

# NUSANTARA VANILLA

*we provide spices with  
premium quality*

*Origin Product from  
Indonesia*

# ABOUT US

**Indonesia**, is one of the largest spices and herbs producing countries in the world. The quality of the spices and herbs from **Indonesia** is also of very high quality. Directly from the hands of local farmers, and processed through the best manufacturing process.

However, the lack of knowledge and ability of local farmers to reach domestic and global market is one of the factors of their lack of welfare. In addition, the import of spices and herbs from other countries to **Indonesia** has caused the price of local products to fall.

For this reason, we created a brand '**Nusantara vanilla**' as a speciality in the product of spices, herbs and their processed product.

We are determined to be a solution and a 'bridge' between local farmers with a wide market, in order to provide them with a higher selling price, so that they can get decent welfare. We will assist local farmers in selling their products to domestic and global markets.

## OUR VALUES

### Vision

Become global network company which creates highly quality and valued product

### Mission

1. Give the best service and product that customer wants.
2. Make Indonesian products better known in foreign country.
3. Always maintain our product quality for ensuring customers satisfaction.
