

A close-up photograph of glowing charcoal briquettes in a metal grill. The briquettes are arranged in a circular pattern, and the intense heat causes them to glow with a bright orange and yellow light. The background is dark, making the glowing charcoal stand out prominently.

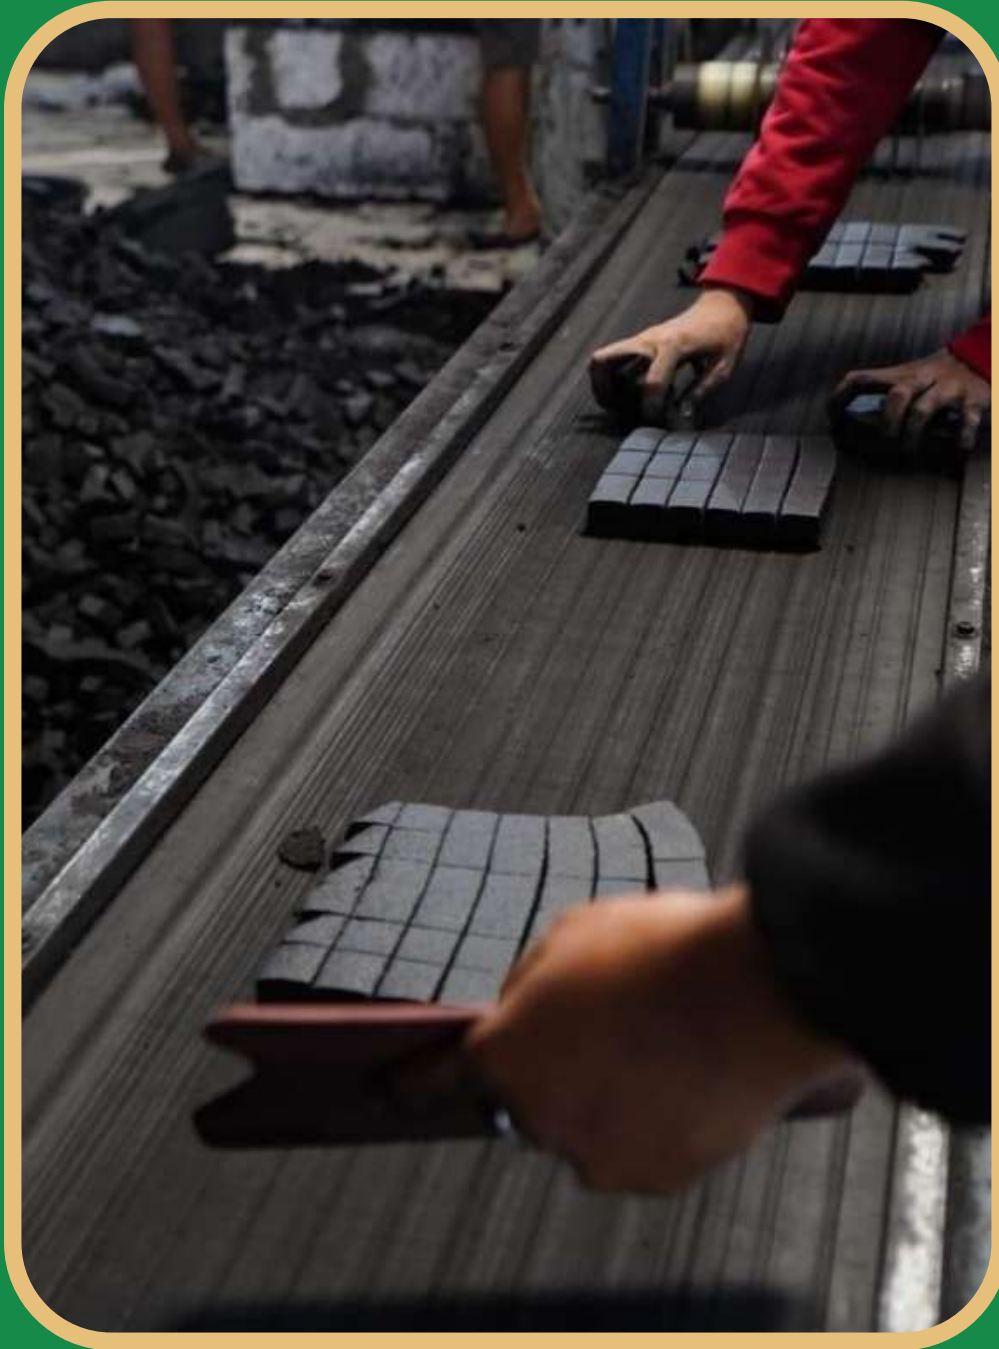

PT BARA COCO AGRONESIA

Glowing Charcoal Indonesia

PRODUCT CATALOGUE

"CHARCOAL IS A BIG DEAL"

We get it. We love good Shisha/Hookah and BBQ experience, too! That's why at **Glowing Charcoal Indonesia** (Registered as **PT Bara Coco Agronesia**), we are dedicated to make the best charcoal for the best experience that you want.

CHARCOAL PRODUCTION

- Our production sites are located in Tangerang, West Java. We manage to produce around 8 MT/Day.
- We also work with direct farmers from Java, Sulawesi and Sumatra for raw material supplies.
- We use high quality of raw materials, precise production processes, and maximum drying process. We also ensure that there are no cracks on the surface of the briquettes. If there is any, it will be very minor

WHY CHOOSE US?

With more than 8 years of experience, registered and certified, the charcoal briquettes that we produce have a high carbon content, therefore the heat generated is also maximized with little residual ash.
