan pengusaha kecil sehingga mereka dapat menemukan pembeli lokal atau internasional dan kami juga membantu mereka melalui setiap proses mulai dari pengemasan, transaksi bahkan hingga pengiriman.

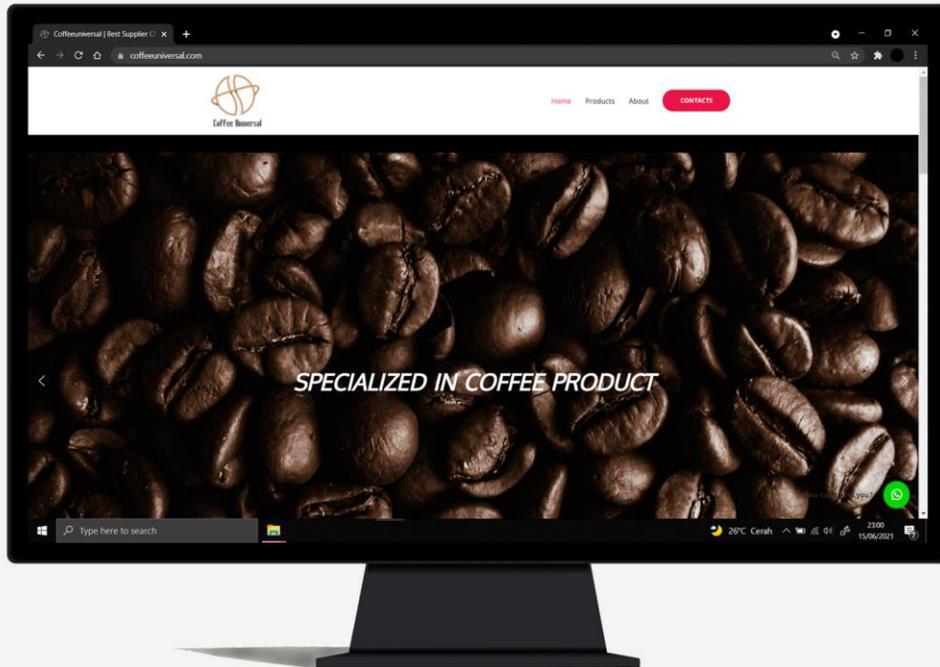

**Coffee Universal**

## **OUR PROJECT**

*Proyek Kami*

This project focuses on empowering coffee farmers to produce the best coffee products both in the right quality and quantity so that they are ready to compete globally. For the connection of coffee farmers or small entrepreneurs, we have worked together in many regions in Indonesia, such as Temanggung, Aceh Gayo, Bali Kintamani, Malang Dampit / Kawi, and many other areas. Of course, the collaboration that we do is expected to help and increase sales and the level of Indonesian coffee consumption at the global level. As we know, Indonesia is ranked 4th in the world as the best coffee producer, and Indonesia has the opportunity to continue to be developed because it has various varieties in each region or the origin of its coffee which of course is not owned by other countries. We already have ETK (Registered Coffee Exporters) certification to be ready to sell or promote Indonesian coffee at the world level, and so far we have had cooperation in several countries for the promotion of Indonesian products.

Proyek ini berfokus pada pemberdayaan petani kopi untuk menghasilkan produk kopi terbaik baik dalam kualitas maupun kuantitas yang tepat sehingga siap bersaing secara global. Untuk petani kopi atau pengusaha kecil, kami telah bekerja sama di banyak daerah di Indonesia, seperti Temanggung, Aceh Gayo, Bali Kintamani, Malang Dampit / Kawi, dan banyak daerah lainnya. Tentunya kerjasama yang kami lakukan ini diharapkan dapat membantu dan meningkatkan penjualan serta tingkat konsumsi kopi Indonesia di tingkat global. Seperti kita ketahui, Indonesia menduduki peringkat ke-4 dunia sebagai penghasil kopi terbaik, dan Indonesia berpeluang untuk terus dikembangkan karena memiliki varietas yang beragam di setiap daerah atau asal kopinya yang tentunya tidak dimiliki oleh negara lain. Kami sudah memiliki sertifikasi ETK (Eksportir Kopi Terdaftar) untuk siap menjual atau mempromosikan kopi Indonesia di tingkat dunia, dan selama ini kami telah menjalin kerjasama di beberapa negara untuk promosi produk Indonesia.
