

MANDIRI SEJAHTERA ALAMI

COMPANY PROFILE

A background image featuring coconut oil products and ingredients. In the foreground, a glass bowl is filled with clear, golden-yellow coconut oil. To the right, a glass carafe also contains the same oil. In the background, there are several coconuts, some whole and some cut open to show the white flesh. A small wooden bowl in the bottom right corner contains pieces of coconut meat. The overall scene is set against a dark, textured background.

WHAT IS VIRGIN COCONUT OIL ?

Virgin Coconut Oil or usually called pure coconut oil processed from fresh coconut meat and on extraction Becomes coconut oil without mixing any ingredient (not containing chemistry or preservative). It is 100% natural, unbleached and cold-pressed. VCO is popular for its light aroma, taste, powerful antioxidants, health fatty acids and essential vitamins. It can be directly consumed or mixed with various foods as dressing.

What are the difference with the usual coconut fried oil ?

Usual Coconut Oil

- Made from coconut that dried
- Extracted by heating And removing the color(bleach)
- Yellowish Colored
- High boil point, suitable for cooking deep fried
- Lots the nutrition because of the warming up process when the moment extraction

VCO

- Made from Coconut meat
- Extracted by heating or without heating up and without additional chemistry
- Clear Colored
- Low boil point, for dressings, consumption and for Sautee with moderate fire
- If method used for extraction without heating up then the nutrition are kept

WHO IS CONCOS ?

We select coconuts from coconut farmer plantations in Sulawesi, sort the superior coconuts, and process them ourselves into VCO with modern machine technology specially designed so that the taste and aroma of VCO is very light in terms of taste and aroma.

We make VCO with the No Heating Method, without chemical additives and preservatives. We make vco with as much as possible 1 production line from whole coconut to vco (not much contact and media / hands) so that in the process VCO does not spoil easily and keeps its hygienic and shelf life longer.

Has Halal certification, BPOM, ISO 22,000 (Food Safety) and ISO 9001 (management system). And is a pioneer of VCO for children who are fully certified.

Has a qualified production capacity, because the production process uses machines such as filling, labeling machines, and sufficient human resources.

Has a machine with a high production speed so that the taste and aroma of VCO is different from the others.

It has a background and focus on coconut oil.

PRODUCT DESCRIPTION

Content	: 12 x 250ml
Variant	: Original
Packing type	: Bottle
Containers	: 2400 cartons/20FT with Palette 5760 cartons/40FT with Palette
Carton Size	: 21.8 x 16.4 x 26 cm

WHAT ARE THE VCO EXTRACTION METHODS USED IN INDONESIAN SOCIETY?

Modern method with machine divided by 2, preheated and without heating VCO processing technology in a modern way already uses machines ranging from coconut peeling to pure oil without any mixture. Grated coconut and turn into coconut milk without water mixture. And the content of coconut milk is processed into oil divided into 2 ways, namely heated or made into chunks of ice. Depending on the processing technique.

WHAT IS HORECO ?

Coconut oil is refined and processed through heat exposure. Coconut oil is very different from most other cooking oils and contains a unique composition of fatty acids. This makes coconut oil highly resistant to oxidation at high heat. It is very suitable for deep frying. This can be used as an ingredient in food products, cosmetics, hair products, soap etc. RBD Coconut Oil stands for Refined=R, Bleached=B and Deodorised=D of coconut oil.

RBD Coconut Oil is one of the popular types of manufacturer oil that has many health benefits. RBD Coconut Oil itself is made from copra or dried coconut.

Copra is coconut meat that is dried before processing into crude coconut oil.

Crude coconut oil is made from copra. The process is done by press copra process to remove crude coconut oil (crude coconut oil).

WHO IS HORECO ?

We select coconuts from coconut farmer plantations in Sulawesi, sort the superior coconuts, and process them ourselves into coconut cooking oil with modern machine technology specially designed so that the taste and aroma of coconut cooking oil is very light in terms of taste and aroma.

WHAT ARE THE ADVANTAGES OF RBD COCONUT OIL COMPARED TO OTHER OILS

RBD Coconut Oil has its own characteristics due to the high-pressure refining process. Coconut oil products will usually look clearer, have a bland taste and also odorless

RBD coconut oil has a high demand in the market due to its many benefits. The first benefit is its ability to survive even at the highest temperatures. Compared to other oils

Coconut oil RBD will not be easily damaged. It has a very high smoke point, 220 Celsius, and melts at 24 Celsius

The next thing that makes RBD Coconut Oil quite in demand is the fact that currently coconut oil is the most affordable on the market. They are much cheaper than other oils like olive oil, corn oil, canola oil, and more.

Coconut Oil RBD is also different from others because of its tasteless and odorless quality. People love this oil because it does not contain the smell or taste of copra. Therefore, RBD Coconut Oil has an important role in home cooking. Simply put, a kitchen is not a kitchen without having at least one brand of RBD Coconut Oil.

HOW TO STORE COCONUT OIL ?

1. Cover the packaging until tight.

Closing the oil tightly and ensuring it is safe will make cooking oil more durable, it can also help avoid insects or contaminated by sharing odors, in addition to avoiding the oxidation process and the risk of the oil becoming rancid.

2. Keep it in a cool place

Storing cooking oil in a cool place will make cooking oil more durable, by storing in a cool place and avoiding direct sun exposure to make cooking oil more durable and not damaged quickly.

3. Keep it dry and clean

Storing cooking oil in a dry and clean place helps cooking oil at humid temperatures make cooking oil easily contaminated.

4. Avoid pungent odors

It is not recommended if storing oil with various objects or items that have a pungent odor, this is because the oil can absorb the odor so that the oil can be at risk of contamination of the odor.

5. Coconut oil shelf life period is 2 years from the date of production.

SMOKE AND FREEZING POINTS OF RBD COCONUT OIL

- RBD Coconut Oil very high smoke point, 220 Celsius, and melted at 24 Celsius
- Below 24 Celsius coconut oil will freeze slowly (starting with white dots until all the oil becomes frozen 100%)
- To dilute coconut oil simply put coconut oil at room temperature above 24 Celsius
- Frozen oil does not reduce the quality of coconut oil, and has the same nutritional value
- In winter, most coconut oil is in the form of jars
- In summer and cold countries do not reduce the quality and durability of shelf life of coconut oil
