

ALABAN WOOD CHARCOAL

pimcharcoal

There are several types of wood charcoal, But the best is Charcoal from Halaban wood

And also has name in Latin name, is *Vitex pubescens vahl*

In the Dayak language (ethnic group), this type of wood has another name, namely Kalapapa wood

Halaban Wood Charcoal is also a type of hardwood charcoal that is durable and high in calories. Smokeless and odorless on food and no sparks when burning.
