Mission Statement

Most BBQ Charcoal Business find it difficult to make their **Brand to stand out.**

We will help you providing the most **unique Charcoal with the best quality possible** so that will give **unforgettable Customer Experience.**

You will have **loyal customer** that will give you **sustainable revenue and stable cash flow**, so your **business will grow well and profitable.**

Hi,

Nao Hursepuny
DIRECTOR

Zulfahmi
COMMISSIONER

We are from **CV Energi Mandiri Indonesia**.
I'm Nao as Director and this is my Commissioner, Fahmi.

We both started our business from really young age.
I started my first business when I was 9 years old with my Mom,
which is Storybook rental for kids in our neighborhood.
Meanwhile, Fahmi started his first business at Betel Nut trading commodities,
when he was 9 years old too with his Grandma.

As Entrepreneurs from very young age, we understand very well about the **intense competition**
in the business world and the efforts that must be made to for a **Brand to stand out**.

Especially in commodity business like Charcoal to find **Unique Selling Point as differentiator**,
because one Charcoal Brand have similar values and properties with another Charcoal Brands.

Therefore, there will always be a price war for which one of the Charcoal Brands that have
the lowest price, which in fact is actually **damaging the whole business structure and**
sacrificing growth and expansion.

In order to strengthen your branding and your image in the eyes of your Customers,
we will help you by providing a very **unique Charcoal with the best quality possible**
in order to gain **Customer Experience** that will make your **Brand stand out**.

Thus, you can have **loyal customers** and always have **sustainable revenues** that generates
a **steady and stable cash flow**, so that your business can **grow well and profitable**.

Best Regards,

Nao Hursepuny

Why Work with Us?

We have one of the hardest wood from Tropical Forest, that guarantee the best quality Charcoal possible.

Home to one of the largest Rainforest, Indonesia will have many varieties of Exotic Tropical Wood with **Durability Strength** and **Wonderful Fragrant** properties.

Here in Indonesia, we have **abundant natural forestry and agricultural resources.**
