

COMPANY PROFILE

PT.WING NUSA INDONESIA

ABOUT US

We are from a small island in eastern Indonesia. Our area has many potential crops that can be managed, one of which is coconut. With many coconut farmers and abundant coconut farming products, it is very possible to send these products abroad. From here, we took the initiative to open up opportunities for cooperation in international coconut needs. We will provide the best and most trusted products. In addition, increased sales will improve the welfare of farmers which is one of our company's goals.

WING

Our Vision

“To become the most trusted provider of coconut products in the world”

Our Mission

- Providing the best quality coconut products from Indonesia.
- Increasing public trust in managed coconut products.
- Improving the welfare of Indonesian farmers by increasing sales of coconut products internationally.

WE ARE FROM SOUTH SULAWESI INDONESIA

OUR PRODUCT

Wingcoco

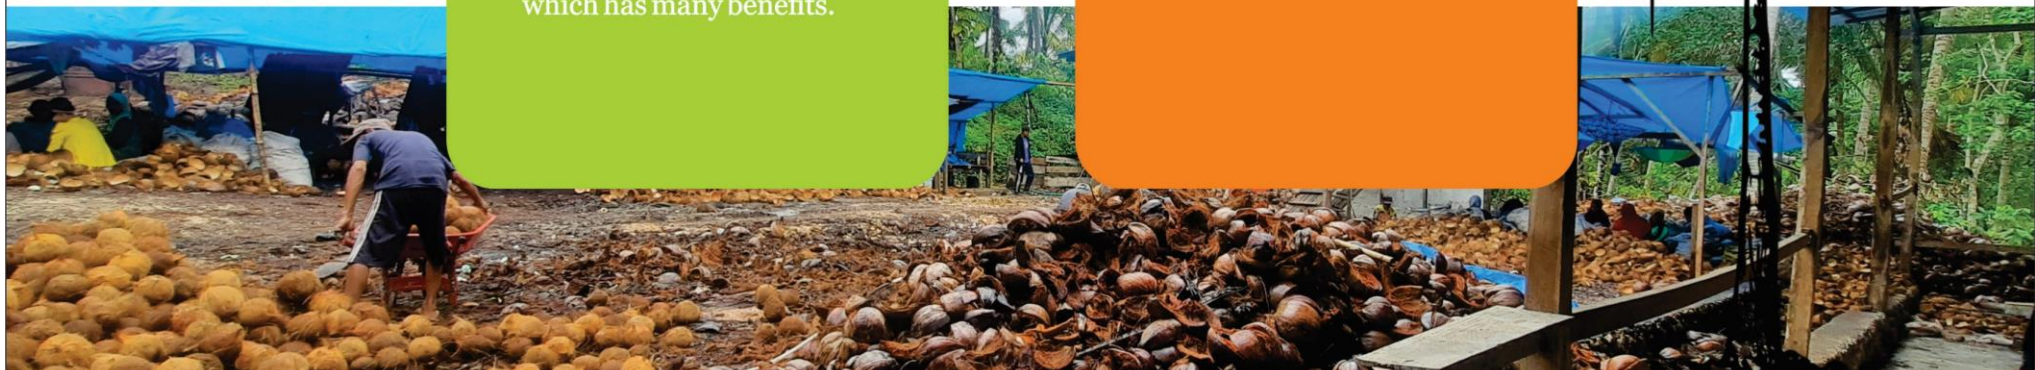

Cocofiber

Cocofibre is fiber from coconut coir that has been milled or described in the form of long hair and is generally golden yellow or brown in color. CocoFibre Is a processed product from coconut skin so that it produces coir fibre which has many benefits.

Semi-Husked

Coconut that has been peeled, but still has the skin on it to keep the coconut's quality.

OUR PRODUCT

Wingcoco

Copra

Copra is coconut meat that has been removed from the coconut skin, then dried under the sun or by smoking method. The perfectly dried coconut meat, will be packaged and ready to be used for further processing.

Charcoal Coconut

Coconut shell charcoal is made from heating old coconut shells until they are black. Charcoal can be used as raw material for briquettes.
