# OUR Desiccated COCONUT

## What is Desiccated Coconut ?

Desiccated Coconut is fresh and ripe coconut flesh that has been peeled, cleaned, grated, ground, dried, sieved, and processed hygienically. Raw materials that are rich in dietary fiber and important minerals such as manganese, copper, and selenium. Contains no cholesterol or trans fatty acids.

## What's this for ?

As raw material for the manufacture of various bakery and pastry products, such as bread, cakes, biscuits, and brownies. As an ingredient in cereals or granola. Can also be used as a topping for curries or other Asian dishes.

## The advantages of our product

### # High Quality

A good quality Desiccated Coconut is white, there are no yellow spots, black spots and other discoloration. Good quality Desiccated Coconut has a sweet coconut aroma, free from rancidity and uniform in size

### # Healthy

Prevent stroke, high blood pressure, heart disease, obesity, high blood cholesterol, diabetes and digestive disorders such as hemorrhoids, constipation, and colon cancer.

## Our Packaging ( with 2 layer ) :
