

ABOUT COMPANY

CV. Kohcan Export was founded by Iqbal and Misbahul Jannah in December 2021, Aceh, Indonesia. This company is a management of export commodities especially betel nut, coconut, and cocoa to various foreign countries. Our basic principle is the best service for successful cooperation between exporters with buyer satisfaction.

VISION AND MISSION

We want to move in a global paradigm in serving a growing market industry. We are committed to answer the needs of buyers/importers. We empower and market agricultural, forestry, plantation, fishery and processed commodities from the home industry from all over Aceh. With the establishment of CV Kohcan Export, we will be taking part in what is called Borderless Cross-Region and International Trade. We are the young generation who will build a company that brings buyers/importers to the point of true satisfaction. We use our trust and network spread across Aceh and internationally to balance the agribusiness export market based on Prosperity For Together.

CORE VALUES

These are our core values :

- Honesty
- Commitment
- Innovation
- Good service

CV. KOHCAN EXPORT

COMPANY PROFILE

EXPORTATION RAW MATERIALS

BETEL NUT

Betel nut farmers cultivate the betel nut through picking from the tree after it is ripe, then peeling it and drying it under the sun for 4 days. Then, the farmers will sell to the betel nut suppliers and then the supplier will dry thoroughly the results from the sale of all the farmers within a certain period of time before being exported.

Spesification : textile material

COCONUT

Coconut is one of the most important commercial crop in tropical areas and usually referred as 'tree of heaven' or 'tree of abundance'. Currently we only export coconuts that have not been processed at all. Coconut commodity in our province are almost all over the city.

Spesification : coconut milk, briquettes, coconut oil etc.

COCOA

Cocoa for food materials of industry. Production of cocoa beans through drying cocoa beans that have matured for 1 week normally or until dry according to the dose. Cocoa beans in our city are the best cocoa beans in the world from the past until now and are very useful for good quality for product-producing importers.

Spesification : food material
