

# BAROKAH AGRO NIAGA GARUT, PT

> company profile

# Company Summary

Barokah Agro Niaga Garut is a company engaged in agribusiness. Having extensive land concessions and support from the government we manage our own farms and work closely with local farmers.

Currently we are producing coffee, which we plant in the mountainous area of West Java, an area that is believed to be the forerunner of the first coffee cultivation in Indonesia brought by the Dutch colonial government. Garut coffee itself is one of Indonesia's leading coffees which has a unique taste.

We are also developing other commodities as well as Indonesian spices, which will be ready very soon

Under the guidance of the Ministry of Agriculture, we have started to export by participating in several exhibitions abroad.

A. Chalifah Chandra  
President Director

- Founded in 2020
- A private owned agribusiness company
- Manage up to 623 H land
