CRAFT MANUFACTURE

IQ CRAFT

IQ craft is a craft company.

Our company is located in Jepara, Central Jawa, Indonesia. Jepara, is very famous all over the world with wooden industry and rattan industry. IQ CRAFT was one of them.

IQ craft produce all craft from wood and rattan. By hiring experts in crafts, IQ craft can produce wood and rattan crafts that are very good quality for customers. With good quality control, we can produce all designs of customers with carefull.

OUR GOAL IS TO MAKE GOOD QUALITY PRODUCT

OUR
PRODUCT

Wooden Kitchen Set

In the making of the kitchen set we choose to use good quality wood. Our factory use strong wood, and easy to clean.

Wooden spoon has benefits that it can add delicious food taste and not save bacteria. Wood material is softer and safe. Wood set also has a thicker handle so it's easier to hold.

Wood doesn't melt like plastic, and it doesn't deliver temperatures like metal, so the wooden equipment doesn't melt and safe in hot pots.

Naturally, wood is an organic and newest resource, so wooden kitchen equipment can be a choice for a good future

Rattan

Craft

Indonesia has a forest filled with Rattan, like Sumatera province, Java, and Kalimantan. Rattan has a lot of advantage, so make many people like to use them

Rotan has some advantage of wood, like mild, strong, elastic and easy to form, and cheap. So rattan is suits to make furniture material, like chairs, bookshelves, fruit baskets, toys, mirrors, souvenirs baskets, etc.

For crafting and furniture, IQ craft uses two types of rattan,

1. Original rattan.
2. Rattan imitation.
